ISSP 2006 Netherlands

Please name the **ISSP module** which the documentation refers to (e.g., “*Work Orientations III / ISSP2005*”):

**WORK ORIENTATIONS III / ISSP2005**  
**ROLE OF GOVERNMENT III / ISSP2006**

**NB: This document applies to both modules of ISSP: the data were collected at the same time in a split ballot designs.**

Please name your **country**:

**NETHERLANDS**

**SEX - Sex of respondent**

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	Z01. Bent u man of vrouw? ( <i>Slechts één antwoord</i> )	Are you a man of a woman?
<i>Codes/ Categories</i>	Man -1	Man
	Vrouw -2	Woman
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>		

**Construction/Recoding:**

<b>Country Variable Codes (in translation)</b>	<b>→ SEX</b>
Man	1. Male
Woman	2. Female
Sysmiss	9. No answer, refused
Note	If refused to answer, we scrutinized the questionnaire for possible leads of se, such as occupations, occupational career.

**AGE - Age of respondent**

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	<b>Z02. Wanneer bent u geboren?</b>	When were you born?
<i>Codes/ Categories</i>	Month / Year	
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>		

**Construction/Recoding:** (list lowest, highest, and 'missing' codes only, replace terms in [square brackets] with real numbers)

	<b>Country Variable Codes/Construction Rules</b>	<b>→AGE</b>
<i>Construction</i>	<b>Age = year of mailback - year of birth -</b>	
<i>Codes</i>	19	[lowest]
	97	[highest]
	-	99. No answer, refused
<i>Note</i>	In case of refusal we looked for further cues to determine approximate age: year of ending education, year of entering labour force age of children	

**Optional: Recoding Syntax**

--

**MARITAL - R: Marital status**

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	<b>Z03a. Wat is uw officiële burgerlijke staat? (Slechts één antwoord)</b>	What is your <u>official</u> marital status?
<i>Codes/ Categories</i>	Gehuwd en samenwonend met echtgeno(o)t(e) – 1	Married and living with spouse
	Weduwe/ Weduwnaar -2	Widow/er
	Gescheiden – 2	Divorced
	Gehuwd, maar gescheiden van tafel en bed - 4	Married, but separated
	Alleenstaand, nooit gehuwd geweest -5	Single, never been married
<i>Interviewer Instruction</i>		
<i>Translation Note</i>	“gescheiden van tafel en bed” is formally a legal status, but may be understood to cover other forms of separation.	
<i>Note</i>		

**Construction/Recoding:**

<b>Country Variable Codes/Construction Rules</b>	<b>→ Marital</b>
Married and living with spouse	1. Married, living with legal spouse
Widow/er	2. Widowed
Divorced	3. Divorced
Married, but separated	4. Separated (married but separated / not living with legal spouse)
Single, never been married	5. Single, never married
Sysmiss	9. No answer, refused

**Optional: Recoding Syntax**

--

**COHAB – R: Steady life-partner**

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	Z03b. Als u niet gehuwd bent en niet samenwoont met uw echtgeno(o)t(e), woont u dan wel samen met een partner? ( <i>Slechts één antwoord</i> )	If you are not married and do not live with your spouse, do you still live with a partner?
<i>Codes/ Categories</i>	Ja, ik woon samen met een partner – 1	Yes, I do live with a partner
	Nee, ik woon niet samen, ik heb wel een partner – 2	No, i do not live with a partner, but I do have a partner
	Nee, ik heb geen partner – 3	No, i have no partner
<i>Interviewer Instruction</i>		
<i>Translation Note</i>	Echtgeno(t)e = legal husband / wife	
<i>Note</i>	The formulation of this question should be changed, it is very confusing.	

**Filter Variable(s) and Conditions:**

--

**Construction/Recoding:**

<b>Country Variable Codes/Construction Rules</b>	<b>→COHAB</b>
Yes, I do live with a partner	1. Yes
No, i do not live with a partner, but I do have a partner	2. No
No, i have no partner	9. No answer, refused
Sysmiss	0. NAP (living together with spouse - Code 1 in MARITAL, no partner)

**Optional: Recoding Syntax**

--

**EDUCYRS - R: Education I: years in school**

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	<b>Z06f. Hoeveel jaar onderwijs hebt u na de basisschool in totaal gevolgd?</b>	How many years of education have you attended after primary school?
<i>Codes/ Categories</i>	Open / jaar	Open / years
<i>Interviewer Instruction</i>		
<i>Translation Note</i>	“Basisschool” would refer to various names of primary (and preprimary) education) in the past. Whatever its name has been in the past, this type of education has always ended at age 12, i.e. grade 6 in the old system and grade 8 in the new system. The difference is due to the inclusion of pre-primary education in the accounting. However, holding back students in primary school has been common practice, so some will have stayed in “basisschool” until a later age, including some who have never finished and left at age 14 or 15.	
<i>Note</i>	For the calculation of EDUCYRS 6 years were added to the response to Z06f.	

**Filter Variable(s) and Conditions:**

--

**Construction/Recoding:** (list lowest, highest, and ‘missing’ codes only, replace terms in [square brackets] with real numbers)

<b>Country Variable Codes/Construction Rules</b>	<b>→ EDUCYRS</b>
6	[lowest]
27	[highest]
Derived from separate questions Z08	95. Still at school
Derived from separate questions Z08	96. Still at College/University
	97. No formal schooling
	98. Don't know
	99. No answer, refused
Sysmiss	00. NAV

**Optional: Recoding Syntax**

--

## DEGREE – R: Education II: categories

	National Language	English Translation
<i>Question no. and text</i>	<b>Z06a. Wat is uw hoogst voltooide opleiding?</b>	
<i>Codes/ Categories</i>	Basisonderwijs – 1	Primary education
	Lbo / Huishoudschool / Lhno / Lts / Vbo / VmboB (Beroepsgericht) – 2	Various lower vocational schools
	Mavo / Ulo / Mulo / VmboT (Theoriegericht) – 3	Various academic middle schools – lower level
	Havo / Mms – 4	Various academic middle schools – middle level
	Vwo / Hbs / Atheneum / Gymnasium – 5	Various academic middle schools – higher levels
	Mbo / leerlingwezen – 6	Middle-level vocational schools / Apprenticeships
	Hbo – 7	Higher-level vocational education
	Universiteit – 8	University
<i>Interviewer Instruction</i>		
<i>Translation Note</i>	Alternatives in the question cover historical names for same level of education. 2 – 3 – 4 – 5 constitute the choices faced at age 12. 6 is a postsecondary level, following 2- 3 – 4. 7 is tertiary and follows 4 or 6. University follows 5.	
<i>Note</i>		

**Filter Variable(s) and Conditions:**

--

**Construction/Recoding:**

Country Variable Codes/Construction Rules	→DEGREE
Primary education	0. No formal qualification
Various lower vocational schools	1. Lowest formal qualification attainable
Various middle schools – lower level Various middle schools – middle level	2. Qualifications which are above the lowest qualification, but below the usual entry requirement for universities (intermediary secondary completed)
Various middle schools – higher levels	3. (Usual) Entry requirement for universities (higher secondary completed: the German Abitur, the French Bac, English A-level, etc.)
Middle vacations schools / Apprenticeships Higher vocational education	4. Qualifications which are above the higher secondary level, but below a full university degree
University	5. University degree completed
Sysmiss	9. No answer

**Optional: Recoding Syntax**

**WRKST - Current employment status, main source of living**

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	<b>Z07. Wat is momenteel uw belangrijkste bezigheid?</b>	What is at present you main activity?
<i>Codes/ Categories</i>	Full-time betaald werk (35 uur en meer) – 1	Full-time paid work (35 hours or more)
	Part-time betaald werk (12 tot 34 uur) -2	Part-time paid work (12 to 34 hours)
	Minder dan part-time betaald werk (minder dan 12 uur) -3	Less than part-time paid work (less than 12 hours)
	Meewerkend gezinslid – 4	Works in family firm
	Werkloos – 5	Unemployed
	Scholier / Student – 6	At school / student
	Gepensioneerd – 7	Retired
	Huisvrouw / -man – 8	Housewife / man
	Arbeidsongeschikt – 9	Disabled
	Anders, namelijk: (vul in) - 10	Other specify
	Niet van toepassing - 11	Not applicable
<i>Interviewer Instruction</i>		
<i>Translation Note</i>	Question is at variance with received definition in the Netherlands, where full-time = 32 hours or more. Standard work week is 36 or 38 hours at present.	
	“Scholier” = in education outside university	
<i>Note</i>	Alternative 11 should not have been provided.	

**Filter Variable(s) and Conditions:**

**ISCO88 - R: Occupation ISCO 1988**

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO88-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO88 codes *attached as a separate file*. Please report which kind of ISCO code you apply. The most common ones are the code developed by the International Labour Organisation (ILO) and the variant developed for the European Union (EU), ISCO-COM. If you apply another variant such as ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, then please specify.

Please do **not** enter **standard** ISCO88 codes here. But please report if your country **adds** or **changes** codes compared to ISCO88, if any.

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	<b>Z13a. Wat is / was precies uw huidige / laatste functie?</b>	What is or was your current / last occupation?
<i>Codes/ Categories deviating from ISCO88 / ISCO88-COM</i>	1240 [office manager] 1250 [military officers] 2322 [second voc teacher] 3451 [police inspectors-detectives] 3452 [armed forces non-commissioned officers + army nfs] 6133 [farmer nfs] 7510 [non farm foremen nfs] 7520 [skilled manual nfs] 8400 [semiskld worker nfs]	
<i>Interviewer Instruction</i>		
<i>Translation Note</i>	"Functie" would primarily be understood as referring to job title. The word "beroep" is used in the precoded version of the question that preceded z13a.	
<i>Note</i>	ISCO-88 codes are converted from national occupation codes, provided by Statistics Netherlands 1984, which is very close to ISCO-68.	
<i>Use of ISCO</i>	ISCO88 (ILO)	<input type="checkbox"/>
	ISCO88-COM (EU variant)	<input type="checkbox"/>
	Other ISCO88 variant	<input type="checkbox"/> → please specify Adaptation introduced by Ganzeboom & Treiman, Social Science Research 1996.

**Optional: Recoding Syntax**

--

#### **4. Country Questionnaire**

Please provide the part(s) of your country questionnaire that relate(s) to the background variables reported in this template. If these variables are already covered by your country's field questionnaire delivered with your national ISSP data file, then just tick on the last page of this document. (PDF or MS Word format preferred.)

Already included in field questionnaire provided with the country data file.

Attached file: XXXXX.XXX

#### **5. Frequency Distributions of Source Variables**

Please supply frequency distributions with absolute and relative frequencies, missing values *included*, for **all** source variables. *Source variables* are the country-specific variables **before** recodes into ISSP standard variables are done. (MS Word or simple ASCII file preferred.)

Attached file: issp2005\_nl\_freq.txt and issp2006\_nl\_freq.txt.

#### **6. Correspondence list ISCO88<->national occupation codes**

If your country derives ISCO88 codes from a national occupation coding scheme, please supply a correspondence list of national codes and ISCO88 codes. (MS Word or simple ASCII file preferred.)

ISCO88 is used to code responses directly.

Conversion of national coding scheme to ISCO88. Attached file: ZZZZZZ.ZZZ.

# ISSP Background Variable Documentation

by

Markus Quandt and Evi Scholz, ZA/ZUMA-GESIS

on behalf of the

ISSP Demographics Method Group

(Germany, Mexico, Norway, the Philippines, South Africa, Spain, Sweden, Switzerland, Taiwan, and the Central Archive)

Users of the international ISSP data file should have all relevant information to understand the construction of the ISSP background variables. Thus the ISSP has decided to provide a documentation of its background variables and to regularly update this documentation (decisions of the ISSP General Meetings in 2005 and 2006). The information collected with this document will be published with the ISSP data files. Furthermore, it will help to discuss and decide on streamlining the ISSP background variables.

The Demographics Method Group asks you to provide information on all your ISSP background variables. The document at hand serves to collect and structure this information from ISSP members in a template.

The document consists of three sections: Section 1 of this documentation refers to basic elements: source description, information on filters and routing, and construction information. In section 2, as an example, we present the relevant information for the variable WRKHRS (weekly working hours) from Norway. Section 3 finally offers the documentation template for all ISSP background variables.

If you have any questions on the documentation, please do not hesitate to contact us:

[issp@zuma-mannheim.de](mailto:issp@zuma-mannheim.de) or [isspservice@za.uni-koeln.de](mailto:isspservice@za.uni-koeln.de)

## 1. Basic Elements

For each of the variables listed in section 3 below, please give the following information as applicable.

### ❖ Source description

- Please give the **question no./position/name(s)** used in your field questionnaire and report additional information sources, for example, if interviewer observation was used instead of asking questions to respondents. If your ISSP is run with a larger survey and the background variable is taken from this survey, then refer to that (those) source question(s). Please make a **note** from which survey the question(s)/variable(s) come(s) (see below).
- Please give the text of the **original question(s)** exactly as used in your field questionnaire and **in your national language**.
  - Please include all **response categories** of the original field questionnaire.
  - Please give **interviewer instructions** if necessary to understand the generation of response codes.
- Please **translate original questions, response categories and interviewer instructions** into English.

- Please provide **notes** if needed. Notes can address both possible translation issues (**translation note**) and country specific particularities of question background, of variable generation or of the meaning of individual response categories (**note**).
  
- ❖ **Filter Variables and Conditions:** If any variables cover only part of the sample, please list the conditions (questions/variables and categories/codes) used to define the *excluded cases*. In other words, report the conditions which lead to a ‘not applicable’ code in the variable following the filter.
  
- ❖ **Construction/Recoding**
  - Please report how the codes of the ISSP target variable were derived from your source data.
  - Please use a table of correspondence with source and target codes (see the example in section 2 and tables in section 3).
  - If construction of ISSP target codes involves more than simple 1-1 relationships between source and target codes, please use roughly Boolean syntax as shown in the example 2 below. Command syntax of common statistics programs is also welcome. Just put the syntax used into the “Optional: Recoding Syntax” box if you consider that it will increase comprehensibility and transparency.
  - Please always (also for country specific variables) report how the ISSP missing values (not applicable-NAP, no answer-NA, don’t know-DK) were filled.
  
- ❖ **Complementary information (see last page)**
  - Please provide the part(s) of your country questionnaire that relate(s) to the background variables reported in this template. If these variables are already covered by your country’s field questionnaire delivered with your national ISSP data file, then just tick the box on the last page of this document. (PDF or MS Word format preferred.)
  - Please also supply frequency tables with absolute and relative frequencies, missing values *included*, for **all source** variables. *Source variables* are the country-specific variables **before** recodes into ISSP standard variables are done. (MS Word or simple ASCII file preferred.)
  - If your country derives ISCO88 codes from a national occupation coding scheme, please supply a correspondence list of national codes and ISCO88 codes. (MS Word or simple ASCII file preferred.)

## 2. Worked Example

The Norwegian example for the variable WRKHRS is constructed from two variables referring to two questions in the Norwegian field questionnaire.

### WRKHRS - Weekly working hours

	National Language	English Translation
<i>Question no. and text</i>	43. Har du, eller har du tidligere hatt inntektsgivende arbeid?	43. Are you- or have you ever been in paid work?
<i>Codes/ Categories</i>	1 Ja, jeg har inntektsgivende arbeid nå	1 Yes, I am in paid work at present
	2 Ja, men jeg er midlertidig borte p.g.a. permisjon, sykdom e.l	2 Yes, but on temporarily leave, due to illness, on leave, or similar
	3 Ja, jeg har hatt inntektsgivende arbeid tidligere	3 Yes, I was in paid work before
	4 Nei	4 No
<i>Interviewer Instruction</i>	Vi er interessert i alt arbeid, selv om det bare dreier seg om noen få timer pr. uke. Sykemelding, permisjon og arbeid som familiemedlem uten fast avtalt lønn, regnes som inntektsgivende arbeid. Kun ett kryss mulig	We are interested in all kinds of work, even of just a few hours a week. Sick leave, other leave, as well as working as a family member without a fixed salary count as paid work. Tick one box only
<i>Question no. and text</i>	47. Hvor mange timer arbeider/ arbeidet du vanligvis pr. uke i ditt hovedyrke?	47. How many hours do/did usually work weekly in your main job?
<i>Interviewer Instruction</i>	Timer pr. uke. Regn også med betalte overtidstimer og arbeid hjemme i forbindelse med hovedyrket. Kun ett tall pr. rute. Dersom du har/hadde flere jobber, gi svar om ditt hovedarbeidsforhold.	Hours per week. Please include overtime as well as work hours at home in main job. Just one figure in each box. If you have/have had several jobs, please answer about you main job

### Filter Variable(s) and Conditions:

Question 43: Ask all  
Question 44 to 51: To be answered by those in paid work now or ever (code 1-3 at question 43)

**Construction/Recoding:** (list lowest, highest, and 'missing' codes only, replace terms in [square brackets] with real numbers)

Country Variable Codes/Construction Rules	→WRKHRS
if question 43=4 then WRKHRS=0	00. NAP (currently not in labour force – Code 5-10 in WRKST)
1 Hour	[1]
95 Hours	[95]
WRKHRS=question 47	
- not used -	96. 96 and more
- not used -	97. Refused
- not used -	98. Don't know
if question 47=0 then WRKHRS=.	99. No answer

### 3. Variable List

In the following you will find forms to ease documentation of the points described in section 1 above.

#### Some Hints to Fill in the Forms

- Please fill in the forms on the screen and return the file to <[isspservice@za.uni-koeln.de](mailto:isspservice@za.uni-koeln.de)> – please do *not* return a printout using paper and pencil!
- In general, please feel free to be flexible in using the forms. If necessary adopt them to your reporting needs. In particular:
  - Please insert as many additional fields as needed, e.g. add lines if your country variable has more categories than the template provides.
  - Please skip fields not needed, e.g. skip ‘note’ lines if no note is required.
  - If individual response categories require separate notes, insert as many additional lines as necessary *below* the respective category.
  - If your field questionnaire has more than one language version, please replicate the complete ‘National Language - English Translation/Note’ block as often as needed.
- The question numbers should refer to the numbers of your original field questionnaire.
- For variables with continuous data (AGE, WRKHRS...), please list the lowest and the highest valid codes empirically found in your country’s data and the various non-response codes, e.g. NAP (not applicable), NA (not available), DK (don’t know); if additional non-response codes occur in your data, such as ‘refused’, please add.
- If source variables are relevant for *several* ISSP target variables, please copy the information for the source variables each time to offer a complete documentation of the individual ISSP target variable.
