GLES 2013
Short-term Campaign Panel
Control Group I (to Panel Wave 3)
ZA5753, Version 3.0.0

Documentation of Questionnaire
The German Longitudinal Election Study (GLES) is a long-term project funded by the German Research Foundation (Deutsche Forschungsgemeinschaft) which started with the 2009 federal election and is continued with the federal election 2013. GLES is the largest and most ambitious election study held so far in Germany.

GLES 2013 was directed by five principal investigators: Prof. Dr. Hans Rattinger (University of Mannheim), Prof. Dr. Sigrid Roßteutscher (University of Frankfurt), Prof. Dr. Rüdiger Schmitt-Beck (University of Mannheim) Prof. Dr. Bernhard Weßels (Social Science Research Center Berlin) and Prof. Dr. Christof Wolf (GESIS – Leibniz-Institute for the Social Science) in close cooperation with the German Society for Electoral Studies (Deutsche Gesellschaft für Wahlforschung).

The following documentation refers to the Short-term Campaign Panel Control Group I (ZA5753) of GLES and will give you some general information about the dataset.

**Basic information**

- **Funding Agency**: German Research Foundation (Deutsche Forschungsgemeinschaft)
- **Data Collector**: Bamberg Center for Empirical Studies (BACES), Bamberg
- **Date of collection**: Short-term Campaign Panel 06/20 – 10/04/2013
  - Control Group I 08/01-08/11/2013
- **Content**: In addition to the panelists of the Short-term Campaign Panel 2013, three independent samples are drawn which are then interviewed with the same questionnaire and at the same time as the panel waves three, five, and seven. By comparing the panel and cross-section respondents, it is possible to analyze if and to what extent the repeated interview of the same respondent influences the measurement of political attitudes and political behavior.

**Methodology**

- **Geographic Coverage**: Germany (DE)
- **Universe**: The target population of the Campaign Panel comprises all German citizens who were eligible to vote in the election to the German Bundestag on September 22, 2013. Due to the decision to collect the data of the Campaign Panel online the frame population is restricted to members of the nonprobability online panel of the Respondi AG who were eligible to vote in the 2013 election to the German Bundestag. The online panel comprised about 96,445 active panelists in Germany in 2013. The members of the Access-Panel are mainly recruited online. A smaller proportion is recruited by telephone.
- **Selection Method**: Quota sampling of the frame population of the Online-Access-Panel by age, sex and education
- **Mode of Data Collection**: Online Panel Survey with standardized questionnaire
- **Weights**: This study comprises two weights which adjust socio-demographical characteristics of all participants in wave one to two different known distributions. First to the
microcensus 2012 which is representative for the german electorate and second to the (N)Onliner-Atlas 2012 for the german online population.

**Data access**

**Usage regulations**

Data and documents are released for academic research and teaching: access category A.

**Anonymized data**

According to German privacy, only anonymized data can be made accessible for public download. Based on this, some variables had to be deleted from the publicly available dataset. As a matter of course no information is lost: All variables can be used by interested researchers in a Secure Data Center (SDC) at GESIS (Cologne, Mannheim). Some variables are also available by signing a user contract. If you are interested in those variables please send an E-Mail to gles@gesis.org. An overview of those variables can be found on our homepage (www.gesis.org/gles).

**Errata**

The most recent errata list is provided by the GESIS Data Catalogue (www.gesis.org/dbk). There you can also find a list of all changes made between the different versions of the dataset.
**Variable:** kp3_screen1  
**Topic:** Screening  
**Item:** Right to Vote

**Filter:**
**Presentation:**
Single response list (vertical); must answer. Plausibility check: If no answer was given, then the following text will be displayed: „Answering this question is important for the rest of the survey. Please state whether your are eligible to vote. “

**Question:**  
Are you eligible to vote on the Federal election on September 22\textsuperscript{nd} 2013?

- Yes  
- No  
- Don’t know

**Transfer from filter:** kp3_screen1= 2 >> survey finished.

**Coding:**
(1) yes  
(2) no  
(-98) don’t know

---

**Variable:** kp3_screen2  
**Topic:** Screening  
**Item:** Right to Vote, inquiry

**Filter:** kp3_screen1 = -98  
**Presentation:**
Single response list (vertical); must answer. Plausibility check: If no answer was given, then the following text will be displayed: „Answering this question is important for the rest of the survey. Please state whether you are eligible to vote. “

**Question:**  
You are eligible to vote in the federal election, if you are at least 18 years old, German citizen and if you have had your permanent residence in Germany for at least three months. Do all of these criteria apply to you?

- Yes  
- No

**Transfer from filter:** kp3_screen2= 2 >> survey finished.

**Coding:**
(1) yes  
(2) no

---

**Variables:** kp3_2280; kp3_2291; kp3_2290  
**Topic:** Sociodemography  
**Items:** Gender; Month of Birth, Year of Birth

**Presentation:**
must answer; the following four questions are displayed on one screen; plausibility check: If no/or invalid answers were made, the following request follows: „One or more answers are invalid. Please answer all questions. “;

**Filter:**
**Presentation:**
Single response list (vertical)

**Question kp3_2280:**
Please state your gender

- male  
- female

**Coding:**
(1) male  
(2) female

**Filter:**
**Presentation:**
Closed response list
**Question kp3_2291:**
In what month were you born?

- Please select
- January
- February
- March
- April
- May
- June
- July
- August
- September
- October
- November
- December

**Coding:**
(0) please select
(1) January
(2) February
(3) March
(4) April
(5) May
(6) June
(7) July
(8) August
(9) September
(10) October
(11) November
(12) December

**Filter:**

**Presentation:**
Text field (single row) with two numerical digits; plausibility check: Only numerical values between 01 and 95 are possible! If respondent $\geq 96$ he/she does not belong to the target group and will be removed after one general plausibility check (see above).

**Question kp3_2290:**
Please enter the year you were born in.

19_

**Coding:**
01-95

---

**Variable:** kp3_2320

**Topic:** Sociodemography

**Item:** School leaving certificate

**Filter:**

**Presentation:** must answer; single response list (vertical); plausibility check: Please note that an answer to this question is mandatory for continuing the survey. If you have acquired your school leaving certificate outside of Germany, please state the respective German certificate.

**Question:**
What general school leaving certificate do you have?

- Finished school without school leaving certificate
- Lowest formal qualification of Germany's tripartite secondary school system, after 8 or 9 years of schooling ("Hauptschulabschluss, Volkschulabschluss")
- Intermediary secondary qualification, after 10 years of schooling ("Mittlere Reife, Realschulabschluss, oderPolytechnische Oberschule mit Abschluss 10. Klasse")
- Certificate fulfilling entrance requirements to study at a polytechnical college ("Fachhochschulreife (Abschluss einer Fachoberschule etc.")")
- Higher qualification, entitling holders to study at a university ("Abitur or Erweiterte Oberschule mit Abschluss 12. Klasse (Hochschulreife)")
- I am still in high school
Coding:
(1) Finished school without school leaving certificate
(2) Lowest formal qualification of Germany’s tripartite secondary school system, after 8 or 9 years of schooling (“Hauptschulabschluss, Volksschulabschluss”)
(3) Intermediary secondary qualification, after 10 years of schooling (“Mittlere Reife, Realschulabschluss or Polytechnische Oberschule mit Abschluss 10. Klasse”)
(4) Certificate fulfilling entrance requirements to study at a polytechnical college/university of applied sciences (“Fachhochschulreife (Abschluss einer Fachoberschule etc.)”)
(5) Higher qualification, entitling holders to study at a university (“Abitur or Erweiterte Oberschule mit Abschluss 12. Klasse (Hochschulreife)”)
(9) I am still a high school student

Variable: kp3_2601
Topic: Socio-demography
Item: Federal state

Filter:
Presentation:
must answer; single response list (vertical); plausibility check: If no answer was given then the following text will be shown: “Answering this question is very important for the rest of the survey. Please state the federal state you live in.”

Question:
And in which federal state do you live?

- Baden-Wuerttemberg
- Bavaria
- Berlin
- Brandenburg
- Bremen
- Hamburg
- Hesse
- Mecklenburg-Western Pomerania
- Lower Saxony
- North Rhine Westphalia
- Rhineland Palatinate
- Saarland
- Saxony
- Saxony Anhalt
- Schleswig-Holstein
- Thuringia

Intro:
There are different reasons for voters to choose a certain party.

Question on screen 1:
To what extent do you agree with the following statements concerning your voting decision?

I have voted for this party with my second vote because…

(A) I feel attached to this party.
(D2) this party represents the right positions in important political questions.
(E2) this party has the best politicians.
(B) I always vote for this party.
(H) I wanted to allow for a certain coalition to form
(L) I wanted to influence who becomes chancellor

Question on screen 2:
And to what extent did the following reasons influence your decision to give your second vote to this party?

(C) I decided for this party spontaneously
(G2) Surveys influenced my vote decision.
(K2) I wanted to teach the established parties a lesson.
(I2) Statements by politicians during the campaign influenced my decision.
(J) Personal conversations influenced my decision.
