

Australia

ISSP 2014 Australia

Please name the **ISSP module** which the documentation refers to (e.g., “*Health and Health Care / ISSP2011*”):

**Citizenship II / ISSP2014**

Please name your **country**:

**Australia**

**SEX - Sex of respondent**

|                                | National Language | English Translation |
|--------------------------------|-------------------|---------------------|
| <i>Question no. and text</i>   | D1. Are you ...   |                     |
| <i>Codes/ Categories</i>       | 1 Male            |                     |
|                                | 2 Female          |                     |
| <i>Interviewer Instruction</i> | -                 | -                   |
| <i>Translation Note</i>        | -                 |                     |
| <i>Note</i>                    | -                 |                     |

**Construction/Recoding:**

| Country Variable Codes (in translation) | → SEX        |
|---|--------------|
| IF D1 = 1                               | 1. Male      |
| IF D1 = 2                               | 2. Female    |
| IF D1 = 9<br>IF SYSMIS(D1)              | 9. No answer |

**BIRTH – Year of birth**

This question can be asked as an alternative to asking about AGE. If BIRTH is not asked directly, it must be computed by DATEYR ‘year of interview’ minus AGE ‘age of respondent’.

|                                | National Language  | English Translation |
|--------------------------------|--|---------------------|
| <i>Question no. and text</i>   | D2. When were you born?  |                     |
| <i>Codes/ Categories</i>       | Range from 0 to highest  |                     |
| <i>Interviewer Instruction</i> | Please, write in the year of your birth (use four digits for the year) |                     |
| <i>Translation Note</i>        |  |                     |
| <i>Note</i>                    |  |                     |

**Construction/Recoding:** (list lowest, highest, and ‘missing’ codes only, replace terms in [square brackets] with real numbers)

|                     | Country Variable Codes/Construction Rules | →BIRTH          |
|---------------------|---|-----------------|
| <i>Construction</i> | COMPUTE BIRTH = D2.                       |                 |
| <i>Codes</i>        |   | [MIN BIRTH]     |
|                     |   | [HIGH BIRTH]    |

### ISCO08 - Occupation ISCO 2008

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

### SPISCO08 – Spouse, partner: occupation ISCO 2008

Please give the text of the source question(s) on the respondent's spouse occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

| All cases set to 0                        | 0. NAP, no substitution in this survey |
|   | 1. Case from original sample           |
|   | 2. Case substituted                    |

**Optional: Recoding Syntax**

|                       |
|-----------------------|
| COMPUTE SUBSCASE = 0. |
|-----------------------|

**WEIGHT – Weighting factor**

Please report on whether you calculate any weighting variables. If you adjust for non-response bias, please enter the variable(s) on which the sample's distribution(s) is (are) adjusted to the population distribution(s). Please, also report if you apply any kind of rescaling.

|  |   |   |
|--|---|---|
| <i>Design weight to adjust for unequal selection probabilities</i>   | No  | <input checked="" type="checkbox"/>   |
|  | Yes   | <input type="checkbox"/>  |
| <i>Weight to adjust for non-response bias</i>  | No  | <input type="checkbox"/>  |
|  | Yes   | <input checked="" type="checkbox"/> → please specify variables used for calculation of weight<br><br>AGE<br>SEX<br>EDUCATIONAL ATTAINMENT<br>(DERIVED FROM AU_DEGR) |
| <i>Are the final weights rescaled to net sample size (thus weighted sample size=unweighted sample size)?</i> | No  | <input type="checkbox"/> → please specify target population represented by sum of all case weights<br><br>_____   |
|  | Yes   | <input checked="" type="checkbox"/>   |
| <i>Note</i>  | Weights are currently not yet available for this sample.<br>The above responses are the basis for the intended weights for the data file. |   |

**Construction/Recoding:**

| Country Variable Codes/Construction Rules | → WEIGHT        |
|---|-----------------|
|   | 1. No weighting |

**MODE – Administrative mode of data-collection**

|             |   |
|-------------|---|
| <i>Note</i> | All cases were collected using mail-out mail-back self-completion (Category 34) |
|-------------|---|
