Senior Researcher & International Consultant Torben Fridberg

Sample type:

Sampling-procedure: A representative sample (simple random sample) was drawn from the Central Population Register (CPR) – which is a national register of all Danish citizens – from which respondent's name and address were identified. Thus, the sampled unit was 'named individuals'. No stratification, clustering etc. was employed.

Fieldwork institute:

Rambøll Denmark A/S
Hannemanns Allé 53
DK-2300 København S
T +45 5161 1000 - F +45 5161 1001
E ramboll@ramboll.dk
W www.ramboll.dk

Fieldwork methods:

Web based and postal survey (self-completion). If non-response then telephone interviews were used.

For the 18 to 65 years old an introduction letter was posted including a link to a web-enquete and a personal code to activate the survey. For the 66 years and older an introduction letter and a postal enquete was posted.

Follow up by telephone where the respondents were given the choice between CAWI, postal and CATI.

N. of respondents:

1297

Details about issued sample:

Please follow the standards laid down in AAPOR/WAPOR, Standard Definitions: http://www.aapor.org/uploads/standarddefs_4.pdf. The numbers in the parentheses are those used in Tables 2 and 3 of Standard Definitions.

1. Total number of starting or issued names/addresses (gross sample size) *	<u>2500</u>
2. Interviews (1.0)	<u>1297</u>
A. Complete Interviews (1.1)	1235
B. Partial interviews (1.2)	62
3. Eligible, Non-Interview	<u>1203</u>
A. Refusal/Break-off (2.10)	657
B. Non-Contact (2.20)	347
C. Other	76
i. Language Problems (2.33)	49
ii. Physically or mentally unable (2.32)	74
iii. Miscellaneous Other (2.31, 2.35)	
3. Unknown Eligibility, Non-Interview (3.0)
4. Not Eligible	
A. Not a Residence (4.50)

B. Vacant Residence (4.60)
C. No Eligible Respondent (4.70)
D. Other (4.10,4.90)

* When new sample units are added during the field period via a new dwelling units list or other standard updating procedure, these additional issued units are added to the starting number of units to make up the total gross sample size. Also, when substitution is used, the total must include the originally drawn cases plus all substitute cases. See AAPOR/WAPOR Standard Definitions, pp. 9-10 for further clarification.

Language(s): Danish

Weight present: No

Weighting procedure: None

Known systematic properties of sample: None

Deviations from ISSP questionnaire: The ISSP module was the main part of a larger survey. After question 23 of the ISSP-module an extra question battery was attached with 6 questions and a total of 27 items. Prof. Christian Albrect Larsen and Associate prof. Sanne Lund Clement, Aalborg University, fielded the supplementary questions. The questions were about political consumerism and organic food.

Some questions have been omitted due to some missing questions in the Danish questionnaire. The questions omitted are concerning the following variables: TYPORG1, PARTLIV, SPWRKWHRS, HHTOOD.

Concerning the variables EMPREL and SPEMPREL the questions in the Danish questionnaire are not applicable. They will for that reason not fully cover the international aim.

MODE has been added two options - 50. CAWI, Computer assisted web interview and 60. CATI, Computer assisted telephone interview.
