## Introduction and preliminary remarks

---

In 1994, the present study was carried out by Prof. Dr. Falter, Prof. Dr. Gabriel, Prof. Dr. Rattinger and Prof. Dr. Schmitt accompanying the parliamentary election. It was financed by DFG. The study comprised a pre-electoral and a post-electoral cross section survey. At the same time it served as the first wave of the long-term panel regarding the parliamentary elections in 1994–1998–2002 (ZA4301). The questionnaire of the study has been developed in cooperation with the preparatory group 'Deutsche Nationale Wahlstudie' (DNW) founded on an informal base. It covers opinions and attitudes of the eligible population towards parties, politicians, the election and possible governing coalitions but also towards general social developments. It is part of the group 'German Election studies 1949–2009' in the GESIS Data Archive for the Social Sciences.

This report comprises five parts: part one presents a description of the study Political Attitudes, Political Participation and Voting Behavior in Reunified Germany 1994, including bibliographic information, an abstract, methodological comments, notes to the weighting and general information on the data processing. The second part includes a correspondence list of the variables. Part three offers general information on the documentation standard. Part four provides a short explanation of the variable documentation itself. Part five contains the variable documentation: the documentation of each variable including complete question texts with all answer categories enriched with archival remarks. In addition, this Variable Report presents frequency distributions for all substantial and demographic variables. All frequency distributions are based on unweighted data.

### Data access

Data for statistical analysis and related documentation (original questionnaires, Variable Reports) are made available by GESIS – Leibniz-Institute for the Social Sciences by the online platforms GESIS Data Catalogue (<https://dbk.gesis.org/dbksearch/home.asp?db=e>) or by ZACAT (<http://zacat.gesis.org>), the GESIS Online Study Catalogue. Access to the Data Catalogue and ZACAT is free of charge; download of data sets requires registration.

The [GESIS Data Catalogue](#)<sup>1</sup> offers study descriptions of the German Election Studies 1949–2009, which comprise methodological information, version history and errata. In addition, the GESIS Data Catalogue provides datasets and related documentation for download.

[ZACAT](#)<sup>2</sup> offers data and documentation for full-text search as well as for online analysis.

## Usage requirements

To get an overview over the use of the GESIS Data Archive, all users are requested to send bibliographic citations for each completed manuscript or thesis abstracts. Please explain in an accompanying letter, which data (study as well as respective variables) you have used.

## Disclaimer

Neither the original collector of the data, nor GESIS bear any responsibility for the use of the data or any data analyses.

## 1.2 Content

### 1.2.1 Abstract

Political attitudes and political participation in united Germany.

Cumulated data set from the data sets of five largely identical cross-section surveys at two different survey times.

Topics: The questions listed below were posed in at least one survey: judgement on current general economic situation as well as economic situation in previous year; expected economic situation; personal economic situation; satisfaction with democracy; interest in politics; certainty of one's own intent to participate in the election and one's voting decision; voting behavior in previous Federal Parliament elections; manner of voting as absentee ballot or polling station; same voting decision after knowledge about results of election; party preference (Sunday question, second vote); most important reasons for dissatisfaction with the parties; coalition preference; responsiveness: judgement on party politicians and their work as well as their relation with citizens (scale); power orientation of political parties; differences between the parties; too much influence of parties in society; corruption of parties and politicians; necessity of professional politicians; most important problems of the country; issue relevance and issue ability of the parties; attitude towards Politics and Society (scale: complexity of politics, the right to strike, proximity of politicians to citizens, possibilities of citizens to influence parties and government (efficacy), understanding of democracy); sympathy scale for CDU, CSU, SPD, FDP, Alliance 90/the Greens, Republicans and PDS; postmaterialism (Inglehart index); trust in institutions: trust in Federal Parliament, the Federal Constitutional Court, Federal Government, the judiciary, the police, administration, churches, parties, the Federal German Armed Forces; Chancellor preference; own political participation; self-classification on a left-right continuum; most important group or representation of interests; feeling of being represented in trade unions, employer's federations, environmental protection groups and individual churches; judgement on parties in their proximity to trade unions, employer's federations, environmental protection groups and individual churches; assessment of the parties in their proximity to the above organizations; media usage: reading local, regional and national daily newspapers; use of political broadcasts on television; assessment of fairness of the social system in the Federal Republic; own belonging to a disadvantaged or preferred population group in society; characterization of East Germans and West Germans (self-image, interpersonal perception, semantic differential); frequency of stay in the other part of Germany after unification; extremism scale: national pride, desired nationalization for private businesses, public good before special interests, American imperialism as danger to world peace, dictatorship as better type of state, good sides of National Socialism, exploitation of workers and third-world countries, Hitler and extermination of the Jews, foreign infiltration of the Federal Republic, GDR with more positive sides, multi-national marriages, influence of Jews too great, socialism as good idea, Jews as different and understanding for attacks on homes for applicants for political asylum.

Demography: sex; year of birth (age); religious denomination; frequency of church attendance; church ties of parental home; education and school degree; employment; involuntary change of job or unemployment since 1990; retirement from professional life since 1990; employment in the civil service; occupational status; marital status; characteristics of head of household; state of residence; length of residence in state; memberships in citizen initiative, party, professional organization or trade union; party inclination; significance of party inclination (scale); party identification; party inclination regarding western parties before the turning point (only posed in the East); number of persons contributing to the household income; net household income; self-assessment of social class and social class of parental home (social mobility); size of household; number of persons 16 years old and older in household.

Additionally coded: Date of interview of the first to third visit; identification of interviewer; size of municipality; start of interview; end of interview; number of contact attempts; east-west weight, weighting factors.

### 1.2.2 Topic overview

- Mass political behaviour, attitudes / opinion
- Government, political systems and organisation

## 1.3 Universe

All German persons who were at least 16 years old at the time of survey and whose residence is in the Federal Republic Germany as well as living in private households

4111 persons were asked.

## 1.4 Selection method

The ADM Master Sample is a stratified, three-step random selection and is based on election precinct in Federal Parliament elections. Two nets of the ADM sample system were used such that in Eastern Germany a double net was used which means that for an over-sample this was doubled. The target households were selected according to the random route procedure, the target person in the household was determined by Sweden key.

## 1.5 Date of collection

The data collector is BASIS Research, Frankfurt:

Die Erhebung erfolgte durch BASIS Research, Frankfurt:

Erhebungszeitraum insgesamt: 09.1994 – 11.1994

Pre-election West: 12.09. 1994 – 14.10.1994

Pre-election East: 12.09.1994 – 14.10.1994

Post-election West: 24.10.1994 – 01.12.1994

Post-election East: 24.10.1994 – 15.11.1994

## 1.6 Mode of data collection

Telephone survey with standardised questionnaire

## 1.7 Weighting

All frequency distributions in this Variable Report are based on unweighted data.

## 1.8 Data processing

Generally, the variable structure of the dataset is based on the structure of the questionnaire. Preceding, there are some technical variables. These comprise archive identification variables (ZA-study number, version and DOI) as well as survey identification variables (respondent ID). At the bottom of the dataset, you find variables for date of the interview, federal state of the phone number as well as weighting variables (household, representative and overall).

In general, the variables adopt the codes of the questionnaire.

The affiliation of a question for the pre-electoral survey and the post-electoral survey is documented by the prefix ,VW' (pre-election), or ,NW' (post-election) to the question number. If a question number is without this prefix, it was raised in both surveys and had in both questionnaires the same question number. If a question was asked only in the pre-electoral survey or only in the post-election survey, one recognizes this by the interrogative number as well as an additional note below the actual question documentation.

For questions that allow for multiple responses a dummy variable is created for each answer category. E.g., a question with four answer categories in an item battery has four dummy variables as final data. In general, a value "1" means that the respondent chose the particular category as an answer (mentioned, yes, ...). In case of a value "0" the respondent did not choose the particular category as answer (not mentioned, no, ...). Dummy variables are also created for "none of these", "Don't know" or other residual responses.

The variables which are only asked to a split, receive a code for the respondents not asked. This code (in general zero) represents the cases to whom the respective question was not asked.

Number of variables: 206

## 2 Correspondence List

Correspondence list of the variables from Political Attitudes, Political Participation and Voting Behavior in Reunified Germany 1994

### **3 International documentation standard**

---

The variable documentation is produced according to the international metadata specifications in the social sciences, which are defined by the Data Documentation Initiative <DDI>. The Variable Reports are based on the XML representation of DDI Version 2.

---

## 4 Explanation of the variable documentation

---

The variable documentation part describes each variable in the analysis data file in terms of relevant metadata and frequency distributions. It is set up by means of the GESIS Dataset Documentation Manager (DSDM) and in accordance with the international metadata specification for the social and behavioral sciences, established by the Data Documentation Initiative (DDI-Codebook/XML).

The documentation combines the variable description (variable name, values, and labels) of the dataset with the exact wording and sequence of question components (question text, interviewer instruction, response categories, etc.) from the questionnaire. The example explained below reproduces the information appearing in the variable documentation part for a typical substantive variable.

The frequency distributions of the substantive variables are based on unweighted data. Due to rounding, users may find slightly different figures if using other statistical packages, especially if the number of cases is very low.

Figure 1: Description of the variable documentation

## 5 Variable Documentation

Variable, Label

Question Text (English Language)

za\_nr - ZA Study Number

ZA-Study Number 3065

Political Attitudes, Political Participation and Voting Behavior in Reunified Germany 1994

3065 GESIS Study ZA3065

version - GESIS Archive Version

Version and release date of the archive data set

This variable identifies the GESIS archive version number of this data set and the corresponding release date, recorded as a string.

The version number is composed of a sequence of three numbers. The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or case: minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels), and the third or revision number is incremented when minor bugs : fixed (e.g. spelling errors in variable or value labels).

Version 3.0.0 (2015-03-18)

doi - Digital Object Identifier

Digital Object Identifier (DOI)

doi:10.4232/1.11973

This variable holds the Digital Object Identifier (DOI) for the dataset at hand as registered via the da|ra registration agency for economic and social science data. Each dataset version (see variable 'version') has a unique persistent DOI.

For direct access to the complete archive dissemination package for this study, including new dataset versions, the DOI needs to be appended to the resolver service URL:

<http://dx.doi.org/doi:10.4232/1.11973>

In terms of good scientific practice, the DOI is an important element for the correct citation of a dataset.

WPNID - Respondent number

Respondent number

This variable uniquely identifies each respondent.

VSPLITWO - West-East split

Geographic coverage

<INT: I ask in the...>

<If code 1, question 1a to 3a is applicable.>

<If code 2, question 1b to 3b is applicable.>

- 1 old federal states
- 2 new federal states

ZA3065, VSPLITWO: West-East split (N=4111)

VSPLITWO

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
1	West		2031	49,4	49,4	49,4
2	East		2080	50,6	50,6	100,0
	Sum		4111	100,0	100,0	
	Valid C:		4111			

WORNACH - Date of interview

Date of interview

1 before the federal election

2 after the federal election

ZA3065, WORNACH: Date of interview (N=4111)

WORNACH

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
1	before the federal election		2068	50,3	50,3	50,3
2	after the federal election		2043	49,7	49,7	100,0
	Sum		4111	100,0	100,0	
	Valid Cases		4111			

VPROJEKT - Year of interview

Year of interview

1994

ZA3065, VPROJEKT: Year of interview (N=4111)

VPROJEKT

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
1994			4111	100,0	100,0	100,0
	Sum		4111	100,0	100,0	
	Valid C:		4111			

VLAND - Federal state - Bundesland

Federal state

(completed by the institute)

- 1 Sleswig-Holstein
- 2 Hamburg
- 3 Lower Saxony
- 4 Bremen
- 5 Northrhine-Westphalia
- 6 Hesse
- 7 Rhineland-Palatinate
- 8 Baden-Wuerttemberg
- 9 Bavaria
- 10 Saarland
- 11 Berlin
- 12 Brandenburg
- 13 Mecklenburg-Western Pomerania
- 14 Saxony
- 15 Saxony-Anhalt
- 16 Thuringia

ZA3065, VLAND: Federal state - Bundesland (N=4111)

VLAND

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
1	Sleswig-Holstein		71	1,7	1,7	1,7
2	Hamburg		74	1,8	1,8	3,5
3	Lower Saxony		261	6,3	6,3	9,9
4	Bremen		28	0,7	0,7	10,6
5	Northrhine-Westphalia		557	13,5	13,5	24,1

VPOINT - Point

Point

VADRESNR - Sequential address number

Sequential address number

VNETZ - Net

Net

3 old federal states

36 new federal states

Note to panel 1994-2002 (ZA4301):

This variable has only been evaluated in 1994 (ZA3065).

ZA3065, VNETZ: Net (N=4111)

VNETZ

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
3	old federal states		2031	49,4	49,4	49,4
36	new federal states		2080	50,6	50,6	100,0
	Sum		4111	100,0	100,0	
	Valid Cases		4111			

V10 - Economic situation today

Hello! My name is .... I'm coming from the market research institute BASISRESEARCH GmbH in Frankfurt/Dresden. Right now, we conduct a nationwide survey and would like to ask you, too, to support us and take part in this survey.

Your opinion is very important for us. All your data will be hold in strict confidence and absolutely anonymously. Your data will be analyzed only in combination with the data of other respond in form of statistical analysis.

Q1a

SPLIT WEST

<INT.: ask questions 1a-3a only in the old federal states! >

How would you, quite generally, evaluate the present economic situation in the old federal states: very good, good, part good/part bad, bad or very bad?

Q1b

SPLIT EAST

<INT.: ask questions 1b-3b only in the new federal states!>

How would you, quite generally, evaluate the present economic situation in the new federal states: very good, good, part good/part bad, bad or very bad?

- 1 very good
- 2 good
- 3 part good/part bad
- 4 bad
- 5 very bad
- 8 don't know <Int.: don't read>
- 9 refused <Int.: don't read>

ZA3065, V10: Economic situation today (N=4111)

V10

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
1	very good		28	0,7	0,7	0,7
2	good		881	21,4	21,4	22,1
3	part good/part bad		2115	51,4	51,4	73,6
4	bad		876	21,3	21,3	94,9
5	very bad		169	4,1	4,1	99,0
8	don't know		26	0,6	0,6	99,6
9	refused		16	0,4	0,4	100,0
	Sum		4111	100,0	100,0	
	Valid Cases		4111			

V20 - Economic situation improved

Q2a

SPLIT WEST

<INT.: ask questions 1a-3a only in the old federal states! >

Has the general economic situation in the old federal states in the last one to two years got substantially better, somewhat better, somewhat worse, substantially worse or is it the same?

Q2b

SPLIT EAST

<INT.: ask questions 1b-3b only in the new federal states!>

Has the general economic situation in the new federal states in the last one to two years got substantially better, somewhat better, somewhat worse, substantially worse or is it the same?

- 1 substantially better
- 2 somewhat better
- 3 the same
- 4 somewhat worse
- 5 substantially worse
- 8 don't know <Int.: don't read>
- 9 refused <Int.: don't read>

ZA3065, V20: Economic situation improved (N=4111)

V20

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
1	substantially better		71	1,7	1,7	1,7
2	somewhat better		1275	31,0	31,0	32,7
3	the same		1458	35,5	35,5	68,2
4	somewhat worse		1046	25,4	25,4	93,7
5	substantially worse		213	5,2	5,2	98,8
8	don't know		32	0,8	0,8	99,6
9	refused		16	0,4	0,4	100,0
	Sum		4111	100,0	100,0	
	Valid Cases		4111			

V30 - Economic situation in a year

Q3a

SPLIT WEST

<INT.: ask questions 1a-3a only in the old federal states! >

And how will it be in a year? Do you expect that the general economic situation in the old (split East: in the new) federal states will then be substantially better, somewhat better, the same, somewhat worse or substantially worse?

Q3b

SPLIT EAST

<INT.: ask questions 1b-3b only in the new federal states!>

And how will it be in a year? Do you expect that the general economic situation in the in the new federal states will then be substantially better, somewhat better, the same, somewhat worse or substantially worse?

- 1 substantially better
- 2 somewhat better
- 3 the same
- 4 somewhat worse
- 5 substantially worse
- 8 don't know <Int.: don't read>
- 9 refused <Int.: don't read>

ZA3065, V30: Economic situation in a year (N=4111)

V30

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
1	substantially better		90	2,2	2,2	2,2
2	somewhat better		1617	39,3	39,3	41,5
3	the same		1740	42,3	42,3	83,8
4	somewhat worse		450	10,9	10,9	94,8
5	substantially worse		66	1,6	1,6	96,4
8	don't know		140	3,4	3,4	99,8
9	refused		8	0,2	0,2	100,0
	Sum		4111	100,0	100,0	
	Valid Cases		4111			

V40 - Democracy in Germany

Q4

Taken all together, how satisfied are you with existing democracy in Germany? Are you...

<INT.: read list>

- 1 very satisfied
- 2 fairly satisfied
- 3 part/part
- 4 fairly dissatisfied
- 5 very dissatisfied
- 8 don't know <Int.: don't read>
- 9 refused <Int.: don't read>

ZA3065, V40: Democracy in Germany (N=4111)

V40

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
1	very satisfied,		202	4,9	4,9	4,9
2	fairly satisfied,		1152	28,0	28,0	32,9
3	part/part,		1624	39,5	39,5	72,4
4	fairly dissatisfied or		570	13,9	13,9	86,3
5	very dissatisfied?		171	4,2	4,2	90,5
8	don't know		31	0,8	0,8	91,2
9	refused		361	8,8	8,8	100,0
	Sum		4111	100,0	100,0	
	Valid Cases		4111			

V50 - Interest in politics: strength

Q5

How strongly are you interested in politics? Would you say...

<INT.: read list>

- 1 very strongly,
- 2 fairly strongly,
- 3 moderately,
- 4 less strongly or
- 5 not at all?
- 8 don't know <Int.: don't read>
- 9 refused <Int.: don't read>

ZA3065, V50: Interest in politics: strength (N=4111)

V50

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
1	very strongly,		378	9,2	9,2	9,2
2	fairly strongly,		821	20,0	20,0	29,2
3	moderately,		1707	41,5	41,5	70,7
4	less strongly or		813	19,8	19,8	90,5
5	not at all?		382	9,3	9,3	99,8
8	don't know		6	0,1	0,1	99,9
9	refused		4	0,1	0,1	100,0
	Sum		4111	100,0	100,0	
	Valid Cases		4111			

V60 - Will R. vote on 16 October

VW Q6

Elections for the Bundestag are on 16th October. Are you definitely, probably, maybe, probably not or definitely not going to vote?

0 INAP.: post-election; not eligible to vote (pre-election)

1 definitely going to vote

2 probably going to vote

3 maybe going to vote

4 probably not going to vote

5 definitely not going to vote

8 don't know <Int.: don't read>

9 refused <Int.: don't read>

Note to cross-sectional study 1994 (ZA3065):

This variable has only been evaluated pre-electoral.

ZA3065, V60: Will R. vote on 16 October (N=4111)

V60

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
0	INAP		2043	49,7	49,7	49,7
1	definitely going to vote		1355	33,0	33,0	82,7
2	probably going to vote		327	8,0	8,0	90,6
3	maybe going to vote		174	4,2	4,2	94,8
4	probably not going to vote		77	1,9	1,9	96,7
5	definitely not going to vote		99	2,4	2,4	99,1
8	still don't know		30	0,7	0,7	99,9
9	refused		6	0,1	0,1	100,0
	Sum		4111	100,0	100,0	
	Valid Cases		4111			

V61 - Recall 2nd vote 94 (post-elec)

NW Q6a

<INT.: hand list 6a to respondent!>

How about the past Bundestag elections on 16th of October: which party did you vote for? Please just tell me the letter from this list.

<INT.: In case of queries: the second vote is important>

<If Code 96, go to question Q7.>

<If Code 97, go to question Q9.>

- 0 INAP.: pre-election
- 1 CDU/CSU
- 2 SPD
- 3 FDP
- 4 Bündnis90/Die Grünen
- 5 Republikaner
- 6 PDS
- 12 other party
- 96 didn't vote
- 97 wasn't eligible to vote
- 98 don't know <Int.: don't read>
- 99 refused <Int.: don't read>

Note to cross-sectional study 1994 (ZA3065):

This variable has only been evaluated post-electoral.

Note to panel 1994-2002 (ZA4301):

This variable has only been evaluated in 1994 (ZA3065).

ZA3065, V61: Recall 2nd vote 94 (post-elec) (N=4111)

V61

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
0	INAP		2068	50,3	50,3	50,3
1	CDU/CSU		604	14,7	14,7	65,0
2	SPD		596	14,5	14,5	79,5
3	FDP		50	1,2	1,2	80,7
4	Buendnis90/Die Gruenen		122	3,0	3,0	83,7
5	Republikaner		20	0,5	0,5	84,2
6	PDS		156	3,8	3,8	88,0
12	other party		13	0,3	0,3	88,3
96	didn't vote		226	5,5	5,5	93,8
97	wasn't eligible to vote		34	0,8	0,8	94,6
98	don't know		6	0,1	0,1	94,7
99	refused		216	5,3	5,3	100,0
	Sum		4111	100,0	100,0	
	Valid Cases		4111			

V62 - Vote: polling place/absentee

NW Q6b

And how did you cast your vote: at the local polling place or by absentee ballot?

- 0 INAP.: pre-election
- 1 at the local polling place
- 2 by absentee ballot
- 8 don't know <Int.: don't read>
- 9 refused <Int.: don't read>

Note to cross-sectional study 1994 (ZA3065):

This variable has only been evaluated post-electoral.

ZA3065, V62: Vote: polling place/absentee (N=4111)

V62

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
0	INAP		2328	56,6	56,6	56,6
1	at the local polling place		1590	38,7	38,7	95,3
2	by absentee ballot		151	3,7	3,7	99,0
8	don't know		1	0,0	0,0	99,0
9	refused		41	1,0	1,0	100,0
	Sum		4111	100,0	100,0	
	Valid Cases		4111			

V63 - Same vote decision last election

NW Q7

If elections for the Bundestag were held again next Sunday, would you make the same decision or would you make a different decision?

<If Code 1, go to question Q9.>

0 INAP.: pre-election; not eligible to vote (post-election)

1 the same decision

2 different decision

8 don't know <Int.: don't read>

9 refused <Int.: don't read>

Note to cross-sectional study 1994 (ZA3065):

This variable has only been evaluated post-electoral.

ZA3065, V63: Same vote decision last election (N=4111)

V63

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
0	INAP		2102	51,1	51,1	51,1
1	the same decision		1705	41,5	41,5	92,6
2	different decision		114	2,8	2,8	95,4
8	don't know		137	3,3	3,3	98,7
9	refused		53	1,3	1,3	100,0
	Sum		4111	100,0	100,0	
	Valid Cases		4111			

V64 - Party vote intention, post-election

NW Q8a

<INT.: hand list 8 to respondent!>

And which party would you vote for today? Please just tell me the letter from the list again.

<INT.: In case of queries: the second vote is important>

0 INAP.: pre-election; same voting decision as in V70 (post-election)

1 CDU/CSU

2 SPD

3 FDP

4 Bündnis 90/Die Grünen

5 Republikaner

6 PDS

12 other party

97 wouldn't vote

98 don't know <Int.: don't read>

99 refused <Int.: don't read>

Note to cross-sectional study 1994 (ZA3065):

This variable has only been evaluated post-electoral.

ZA3065, V64: Party vote intention, post-election (N=4111)

V64

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent

	Valid Cases		4111			

V120A - Dissatisfied with parties: 1st

Q12

<INT.: allow only one response!>

Today many people are dissatisfied with the political parties in the FRG. How about you: what bothers you most about the parties?

1. response

- 1 lack of economic competence
- 2 don't do enough against unemployment
- 3 bad budgetary and financial policy
- 4 unfair tax policy
- 5 too pro-industry and pro-business
- 6 little commitment for the new federal states
- 7 missing price stability
- 8 missing social dedication
- 9 wrong youth welfare policy
- 10 wrong family and feminist policy
- 11 bad policy concerning seniors and pensions
- 12 neglect of housing construction
- 13 wrong health policy and nursing care insurance
- 14 neglect of internal security
- 15 wrong policy concerning foreigners and asylum-seekers
- 18 not enough dedication to the environment
- 19 European policy, EURO
- 22 other relevant political issues
- 24 don't show enough dedication
- 25 wooing of votes
- 27 there's no clear line
- 28 opportunists
- 29 empty promises
- 30 bad party politics
- 31 no stamina
- 32 party discipline is disturbing
- 33 too much power
- 36 unfair politics
- 37 no people's representatives
- 38 no trend-setting politics
- 39 lack of realism
- 40 incapability
- 41 unimaginative, uninspired
- 42 no calibre/character
- 43 no personalities
- 44 cult of personality
- 45 army of bureaucrats
- 46 missing idealism
- 50 dishonest, liars
- 51 obscure, slippery as an eel
- 52 unobjective, polemics
- 53 unfair, intolerant, unjust
- 54 party wrangling
- 55 office hunter, professional politicians
- 56 practise self-support
- 57 bribable, party sleaze
- 58 power-hungry
- 59 egomaniacs
- 60 tacticians, calculating
- 61 unscrupulous, no morals
- 62 arrogant, self-conceited
- 63 inflexible
- 64 dubious practices
- 68 not a lot public relations
- 69 grand appearances in the media

- 70 no popular touch
- 71 can't sell themselves
- 72 brainwashing (of) the people
- 75 too many political parties
- 76 it's necessary to outlaw leftist parties
- 77 it's necessary to outlaw rightist parties
- 78 predominance of large parties
- 79 too wide influence of small parties
- 84 ageing of the parties
- 85 disagreement within the parties
- 95 don't like anything
- 96 no interest in political parties
- 97 other
- 98 nothing, no criticism
- 99 NA, don't know

V120B - Dissatisfied with parties: 2nd

(Q12

<INT.: allow only one response!>

Today many people are dissatisfied with the political parties in the FRG. How about you: what bothers you most about the parties?)

2. response

- 1 lack of economic competence
- 2 don't do enough against unemployment
- 3 bad budgetary and financial policy
- 4 unfair tax policy
- 5 too pro-industry and pro-business
- 6 little commitment for the new federal states
- 7 missing price stability
- 8 missing social dedication
- 9 wrong youth welfare policy

	Valid Cases		4111			

V130A - Parties only want votes

VW Q13, NW Q14

<INT.: hand list VW 13/ NW 14 to respondent!>

I'm now going to read some statements about the political parties in Germany. Please tell me for each of these statements, using this scale from - 2 to + 2, if you agree with it or not. - 2 mean you completely disagree, + 2 means that you completely agree. Using the values in between, you can express your opinion more precisely.

VW Q13\_A, NW Q14\_A The parties only want the people's votes, they're not interested in their opinions.

- 1 -2 completely disagree
- 2 -1 tend to disagree
- 3 0 part/part
- 4 +1 tend to agree
- 5 +2 completely agree
- 8 don't know
- 9 refused

ZA3065, V130A: Parties only want votes (N=4111)

V130A

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
1	completely disagree		127	3,1	3,1	3,1
2	tend to disagree		415	10,1	10,1	13,2
3	part/part		927	22,5	22,5	35,7
4	tend to agree		1213	29,5	29,5	65,2
5	completely agree		1314	32,0	32,0	97,2
8	don't know		96	2,3	2,3	99,5
9	refused		19	0,5	0,5	100,0
	Sum		4111	100,0	100,0	
	Valid Cases		4111			

V130B - Parties: state as self-service

VW Q13, NW Q14

<INT.: hand list VW 13/ NW 14 to respondent!>

I'm now going to read some statements about the political parties in Germany. Please tell me for each of these statements, using this scale from - 2 to + 2, if you agree with it or not. - 2 mean you completely disagree, + 2 means that you completely agree. Using the values in between, you can express your opinion more precisely.

VW Q13\_B, NW Q14\_B The parties regard the state as a self-service shop.

- 1 -2 completely disagree
- 2 -1 tend to disagree
- 3 0 part/part
- 4 +1 tend to agree
- 5 +2 completely agree
- 8 don't know
- 9 refused

ZA3065, V130B: Parties: state as self-service (N=4111)

V130B

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
1	completely disagree		187	4,5	4,5	4,5
2	tend to disagree		568	13,8	13,8	18,4
3	part/part		936	22,8	22,8	41,1
4	tend to agree		1160	28,2	28,2	69,4
5	completely agree		1052	25,6	25,6	94,9
8	don't know		185	4,5	4,5	99,4
9	refused		23	0,6	0,6	100,0
	Sum		4111	100,0	100,0	
	Valid Cases		4111			

V130C - Party politicians trustworthy

VW Q13, NW Q14

<INT.: hand list VW 13/ NW 14 to respondent!>

I'm now going to read some statements about the political parties in Germany. Please tell me for each of these statements, using this scale from - 2 to + 2, if you agree with it or not. - 2 mean you completely disagree, + 2 means that you completely agree. Using the values in between, you can express your opinion more precisely.

VW Q13\_C, NW Q14\_C Most party politicians are trustworthy and honest people.

- 1 -2 completely disagree
- 2 -1 tend to disagree
- 3 0 part/part
- 4 +1 tend to agree
- 5 +2 completely agree
- 8 don't know
- 9 refused

ZA3065, V130C: Party politicians trustworthy (N=4111)

V130C

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
1	completely disagree		524	12,7	12,7	12,7
2	tend to disagree		974	23,7	23,7	36,4
3	part/part		1285	31,3	31,3	67,7
4	tend to agree		872	21,2	21,2	88,9

v210aalt - a210a, Pol goal, 1.mention (orig. vers.)

VW Q21, NW Q22

<INT.: hand VW list 21/ NW list 22 to respondent. >

In politics, as elsewhere, one cannot do everything all at once. On this list you will find several goals which one can pursue in politics.

<INT.: Encircle in the scheme below, allow only one response.>

VW Q21\_A, NW Q22\_A If you had to choose between these different goals, which goal would be most important to you? Please, just tell me the corresponding letter.

- 1 Maintaining order in the nation
- 2 Giving the people more say in government decisions
- 3 Fight against rising prices
- 4 Protecting the freedom of speech
- 8 don't know <Int.: don't read>
- 9 NA <Int.: don't read>

ZA3065, v210aalt: a210a, Pol goal, 1.mention (orig. vers.) (N=4111)

v210aalt

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
1	maintaining order in the nation		2117	51,5	51,5	51,5

V240D - Pol participation: violence

VW Q24, NW Q25

<INT.: hand VW list 24/ NW list 25 to respondent>

If you would like to exert your influence for an important political issue, which of the following things would you do? Please tell me by using this scale. -2 means that you would definitely not that, +2 means that you would definitely do that. Using the values in between, you can express your opinion more precisely. To exert political influence I would...

<INT.: mind the sign!>

VW Q24\_D, NW Q25\_D ...fight for my goals, even if violence is necessary.

- 1 -2 I wouldn't definitely do that
- 2 -1 I wouldn't probably do that
- 3 0 I would possibly do that
- 4 +1 I would probably do that
- 5 +2 I would definitely do that
- 8 don't know
- 9 refused

V350R - Sympathy attack asylum-seek

VW Q35, NW Q36

<INT.: hand VW list 35/ NW list 36 to respondent!>

Before I will ask you some questions for statistical purposes at the end of this interview, I am going to read a number of statements to you again, which some people agree with, but others r  
How about you? Please use the scale from -2 to +2 again. -2 means that you completely disagree with this statement, +2 means that you agree completely. Using the values in between you ca  
express your opinion more precisely.

VW Q35\_R, NW Q36\_R I sympathise with attacks on homes for people seeking political asylum.

- 1 completely disagree
- 2 tend to disagree
- 3 part/part
- 4 tend to agree
- 5 agree completely
- 8 don't know
- 9 refused

ZA3065, V350R: Sympathy attack asylum-seek (N=4111)

V350R

Value	Label	Missing	Count	Percent	Valid Percent	Cumul.Percent
1	completely disagree		2963	72,1	72,1	72,1

VPIDD - Party preference: better policy

S15d

<INT.: hand list S15d to respondent.>

We would like to find out in our study what people mean when they say that they lean toward a particular political party. Would you please tell me by referring to this list if you to what degree agree or disagree with these statements. -2 means that you completely disagree with this statement; +2 on the other hand means that you completely agree with this statement. Using the value between you can express your opinion more precisely.

S15d\_D This party itself is less important to me, but it presently pursues the better policy. I... with this statement.

0 INAP.: Code 96, 98, 99 for VPID

1 completely disagree

2 tend to disagree

3 part/part

4 tend to agree

5 completely agree

8 don't know

	Valid Cases		4111			

VGWOW1 - Absolute East-West weight, pre or post

Sample weighting:

The weighting is used to transfer the household sample into a persons' sample and to compensate slight statistical inaccuracies within the sample structure.

First of all, the ADM sample net is a household sample, in which every interviewed household has the same chance to be selected. However, only one person per household is interviewed, irrespectively of the size of the household.

Therefore the chance for every person in the household to be selected as a respondent is inversely proportional to the size of the household. The same chance for single respondents to be selected for the sample is a result of the transformation of the household sample into the persons' sample.

The transition to the persons' sample is done by case-by-case multiplication with the number of target persons in the household and by a subsequent standardisation of the amount of cases.

To compensate the interview failures, which are - according to experience - not evenly spread throughout the population groups, there are various weights available:

absolute East-West weight:

pre-election or post-election: vgwow1

pre-election and post-election (total): vgwow2

Representative weights for separate East-West analyses:

pre-election or post-election: vgvwnw

pre-election and post-election: vgvwnw

Representative weights for all-German analyses (with East-West weight):

pre-election or post-election: vgvwnwow

VGWOW2 - Absolute East-West weight, pre + post

Sample weighting:

The weighting is used to transfer the household sample into a persons' sample and to compensate slight statistical inaccuracies within the sample structure.

First of all, the ADM sample net is a household sample, in which every interviewed household has the same chance to be selected. However, only one person per household is interviewed, irrespectively of the size of the household.

Therefore the chance for every person in the household to be selected as a respondent is inversely proportional to the size of the household. The same chance for single respondents to be selected for the sample is a result of the transformation of the household sample into the persons' sample.

Sample weighting:

The weighting is used to transfer the household sample into a persons' sample and to compensate slight statistical inaccuracies within the sample structure.

First of all, the ADM sample net is a household sample, in which every interviewed household has the same chance to be selected. However, only one person per household is interviewed, irrespectively of the size of the household.

Therefore the chance for every person in the household to be selected as a respondent is inversely proportional to the size of the household. The same chance for single respondents to be selected for the sample is a result of the transformation of the household sample into the persons' sample.

The transition to the persons' sample is done by case-by-case multiplication with the number of target persons in the household and by a subsequent standardisation of the amount of cases.

To compensate the interview failures, which are - according to experience - not evenly spread throughout the population groups, there are various weights available:

absolute East-West weight:

pre-election or post-election: vgwow1

pre-election and post-election (total): vgwow2

Representative weights for separate East-West analyses:

pre-election or post-election: vgvwnw

pre-election and post-election: vggew

Representative weights for all-German analyses (with East-West weight):

pre-election or post-election: vgvwnwow
