GENERAL INTRODUCTION:
Good morning/afternoon/evening, may I speak to ................ please?

IF ASKED: I am calling from the National Centre for Social Research. We had previously spoken to ............. about one of our studies.

WHEN TALKING TO PUPIL:
Hello, my name is .............. from the National Centre for Social Research. Your class took part in the first round of the Youth in Europe study last year which is about what you think about school, your aspirations for the future, and how these affect your educational choices. We would like you to help with the study again this year by asking you some more questions. I hope this is a convenient time to talk to you.

IF ASKED: The interview should take around 20 minutes.

IF ASKED FOR MORE INFORMATION ABOUT THE STUDY:
The study is being carried out by Oxford University and the National Centre for Social Research (NatCen). Similar studies are being carried out in Germany, the Netherlands and Sweden, so that we can compare young people’s experiences in the different countries.

The information from this study will help the researchers to find out how best to help young people from different backgrounds achieve their educational goals. We hope that what you say will help improve our understanding about young people’s experiences at school both in England and in the other three countries.

IF ASKED ABOUT CONFIDENTIALITY:
Your answers will be kept completely confidential. Your teachers and other pupils in your class will not see your answers or be told anything about what you have written.
First, I would like to ask some questions about you and how you are getting on at school
