About this Supplement to ALLBUS/GGSScompact 2016

This document contains frequency tables by sex of respondent for the data of ALLBUS/GGSScompact 2016. The data in these tables is weighted by wghtpew (person-related East-West weight). This weight adjusts for the oversample of respondents in the new federal states. Therefore, the numbers in the tables are directly interpretable for Germany as a whole.

For more information on weighting ALLBUS/GGSS data, please refer to:

Terwey, Michael (2014):
Oversamples, Units of Analysis, and the Topic of Data Transformation. In: Terwey, Michael; Baumann, Horst (eds.): Variable Report ALLBUS / German General Social Survey Cumulation 1980-2012. Study No. 4580. GESIS - Variable Reports, No. 2014|9, Köln: GESIS, p. x-xvii.

Notes on ALLBUS/GGSScompact 2016 (Study No. 5253)

As an alternative to ALLBUS/GGSS 2016 with its relatively complex demography module, GESIS also offers this additional compact version with a reduced number of demographic variables. Providing an easily manageable selection of basic demographic descriptors, ALLBUS/GGSScompact addresses, amongst others, the needs of newcomers to data analysis. Moreover, access conditions for ALLBUS/GGSScompact are less strict than for the more extensive ALLBUS/GGSS data, because data protection issues are less salient.

However, for reasons of data protection some of the remaining demographic data still had to be simplified. A comprehensive account of recodes can be found in the next section of this document.

Apart from demography, all other questions have been retained in full in the compact version. Moreover, variable labels and variable numbers in ALLBUS/GGSScompact are the same as in the unabridged ALLBUS/GGSS data set. In this way, users may easily move between both versions of the ALLBUS/GGSS data if necessary.

Number of variables: 589

Further Notes:

Respondents from the area of the new federal states are oversampled.

The unabridged data for ALLBUS 2016 is available under the study numbers ZA5250, German version, and ZA5252 for the English version.
