Iceland
ISSP 2015 – Work Orientations IV
Questionnaire
(English)
The aim of the survey is to examine public attitudes, with a focus on work orientation. Amongst other things examined will be what matters most to Icelanders regarding work and the effects of work on family life. The responses of participants will help scholars, students and others interested in research related to work orientations. The main results will be published on the Social Science Research Institute’s website next winter.

You are not obliged to answer the survey as a whole or individual questions. Nevertheless it is important that all questions are answered so that the results are as reliable as possible. All responses are confidential and the results will only be published in a manner that ensures that answers cannot be traced back to individual respondents.

Thank you in advance and with hope for a good reception,

Guðbjörg Andrea Jónsdóttir
Director, Social Science Research Institute
