Data Protection – Data controllers' perceptions

ARCHIVE INFORMATION AND ERRATA

- **REGION:** Categories are not documented and do not clearly match with official NUTS classification. Data for Ireland, United Kingdom and Norway are not available. Variable has been dropped for the public use file.
- **No documentation was provided for ACTIVITY variable (SIC/NACE).** Categories are not consistent with official NACE and/or SIC classification of economic activities. Variable has been dropped for the public use file. **COMPANY ACTIVITY** on a general level is recorded in variable D3.
- **NUTS:** Value labels for **REGIONS** (by **COUNTRY**) have been recorded in accordance with form Flash Eurobarometer and/or with the official NUTS scheme. This was not unequivocally possible for Italy, Poland, Portugal and Slovenia.
- **REG_SIZE:** Variable is supposed to indicate the “number of persons employed”, but data do not coincide with the technical report and the **COMPANY SIZE** (within the respective country) in variable **SEGMENT** or **D2**. Documentation is not clear (total n of employees in any country?). Variable **REG-SIZE** should only be used with caution.
