Introduction and preliminary remarks

The Federal Study from July/August 1953 was the groundwork of a research project from the UNESCO-Institute of Social Sciences, Cologne, on the occasion of the federal election. The study got approval and financial support by the UNESCO. The questionnaire was designed by members of the research team from the UNESCO-Institute of Social Sciences, Cologne, under the administration of Erich Reigrotzki and in cooperation with Elisabeth Noelle-Neumann (IfD). The sampling was conducted by the DIVO Institut, Frankfurt am Main, and the Institut fuer Demoskopie (IfD), Allensbach.

The aim of the survey, which has been conducted two months before the federal elections, was to get information about the participation of the adult population concerning political, social and commercial life. Another aim was to get information about relationships within the family and the community. The survey comprises elements of social participation in the following fields: church, associations, family, friends, neighborhood as well as leisure time (particularly the consumption of mass media) and occupational ties. A further part of the survey deals with political questions (for example attitudes towards parties, political interest, election intention etc.).

This report comprises four parts: part one presents a description of the Federal Study, including bibliographic information, an abstract, methodological comments, notes to the weighting and general information on the data processing. The second part offers general information on the documentation standard. Part three provides a short explanation of the variable documentation itself. Part four contains the variable documentation: the documentation of each variable including complete question texts with all answer categories enriched with archival remarks. In addition, this Variable Report presents frequency distributions for all substantial and demographic variables. All frequency distributions are based on unweighted data.

Data access

Data for statistical analysis and related documentation (original questionnaires, Variable Reports) are made available by GESIS – Leibniz-Institute for the Social Sciences by the online platforms GESIS Data Catalogue (<https://dbk.gesis.org/dbksearch/home.asp?db=e>) or by ZACAT (<http://zacat.gesis.org>), the GESIS Online Study Catalogue. Access to the Data Catalogue and ZACAT is free of charge; download of data sets requires registration.

The [GESIS Data Catalogue](#)¹ offers study descriptions of the German Election Studies 1949-2009, which comprise methodological information, version history and errata. In addition, the GESIS Data Catalogue provides datasets and related documentation for download.

[ZACAT](#)² offers data and documentation for full-text search as well as for online analysis.

Usage requirements

To get an overview over the use of the GESIS Data Archive, all users are requested to send bibliographic citations for each completed manuscript or thesis abstracts. Please explain in an accompanying letter, which data (study as well as respective variables) you have used.

Disclaimer

Neither the original collector of the data, nor GESIS bear any responsibility for the use of the data or any data analyses.

1 Study Description – Federal Study 1953

1.1 Bibliographic information

1.1.1 Archive study number

GESIS Study number: ZA0145 (Federal Study 1953)

Current Version: 2.0.0, 2015-02-18, [doi:10.4232/1.11992](https://doi.org/10.4232/1.11992)

1.1.2 Title and subtitle

Federal Study 1953

1.1.3 Principal investigator

Reigrotzki, Erich - UNESCO-Institut fuer Sozialwissenschaft, Cologne

1.1.4 Bibliographic citation

Publications based on data provided by GESIS – Leibniz Institute for the Social Sciences, should acknowledge those sources by means of bibliographic citations. To ensure that such source attributions are captured for social science bibliographic utilities, citations should appear in footnotes or in the reference section of publications.

How to cite the data:

1.2 Content

1.2.1 Abstract

Living habits of the German population after the stress in the Second World War. Conduct in occupation and neighborhood as well as church life. Attitude to family. Political conduct.

Topics: Attitude to the political system; political interest; extent to which informed politically (index); attitude to the European defense community and to the Adenauer government; voting decision in the Federal Parliament election 1949; general party preference or voting intent; attendance at party and election meetings; party membership; original occupation wish and perhaps reasons hindering; occupation of father; index of occupational mobility of generations; satisfaction with occupation and job satisfaction; interest in employment; family size; salience of family; social activities within the family; agreement and topics of conversation between the spouses; extent and regional scope of the circle of friends; preferred conversation partner; actual relations

with neighbors; desired neighborhood; type and strength of ties to the municipality; regional mobility; church ties and activities; membership in clubs and club activities; actual and desired leisure activities; type of tenancy; media usage according to frequency and preferred programs.

Demography: age (classified); sex; marital status; number of children; religious denomination; religiousness; school education; vocational training; occupation; employment; size of household; composition of household; housing situation; interest in politics; party preference; political discussion; social origins; state; regional origins; refugee status; military service.

Interviewer rating: willingness of respondent to cooperate; presence of other persons; residential conditions of respondent; time of interview.

1.2.2 Topic overview

- Employment
- Social conditions and indicators
- Mass political behaviour, attitudes / opinion

1.3 Universe

The resident population of Germany (DE), at the age of 18 to 79 in personal households. FRG without the Saarland and without West Berlin

3246 persons were asked.

1.4 Selection method

Layered 3 stepped random sample.

1.5 Date of collection

The data collectors are DIVO GmbH, Frankfurt a.M. and the Institut fuer Demoskopie, Allensbach: 04.07.-30.08.1953

1.6 Mode of data collection

Oral survey with standardized questionnaire. A crotched questionnaire was used for the study (party identification versus election intentions). Out of the two questionnaire forms A and B, only version A was conserved and filed. There was a reconstruction of former documentations and codebooks for questions out of questionnaire version B throughout the whole documentation of the study. As a result of the missing original questionnaire verification is impossible.

1.7 Weighting

All frequency distributions in this Variable Report are based on unweighted data.

1.8 Data processing

Generally, the variable structure of the dataset is based on the structure of the questionnaire. Preceding, there are some technical variables. These comprise archive identification variables (ZA-study number, version and DOI) as well as survey identification variables (respondent ID). At the bottom of the dataset, you find variables for date of the interview, the federal state as well as weighting variables (household, representative and overall).

In general, the variables adopt the codes of the questionnaire.

For questions that allow for multiple responses a dummy variable is created for each answer category. E.g., a question with four answer categories in an item battery has four dummy variables as final data. In general, a value "1" means that the respondent chose the particular category as an answer (mentioned, yes, ...). In case of a value "0" the respondent did not choose the particular category as answer (not mentioned, no, ...). Dummy variables are also created for "none of these", "Don't know" or other residual responses.

The variables which are only asked to a split, receive a code for the respondents not asked. This code (in general zero) represents the cases to whom the respective question was not asked.

2 International documentation standard

The variable documentation is produced according to the international metadata specifications in the social sciences, which are defined by the Data Documentation Initiative <DDI>. The Variable Reports are based on the XML representation of DDI Version 2.

3 Explanation of the variable documentation

The variable documentation part describes each variable in the analysis data file in terms of relevant metadata and frequency distributions. It is set up by means of the GESIS Dataset Documentation Manager (DSDM) and in accordance with the international metadata specification for the social and behavioral sciences, established by the Data Documentation Initiative (DDI-Codebook/XML).

The documentation combines the variable description (variable name, values, and labels) of the dataset with the exact wording and sequence of question components (question text, interviewer instruction, response categories, etc.) from the questionnaire. The example explained below reproduces the information appearing in the variable documentation part for a typical substantive variable.

The frequency distributions of the substantive variables are based on unweighted data. Due to rounding, users may find slightly different figures if using other statistical packages, especially if the number of cases is very low.

4 Variable Documentation

Federal Study 1953

GESIS-Study ZA0145, v2.0.0, doi:10.4232/1.11992

Variable, Label

Question Text (English Language)

za_nr - ZA STUDY NUMBER

ZA-STUDY NUMBER 0145

FEDERAL STUDY 1953

145 GESIS STUDY ZA0145

THIS STUDY HAS ALSO BEEN ARCHIVED AT THE ICPSR, MICHIGAN, WITH THE STUDY NUMBER:

ICPR STUDY NUMBER - 7104

Variable, Label

Question Text (English Language)

version - GESIS ARCHIVE VERSION

VERSION AND RELEASE DATE OF THE ARCHIVE DATA SET

This variable identifies the GESIS archive version number of this data set and the corresponding release date, recorded as a string.

The version number is composed of a sequence of three numbers. The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases), the minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels), and the third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels).

Version 2.0.0 (2015-02-18)

Variable, Label

Question Text (English Language)

doi - DIGITAL OBJECT IDENTIFIER

Digital Object Identifier (DOI)

doi:10.4232/1.11992

This variable holds the Digital Object Identifier (DOI) for the dataset at hand as registered via the da|ra registration agency for economic and social science data. Each dataset version (see variable 'version') has a unique persistent DOI.

For direct access to the complete archive dissemination package for this study, including new dataset versions, the DOI needs to be appended to the resolver service URL: <http://dx.doi.org/doi:10.4232/1.11992>

In terms of good scientific practice, the DOI is an important element for the correct citation of a dataset.

Question Text (English Language)

V2 - RESPONDENT NUMBER

RESPONDENT NUMBER

THIS VARIABLE UNIQUELY IDENTIFIES EACH RESPONDENT.

RESPONDENT NUMBER

.....

THIS FIELD UNIQUELY IDENTIFIES EACH RESPONDENT.

Variable, Label

Question Text (English Language)

V3 - WEIGHT

WEIGHT VARIABLE

THIS WEIGHT VARIABLE CORRECTS FOR SEX AND AGE BIASES IN THE DATA AND PRODUCES A SAMPLE REPRESENTATIVE OF 18-79 YEAR OLD CITIZENS OF THE FEDERAL REPUBLIC.

Variable, Label

Question Text (English Language)

V4 - R ALWAYS LIVED IN CMNTY

<INTERVIEWER! THIS STUDY WILL BE CONDUCTED IN THE WHOLE REGION OF THE FEDERAL REPUBLIC OF GERMANY TO COMPARE THE LIFESTYLE HABITS OF THE POPULATION IN METROPOLISES, MIDDLE CITIES AND IN RURAL REGIONS IN TODAY'S GERMANY. THIS SCIENTIFIC STUDY WILL BE HELD ON BEHALF OF A RESEARCH INSTITUTE.

QUESTIONS HAVE TO BE READ LITERALLY. PLEASE MARK THE NUMBERS NEXT TO THE APPLICABLE ANSWERS. IF THERE ARE NO DEFAULT ANSWERS, NOTE THE EXACT WORDING OF THE ANSWERS GIVEN BY THE RESPONDENT ON THE DOTTED LINES.>

Q.1

COULD YOU TELL ME WHETHER YOU HAVE ALWAYS LIVED HERE, OR DID YOU MOVE HERE FROM SOMEWHERE ELSE?

- 1 ALWAYS LIVED HERE
- 2 LIVED HERE WITH INTERRUPTIONS
- 3 MOVED HERE

ZA0145, V4: R ALWAYS LIVED IN CMNTY (N=3246)

| Value | Label | Missing | Count | Percent | Valid Percent | Cumul.Percent |

V221 - QUESTIONNAIRE FORM

QUESTIONNAIRE FORM A + B

THERE WERE TWO QUESTIONNAIRE FORMS FOR THE STUDY WHICH DIFFER IN TWO WAYS:

- QUESTIONNAIRE VERSION A MEASURED THE RESPONDENT'S GENERAL PARTISAN PREFERENCE, (Q.39A), WHILE QUESTIONNAIRE VERSION B ASKED FOR THE RESPONDENT'S VOTING INTENTION, (Q.39B);
- THE TWO QUESTIONNAIRE FORMS ALSO DIFFERED IN THE ORDER IN WHICH Q.41A PRESENTED RESPONSE ALTERNATIVES TO THE RESPONDENT.

THE ORIGINAL QUESTIONNAIRE FORM B HAS NOT BEEN ARCHIVED IN THE GESIS DATA ARCHIVE. THE INFORMATION AND QUESTION TEXT DOCUMENTATION WERE DONE WITH THE HELP OF FORMER STUDY DOCUMENTATION. A VERIFICATION WAS NOT POSSIBLE.

- 1 QUESTIONNAIRE FORM A - PARTY PREFERENCE
- 2 QUESTIONNAIRE FORM B - VOTING INTENTION
- 9 NA

V254 - IMPC POLT ON R'S LIFE

Q.41A

TWO MEN ARE DISCUSSING THE INFLUENCE OF POLITICS ON OUR LIFE.

MR. BRANDT SAYS: "WHATEVER HAPPENS IN POLITICS IS VERY IMPORTANT, MY WELL BEING DEPENDS ON IT."

MR. SCHWARZ SAYS: "WHATEVER HAPPENS IN POLITICS DOES NOT REALLY MATTER, THAT WILL NOT CHANGE ANYTHING FOR ME PERSONALLY."

WHICH OF THESE TWO OPINIONS COMES CLOSEST TO YOUR OWN VIEWS?

(IN QUESTIONNAIRE VERSION A, MR. BRANDT'S OPINION WAS GIVEN FIRST; IN QUESTIONNAIRE VERSION B, MR. SCHWARZ'S OPINION WAS FIRST.

QUESTIONNAIRE VERSIONS ARE CODED IN REF. NO. 221.)

- 1 MR. BRANDT'S OPINION
- 2 MR. SCHWARZ'S OPINION
- 7 OTHER
- 8 UNDECIDED
- 9 NA

V262 - R MNTNS REAL/IDEAL FMLY

Q.49

WHEN WE TALK LIKE THIS ABOUT THE FAMILY, WHO DO YOU THINK OF? WHOM WOULD YOU INCLUDE IN YOUR FAMILY?

<INTERVIEWER: LEAVE SUFFICIENT TIME FOR THE RESPONSE AND NOTE DOWN ALL ANSWERS.>

0 R RESPONDS IN REFERENCE TO REAL FAMILY

1 R RESPONDS IN REFERENCE TO IDEAL FAMILY

8 R DOES NOT HAVE FAMILY, IS ALONE

THIS VARIABLE APPEARS TO BE A FILTER WHICH INDICATES THAT R MADE THE FOLLOWING RESPONSES, (Q.49A - Q.49K), IN REFERENCE TO AN IDEAL FAMILY RATHER THAN R'S REAL FAMILY.

HOWEVER, BECAUSE OF THE LACK OF CLARITY IN THE DOCUMENTATION PRESENTLY AVAILABLE, IT IS UNCERTAIN WHETHER THIS VARIABLE IS TO BE USED AS A FILTER, OR IF IT IS MERELY ANOTHER RESPONSE TO THE QUESTION.
