**Survey conducted by The Gallup Organization, Hungary upon the request of
the EC Representation in Ireland**

Data set version 1.0.0 (2010-06-02)

ARCHIVE INFORMATION AND ERRATA

- A SPLIT SAMPLE has been applied for Q14 and Q22, i.e. the corresponding items have not all been asked to the complete sample. This is reflected by variable (question) NEW1 with 962 missing cases (system missing) in the original data set. The complete answers to this question are available in variable P3 (all cases coded). The split is not documented in particular, apart from a note regarding Q14 in the official report (chart legend on page 29). The application of the SPLIT reproduces the correct results for Q14 and Q22 in accordance with the official report (weighted frequencies). Split cases have been recoded to '99' or '999' in NEW1, Q14 and Q22.
- Variable P4 corresponds to question NEW2 in the questionnaire.
