## Left right positioning of political parties

### 1. Project description

**Project name:** Left-right scale EVS 2017

**Summary:** Harmonization of political parties using the Left-Right scale.

**Correspondent questions:**

- Q49. "Which (political) party appeals to you most?"
- Q49a. "Is there another party that appeals to you?"

**Concept description:**

The harmonized variable was constructed following the classification used in the EVS waves 2008 (Q75b, v265\_LR), hence employing the Left-Right scale. The national teams provided the mapping between the political parties in a country and the harmonized variable. The mapping was approved by the EVS Methodology Group before the start of the translation process and fieldwork, and successively updated after data collection. The categories of the source variables consist of all the political parties listed in the national field questionnaires. In addition, open answers given under the category "Other" were checked to see if it was possible to include them in one of the existing categories; alternatively, new categories could be added if answer categories exceeded 1%. Descriptions of political parties have been provided by country teams to support the placement onto the Left-Right scale. The source variables, which are indicated as v174\_country-abbreviation (e.g., v174\_AL, v175\_CH, etc) in this document, are compiled in variable v174\_cs and v175\_cs in the EVS data-sets.
