German General Social Survey 2006

Evi Scholz and Martina Wasmer
German General Social Survey 2006

English Translation of the German „ALLBUS“-Questionnaire

Evi Scholz and Martina Wasmer
Preliminary Notes

Translation goals always effect the translation outcome. The goal of the English translation of the German Social Survey (ALLBUS) 2006 is to let interested researchers know what was asked in the survey. Our goal is not to procure a questionnaire that can be fielded in an English speaking community exactly as presented. Some of the translations, for example, are not especially idiomatic; reasons are given below. Our translations are not heavily annotated. Occasionally we provide additional information in square brackets [...]. If anyone wants to field ALLBUS items in English, we seriously recommend to take the points we made below into consideration and adjust the translations appropriately to his or her own survey context. If there are any questions where clarification is needed, we will be happy to help where possible.

We would like to take the opportunity to thank our translator for his patience and his valuable professional contribution. David Allison, a native English speaking translator, did the translation into English, decisions on the final translation are taken by the ALLBUS-team.

Particular points of relevance

Translation of the German indefinite pronoun 'man' which in some respect is like the English indefinite pronoun 'one':

The German 'man' is not formal and used in more and different contexts from 'one' in English. English equivalents, depending on context, can be 'one', 'you', 'we' or 'people'.

Gender specific reference:

German and English differ quite a lot in the way the sex of people is referred to. Various differences have meant that we sometimes translated with 'he/she' when the German has indicated the sex differently.
**Answer scales:**
Translation of answer scales is a special case (Harkness 1998). For some scales, we have attempted to provide translations that might actually work in an English field questionnaire. For other scales, where the German scale itself was perhaps unusual, we simply tried to translate the essence.

**Answer categories not read out (Don’t know (DK), etc.):**
The ALLBUS 2006 was mainly conducted as a computer-assisted-personal-interview (CAPI) and the DK categories such as ‘answer refusal’, ‘don’t know’ or ‘no answer’ were not read out to respondents.

**Interviewer specifications:**
Interviewer specifications are in italics, e.g. INT.: Please present card 31.

General notes to members

1. All notes which are not part of the questionnaire and intended only for members (for example, translation notes) are enclosed in pointed, angle brackets <like these>.

2. All the elements in questions which require local adaptation are enclosed in square brackets. These instructions often relate to adding the name of the relevant country. For example, in Britain “Generally, how would you describe taxes in [Country] today?” would read “Generally, how would you describe taxes in Britain today?”

3. All the elements in questions which are optional are enclosed in double round brackets ((like these)).

4. Q-numbers in parentheses – for example (Q1 1996): question numbers in 1996 questionnaire. For countries who participated in 1996, please use the same wording for these questions as you did then. (N) = new in 2006.

5. Translation and clarification notes are provided after the relevant question.

6. In general, if translators have difficulty when translating answer codes, they should focus upon translating the concepts expressed by the codes rather than the precise words used.

7. In 1996 no general translation note was provided as to what we meant by ‘government’. Unless there are very strong reasons not to, countries who participated in 1996 should use the same wording for ‘government’ as they did then. In general, by government we mean the central regime within a country (that is, any government that has been elected into power). In some countries the meaning of questions which refer to ‘government’ can be improved by adding ‘of any party’ after ‘government’ (to stress that it does not necessarily have to be the current government).
(Q1 1996)

1. In general, would you say that people should obey the law without exception, or are there exceptional occasions on which people should follow their consciences even if it means breaking the law? (✓)
