Study Description

ISSP Study Description Form

Please use this form for reporting on Module 2006 and later!

Study title: ISSP – Könnun á viðhorfum Íslendinga til umhverfismála

Fieldwork dates: Start date: 2012-03-21. End date: 2012-11-28.

Principal investigators: Ásdís A. Arnalds & Sara Sigurbjörns-Öldudóttir

Sample type: Simple random sample of national citizens in Iceland

Fieldwork institute: The Social Science Research Institute of the University of Iceland

Fieldwork methods: Mixed mode mail and internet survey. Respondents contacted via telephone and invited to choose to respond via mail or an e-mailed link to online survey.

N. of respondents: number of respondents in the final ISSP file:

Details about issued sample:

Please follow the standards laid down in AAPOR/WAPOR, Standard Definitions: http://www.aapor.org/uploads/standarddefs_4.pdf. The numbers in the parentheses are those used in Tables 2 and 3 of Standard Definitions.

1. Total number of starting or issued names/addresses (gross sample size) *	1500
2. Interviews (1.0)	798
3. Eligible, Non-Interview	
A. Refusal/Break-off (2.10)	624
B. Non-Contact (2.20)	38
C. Other	
i. Language Problems (2.33)	9.....
ii. Miscellaneous Other (2.31, 2.32, 2.35)	21
3. Unknown Eligibility, Non-Interview (3.0)
4. Not Eligible	
A. Not a Residence (4.50)	6.....
B. Vacant Residence (4.60)
C. No Eligible Respondent (4.70)
D. Other (4.10,4.90)	4.....

* When new sample units are added during the field period via a new dwelling units list or other standard updating procedure, these additional issued units are added to the starting number of units to make up the total gross sample size. Also, when substitution is used, the total must include the originally drawn cases plus all substitute cases. See AAPOR/WAPOR Standard Definitions, pp. 9-10 for further clarification.

Language(s): Icelandic

Weight present: no

Weighting procedure: none

Known systematic properties of sample: Due to non-response the basic socio-demographic characteristics – age, education, and gender - are significantly different from the known population characteristics.

Deviations from ISSP questionnaire: none

Publications: none
