Notes on the Additional ALLBUS/GGSScompact 2008 (Study No. 4603)

Introductory Remark on this Supplement to ALLBUS/GGSS 2008

This document contains frequency tables by sex of respondent for the data of ALLBUS/GGSS 2008. The data in these tables is weighted by V792 (person-related East-West weight). This weight adjusts for the oversample of respondents in the new federal states. Therefore, the numbers in the columns are directly interpretable for Germany as a whole.

For more information on weighting ALLBUS/GGSS data, please refer to:

Terwey, Michael (2013):

Oversamples, Units of Analysis, and the Topic of Data Transformation. In: Terwey, Michael; Baumann, Horst (eds.): Variable Report ALLBUS / German General Social Survey Cumulation 1980-2010. Study No. 4576. GESIS - Variable Reports, No. 2013/2, Köln: GESIS, p. x-xvii.

Note for Publications Using ALLBUS/GGSS Data

Usage and analysis of research data as well as any publication of research results based on such data should be connected with information on the data generator, the data source and an identification of the dataset. GESIS Data Archive for the Social Sciences therefore suggests the following minimum standard for the scientific citation of its data sets. Example for release 1.0.0 (2015-09-30):

ALLBUS full version:

GESIS – Leibniz Institute for the Social Sciences (2017): German General Social Survey – ALLBUS 2008. GESIS Data Archive, Cologne. ZA4602 Data File Version 1.0.1, doi:10.4232/1.12831

ALLBUScompact:

GESIS – Leibniz Institute for the Social Sciences (2017): German General Social Survey – ALLBUScompact 2008. GESIS Data Archive, Cologne. ZA4603 Data File Version 1.0.1, doi:10.4232/1.2836

To gain more insight into the use of ALLBUS/GGSS data and to facilitate the exchange of information within the scientific community, authors using ALLBUS/GGSS are requested to send in bibliographic citations and, if possible, two sample copies of completed texts. Among other things, the information you provide will be made available in the **GESIS-library catalogue**, which is also searchable online as part of the GESIS web presence (please direct any questions concerning the GESIS-library holdings and catalogues to Heidi Dorn (phone: +49 221 47694-132; email: heidi.dorn@gesis.org)).

Information about all known publications and research projects based on ALLBUS/GGSS data is collected in the **ALLBUS bibliography**. This bibliography is available for online search as well as for download on the ALLBUS pages of the GESIS website.

ALLBUS/GGSS: A National Data Generation Program

In the mid-1970s, the "German General Social Survey" (GGSS ("Allgemeine Bevölkerungsumfrage der Sozialwissenschaften" - ALLBUS)) was originally initiated as cooperation between the former Centre for Survey Research and Methodology (ZUMA, Mannheim) and the Central Archive for Empirical Social Research. Its mission is to collect and disseminate high quality data for research and teaching in the social sciences. The core of its concept are repeated cross-section surveys comprising a partly constant and partly varying program of questions that covers key areas of the social sciences.

The first four surveys of the years 1980, 1982, 1984 and 1986 were funded through individual grants of the German Research Foundation (Deutsche Forschungsgemeinschaft (DFG)).¹ DFG funding was also made available for an additional survey in 1991. The aim of this so-called "Baseline Study" was to provide ALLBUS/GGSS data covering the special situation immediately after the German unification.²

With the foundation of the "German Social Sciences Infrastructure Services" (Gesellschaft Sozialwissenschaftlicher Infrastruktureinrichtungen (GESIS)) on 12 December 1986, ALLBUS was included into the state-federal funding of the institutes united within GESIS, so that ALLBUS could be permanently institutionalized as a joint project of GESIS-ZUMA in Mannheim and GESIS-ZA in Cologne. Today this cooperation is in progress as a part of GESIS – Leibniz Institute for the Social Sciences.

When GESIS was founded, the group of former DFG-applicants (principal investigators) was reorganized into a scientific council (ALLBUS-Ausschuss). In September 2015 this scientific council consisted of:

- Stefan Bauernschuster (University of Passau)
- Andreas Diekmann (ETH-Zentrum Zürich)
- Andreas Hadjar (University of Luxembourg)
- Karin Kurz (University of Göttingen)
- Ulrich Rosar (University of Düsseldorf)

¹ For the ALLBUS surveys 1980 to 1986, the following persons acted as applicants for funding by the DFG:

- M. Rainer Lepsius (1980-82; University of Heidelberg)
- Karl Ulrich Mayer (1984-86; Max-Planck-Institute for Human Development, Berlin)
- Walter Müller (1984-86; University of Mannheim)
- Franz Urban Pappi (1984-86; University of Kiel)
- Erwin K. Scheuch (1980-86; University of Cologne)
- Rolf Ziegler (1980-86; University of Munich).

² Primary applicants at the DFG for the ALLBUS-Baseline-Study were:

- Peter Ph. Mohler (ZUMA, Mannheim, in charge)
- Michael Braun (ZUMA, Mannheim)
- Erwin K. Scheuch (University of Cologne)
- Michael Häder (ZUMA, Mannheim)

Further members of the ALLBUS scientific council participated in the application in an advisory role.

- Ulrich Wagner (University of Marburg)
- Bettina Westle (University of Marburg)³

Working in close coordination with the scientific council, the ALLBUS subgroup at the GESIS department Monitoring Society and Social Change is responsible for design and supervision of survey processes. For information on the surveys as such please contact Dipl.-Soz. Michael Blohm in Mannheim (Tel.: +49 621/1246-276; Fax: +49 621/1246-100; e-mail: michael.blohm@gesis.org).

Archiving, documentation, distribution and integrative cumulation of the data are handled by the ALLBUS-Team at the GESIS department Data Archive for the Social Sciences (DAS) in Cologne. Further information about these ALLBUS data services can be obtained through Dr. Pascal Siegers (Tel.: +49 221/47694-419; Fax: +49 221/47694-8419; e-mail: pascal.siegers@gesis.org).

Since the year of 2009 both ALLBUS subgroups are additionally joined together in the ALLBUS (GSS) Research Data Center (RDC). All service-operations of this RDC ALLBUS are handled according to the criteria of the German Council for Social and Economic Data (RatSWD – German Data Forum).

Since 1980, commercial polling institutes have been entrusted with the fieldwork of the nationwide surveys (see further comments on technical details of the surveys in the ALLBUS/GGSS survey description following below). Finally, it should be emphasized that, apart from the regular ALLBUS contributors, many other social scientists have played a significant part in developing the ALLBUS program by proposing questions and offering valuable advice.

The collection and distribution of ALLBUS data for the social sciences in general has four primary goals:

³ Further previous members of the ALLBUS-council:

- Klaus Allerbeck (University of Frankfurt)
- Hans-Jürgen Andreß (University of Cologne)
- Jutta Allmendinger (University of Munich)
- Wilhelm Bürklin (University of Potsdam)
- Hubert Feger (Free University of Berlin)
- Detlef Fetchenhauer (University of Cologne)
- Marie Luise Kiefer (University of Vienna)
- Johannes Huinink (University of Bremen)
- Frauke Kreuter (LMU Munich)
- Steffen Kühnel (University of Göttingen)
- Stefan Liebig (University of Bielefeld)
- Karl Ulrich Mayer (Max-Planck-Institute for Human Development, Berlin)
- Heiner Meulemann (University of Cologne)
- Walter Müller (University of Mannheim)
- Karl Dieter Opp (University of Leipzig)
- Franz Urban Pappi (University of Mannheim)
- Erwin K. Scheuch (University of Cologne)
- Rüdiger Schmitt-Beck (University of Mannheim)
- Heike Solga (University of Göttingen)
- Heike Trappe (University of Rostock)
- Michael Wagner (University of Cologne)
- Rolf Ziegler (University of Munich).

See also the lists of primary investigators and council members in the survey descriptions for the individual ALLBUS surveys.

- to investigate current social structures, attitudes, values and behavior in Germany
- to monitor social change over time
- to supply those scientists and students who have no immediate personal access to empirical materials with easily obtainable, high quality data
- to provide data for international comparisons.

Today, ALLBUS/GGSS is an easily available and well documented source of data for research and teaching in the social sciences. A large part of the questions have already been tested in various previous surveys. If earlier questionnaires and publications could not yield adequate questions for specific areas of investigation, modified or new items have been developed specifically for ALLBUS.

Acceptance of ALLBUS/GGSS within the scientific community is widespread and reaches beyond national boundaries. Ever since the first ALLBUS survey in 1980, this series has been among the most requested data of GESIS. As in a number of other countries – notably in the United Kingdom with the "British Social Attitudes" (BSA), in Poland with the "Polish General Social Survey" (PGSS) and in Japan with the "Japanese General Social Survey" (JGSS) – the institutionalization of a social monitoring instrument comparable to the U.S. "General Social Survey" (GSS) has been successful.⁴

⁴ Compare, for example:

- General Social Survey (Smith et al. 2013)
- British Social Attitudes (Brook et al. 1992)
- Scottish Social Attitude Survey (SSA 2011)
- Polish General Social Surveys (Cichomski et al. 2003)
- The Australian Survey of Social Attitudes (AuSSA 2010)
- Chinese General Social Survey (CGSS 2010)
- The Japanese General Social Surveys (JGSS 2010)
- Taiwan Social Change Survey (TSCS 2007)

Surveydescription: ALLBUS 2008 (Study No. 4600, German version; Study No. 4602, English version)

Data Collection Period:

March 2008 to August 2008

Scientific Council:

Hans-Jürgen Andreß, University of Cologne, chair;

Andreas Diekmann, ETH Zurich;

Hubert Feger, Free University of Berlin;

Stefan Liebig, University of Bielefeld;

Heiner Meulemann, University of Cologne;

Rüdiger Schmitt-Beck, University of Mannheim;

Heike Trappe, University of Rostock

Data Collector:

TNS Infratest Sozialforschung, Munich

Contents:

Social monitoring of trends in attitudes, behavior, and societal change in the Federal Republic of Germany. The main topics in 2008 are:

- 1.) Economy
- 2.) Use of media
- 3.) Political attitudes and political participation
- 4.) Social capital
- 5.) The political system and social inequality
- 6.) Citizenships and country of origin
- 7.) National pride
- 8.) Other topics
- 9.) ALLBUS-Demography
- 10.) Data on the interview
- 11.) Leisure time and sports (ISSP)

12.) Religion III (ISSP)

13.) Added value

Topics:

1.) *Economy*: assessment of the present and future economic situation in Germany; assessment of present and future personal economic situation; assessment of government responsibility for economic situation.

2.) *Use of media*: frequency and overall time of watching television; frequency of watching news programs on public and private channels respectively; frequency of reading a daily newspaper per week; frequency of private Internet use; frequency of using the Internet for political information.

3.) *Political attitudes and political participation*: support for more adaptation of immigrants to German customs and practices, less government interference in the economy, stricter measures for environmental protection, legalization of same-sex marriages, equal opportunities for men and women in occupational life, harsher punishment of criminals, making social security government's top priority, redistribution of income in favor of the common people, immigrants are good for the economy, military assistance in the war on terror, respect for civil rights, the increasing openness of world markets; political participation; party preference; confidence in public institutions and organizations: public health service, Federal Constitutional Court, federal parliament (Bundestag), city or municipal administration, judiciary, television, newspapers, universities, federal government, police, political parties, European Commission, European Parliament; political interest; postmaterialism (importance of law and order, fighting rising prices, free expression of opinions, and influence on governmental decisions); self-placement on a left-right continuum; placement of political parties on a left-right-continuum (CDU, CSU, SPD, FDP, Die Linke (The Left), Bündnis 90/Die Grünen (The Greens), NPD); likelihood of voting for different political parties.

4.) *Social capital*: general trust in fellow men, family, friends, acquaintances, and strangers; frequency of discussing politics with friends, acquaintances, strangers, and family; membership status of respondent in various clubs and organizations; informal social help; frequency of spending time with colleagues from work, club members or with friends; frequency and type of contact with neighbors (cf. also 9.) *ALLBUS-Demography*).

5.) *The political system and social inequality*: perception of individual influence on politics (political efficacy, political alienation); gap between politicians and citizens; self-assuredness with regard to political group work; too much complexity in politics; politicians' closeness to constituents; personal and average citizen's level of political knowledge; majority capable of working in a political group; participation in the vote as a civic duty; support for the idea of democracy; political support (satisfaction with democracy in Germany); satisfaction with the performance of the federal government.

Statements on the legitimacy of social inequality: inequality of income as incentive to achieve; acceptability of differences in status; justness of social differences; evaluation of equal educational opportunities for all.

6.) *Citizenships and country of origin*: first, second, and third citizenship of respondent and of spouse or partner; number of citizenships of respondent and of spouse or partner; original citizenship of respondent and of spouse or partner; country respondent lived in when young; length of residence in Germany.

7.) *National pride*: support of political attitudes like pride in being a German, displaying national feeling freely, dictatorship better form of government under certain circumstances, national socialism had its good sides, Hitler would be considered differently without the Holocaust, Germany is dangerously swamped by foreigners, foreigners should marry among themselves, Jews have too much influence, Jews do not fit into our society, attacks on asylum seekers' homes are understandable; pride in German institutions and German achievements.

8.) *Other topics*: attitudes towards the role of women in the family; self-assessment of social class; fair share in standard of living; social pessimism and orientation towards the future (anomia); attachment to one's own community and federal state, the old Federal Republic or the GDR, the unified Germany, and the EC.

9.) *ALLBUS-Demography*: details about the respondent: citizenship (nationality), number of citizenships, gender, month and year of birth, age, geographical origin, place of residence (federal state, administrative district, size of municipality, BIK-type of region), school education, vocational training, employment status, details about current and former occupation respectively, affiliation to public service, working hours per week (primary and secondary job), supervisory functions, fear of unemployment, date of termination of full- or part-time employment, status of non-employment, length of unemployment, unemployment in respondent's social environment, overall health, marital status, respondent's income, type of dwelling, self-description of place of residence, frequency and type of contact with neighbors, religious denomination, frequency of church attendance, active role in church life, voting intention (Sonntagsfrage) and electoral participation, attractiveness.

Details about respondent's current spouse: citizenship (nationality), number of citizenships, age, month and year of birth, school education, vocational training, employment status, details about current occupation, affiliation to public service, fear of unemployment, status of non-employment.

Details about respondent's steady partner: citizenship (nationality), number of citizenships, age, month and year of birth, school education, vocational training, employment status, details about current occupation, affiliation to public service, fear of unemployment, status of non-employment, distribution of household chores.

Details about respondent's parents: school education of mother and father, vocational training of mother and father, details about both parents' occupation.

Description of household: size of household, number of persons older than 17 in household (reduced size of household), household income.

Details about household members: family relation to respondent, gender, month and year of birth, age, marital status.

Details about children not living in the household: number of children not living in the household, gender, year of birth, age.

Respondent's current memberships: current and previous membership in a trade union, active work in trade union; membership in other occupational organization, active work in such organization; membership in a political party.

10.) *Data on the interview*: date of interview; beginning and end of interview; length of interview; presence of other persons during interview; presence of spouse, partner or children during interview; presence of other relatives during interview; interference of other persons in the course of the interview; willingness to cooperate and reliability of information from respondent; respondent followed interview on screen; willingness to participate in on-line surveys or other self-completion survey; participation in additional ISSP-survey; details about respondent's residential building and assessment of respondent's neighborhood; reachability of respondent; willingness to participate.

Details about the interviewer: gender, age, school education; identification number, length of experience as an interviewer; number of attempts to contact the respondent.

11.) *Leisure time and sports (ISSP)*: time spent on various leisure activities; use of leisure time to express real self, to strengthen social ties; how much fun from various leisure activities; frequency of using leisure time to make social contacts, to relax, to educate oneself; how often bored, uneasy or thinking of work during leisure time; sociability of respondent; desired distribution of time for work and leisure activities; frequency of overnight stays away from home; number of days taken off from work; most frequently played sport or other physical activity; most frequently played game; importance of various reasons for taking part in sports or games; two most preferred sports on TV; how proud of German successes in sports; support of various opinions on sports; participation in activities of various types of associations or groups; general trust in fellow men; political interest; factors limiting free use of leisure time; assessment of personal happiness; overall health; height and weight; desired weight change; self-classification on a top-bottom-scale; self-assessment of character traits (abridged Big Five Inventory measuring extraversion, agreeableness, conscientiousness, emotional stability, openness to experience); opinion on restricting the right to strike for different occupational groups; opinion on making unemployment insurance elective; opinion on eligibility for Hartz IV benefits (welfare) if partner can provide or if there are private savings.

12.) *Religion III (ISSP)*: assessment of personal happiness; attitude towards pre-marital sexual intercourse and marital infidelity; attitudes towards homosexuality and abortion; assessment of the distribution of roles in a marriage and attitude towards working women; general trust in fellow men; confidence in institutions such as the federal parliament (Bundestag), commerce, industry, churches, courts, and schools; change of residence; influence of church leaders on voters and on the government; evaluation of science; religion as source of conflicts; opinion on the power of churches and religious organizations; support for religious tolerance and legal equality of all religions; social acceptance of other religions; freedom of expression for religious fanatics; doubt or strong belief in God; development of personal belief in God; belief in a life after death, the devil, heaven, hell, and miracles; belief in reincarnation, Nirvana, supernatural powers of ancestors; fatalism; cosmology, the meaning of life and the Christian interpretation of life; church and its rites unnecessary for contact with God; religious orientation of father and mother; personal religious orientation and frequency of church attendance in youth; religious orientation of spouse or partner; frequency of church attendance of parents; frequency of prayer and participation in religious activities; religious artifact in home; frequency of visiting holy places; self-assessment of religiousness; self-description as religious or spiritual person; religion and truth; religion as guide and support in life; renewal of religious ties at a turning point in life; superstitious belief in good luck charms, fortune tellers, faith healers, signs of the zodiac and horoscopes; self-classification on a top-bottom-scale; self-assessment of character traits (abridged Big Five Inventory measuring extraversion, agreeableness, conscientiousness, emotional stability, openness to experience).

13.) *Added value*: Inglehart-Index; family typology, classification of private households (according to Porst and Funk); International Standard Classification of Occupations (ISCO 1968, 1988); occupational prestige (according to Treiman); Standard International Occupational Prestige Scale (SIOPS, according to Ganzeboom), International Socio-economic Index of Occupational Status (ISEI, according to Ganzeboom); magnitude prestige (according to Wegener); occupational metaclassification (according to Terwey); class position (according to Goldthorpe); Body-Mass-Index; transformation weight for analyses on household level; east-west design weight.

Total Population and Sample:

Universe sampled: Federal Republic of Germany

Person sample: Two stage disproportionate random sample in western Germany (incl. West Berlin) and eastern Germany (incl. East Berlin) of all persons (German and non-German) who resided in private

households on the day of the interview and were born before 1 January 1990. In the first sample stage municipalities (Gemeinden) in western Germany and municipalities in eastern Germany were selected with a probability proportional to their number of adult residents; in the second sample stage individual persons were selected at random from the municipal registers of residents. Targeted individuals who did not have adequate knowledge of German to conduct the interview were treated as systematic unit non-responses.

Method of Data Collection:

Personal interview with standardized questionnaire (CAPI – Computer Assisted Personal Interviewing), one question battery on political knowledge as CASI (Computer Assisted Self-Interviewing). Two additional questionnaires (CASI) for ISSP (split questionnaire design).

Primary Sampling Units / Sample-Points:

West: 111 Sample-Points (in 102 municipalities)

East: 51 Sample-Points (in 46 municipalities)

Response Rate:

West: 40.5 %

East: 39.8 %

Total: 40.3 %

Data Set:

Number of respondents: 3469

Number of variables: 801

The known literature using ALLBUS-Data is documented in the ALLBUS-Bibliography. This bibliography can be searched online at the [GESIS web presence](#).

Further Notes:

Respondents from the area of the new federal states are oversampled.

A second version of this data set (491 variables) with a shortened demography module is additionally available as ALLBUS/GGSScompact 2008 (Study-No. 4603).

The original German data sets are available as Study No. 4600 (full version) and Study No. 4601 (ALLBUScompact).

Appendix

Notes on the Additional ALLBUS/GGSScompact 2008 (Study No. 4603)

As an alternative to ALLBUS/GGSS 2008 with its relatively complex demography module, GESIS also offers an additional compact version with a reduced number of demographic variables. Providing an easily manageable selection of basic demographic descriptors, this ALLBUS/GGSScompact addresses, amongst others, the needs of newcomers to data analysis. Moreover, access conditions for ALLBUS/GGSScompact are less strict than for the more extensive ALLBUS/GGSS data, because data protection issues are less salient.

However, for reasons of data protection some of the remaining demographic data still had to be simplified. When part of the ALLBUS/GGSS survey in question, detailed data concerning the respondents' citizenship has been dichotomized ("German citizenship" vs. "No German citizenship"). Moreover, the two largest categories of the variable 'Political Size of Municipality' have been combined. (A detailed account of recodes can be found below.)

Apart from demography, all other questions have been retained in full in the compact version. Moreover, variable labels and variable numbers in ALLBUS/GGSScompact are the same as in the unabridged ALLBUS/GGSS data set. In this way, users may easily move between both versions of the ALLBUS/GGSS data if necessary.
