„ALLBUS“-Questionnaire**

*Martina Wasmer & Horst Baumann*

The translation of the original German questionnaire of ALLBUS 2018 was first published by GESIS as:

Wasmer, Martina and Horst Baumann 2019: German General Social Survey 2018: English translation of the German "ALLBUS"-Questionnaire, GESIS Papers 2019|07.

This extended documentation additionally comprises the English language source questionnaires of the two ISSP modules surveyed together with ALLBUS 2018. Moreover, for the convenience of data users the names of the corresponding variables in the data set were added to each question.

## Preliminary Notes

---

Translation goals always affect the translation outcome. The goal of the English translation of the German General Social Survey (ALLBUS) 2018 is to let interested researchers know what was asked in the survey. Our goal was not to produce a questionnaire that can be fielded in an English speaking community exactly as presented. Some of the translations, for example, are therefore not especially idiomatic; reasons are given below.

Our translations are not heavily annotated. Occasionally we provide additional information, more frequently we quote the original text to clarify reference (e.g. concerning occupational qualifications). In both cases we use pointed brackets '<...>' to identify our comments.

While it is certainly possible to field ALLBUS items in an English language survey, we strongly recommend taking into consideration the points we make below and adjusting the translation to the specific survey context. Should questions related to the translation arise, we are also happy to help by providing specific clarifications wherever possible.

Together with ALLBUS 2018, two modules of the International Social Survey Programme (ISSP) were fielded. The two ISSP-modules were surveyed in a split-ballot design such that each module was answered by one half of the respondents. The ISSP questions are not part of this technical report. However, the English ISSP source questionnaires for 2017 (Social Networks) and 2018 (Religion) can be found on the ISSP website.<sup>1</sup>

We would like to take the opportunity to thank our native English speaking translator, David Allison, for his patience and his valuable professional contribution in the translation of the new ALLBUS items. Decisions on the final translation were taken by the ALLBUS-team.

### Some notes on the translation

#### *Translation of the German indefinite pronoun 'man':*

The German pronoun 'man' is often used when making general statements or when referring to general opinions. In many respects it is therefore similar to the English pronoun 'one'. However, it differs in register, i.e. it is less formal than 'one', and it is used in more and different contexts than 'one' in English. Depending on context, English equivalents for 'man' can therefore be 'one', 'you', 'we' or 'people'.

#### *Gender specific references:*

German and English differ quite a lot in the way the sex of people is referred to. Various differences have meant that we sometimes translated with 'he/she' when the German has indicated the sex differently.

#### *Answer scales:*

Translating answer scales can present special challenges for translators. Whereas translations of generic answer scales are readily available, other cases, where the German scale itself is perhaps unusual, require more attention. In the case of generic answer scales, we tried to use standard translations whenever possible. However, we also tried to stay as close to the actual German wording

---

<sup>1</sup> <http://www.issp.org/data-download/by-year/>

as possible. Thus, some answer scales are immediately recognizable from an English context, other answer scales are similar to standard English practice but reflect a peculiarity in the German wording. In cases where no standard translation was available, we tried to find a translation that reflects the essence of the German wording.

*Non-response categories:*

ALLBUS 2018 was conducted as a computer-assisted-personal-interview (CAPI) and non-response categories such as 'answer refused', 'don't know' or 'no answer' were generally not read out to respondents. The category 'no answer' is implicitly possible for all questions. We therefore chose not to explicitly document it in this translation.

Additional information provided with the question texts

To make this document more useful as a resource for working with the data each question is supplemented with the relevant technical and administrative information.

*Routing:*

The routing of respondents through the interview is documented in the form of backward filters detailing the screening conditions depending on which a respondent was asked a certain question. Backward filters are documented directly after the corresponding question-ID. They are enclosed in round brackets.

*Variable names:*

As a rule, variable names are documented after the question-ID (if applicable, after the corresponding routing documentation) or directly before the corresponding item-ID. They are printed in red and enclosed in square brackets (e.g. [ep01]). The names of variables containing derived data are documented below the question text of the source variable. A list of ALLBUS-variables containing data that cannot be attributed to a single question or data that has been supplemented from other sources can be found in the appendix.

*Split-ballot designs and other information regarding the interview process:*

Information regarding technical aspects of the interview process is printed in blue and is usually documented directly above the question concerned. This includes information on special survey techniques, like item rotation or the random selection of items, as well as purely technical information, such as the looping of questions for the list of household members.

*Interviewer instructions and questions for the interviewer:*

Interviewer instructions are introduced by "INT.:" and printed in italics, e.g. "*INT.: Please display card 31.*"

Questions to be answered by the interviewer are additionally marked by the phrase "**For the interviewer:**" preceding the question-ID.

### OR001 [xr19]

To finish this interview, we would like to ask a few more questions.  
The internet is of increasing importance in society. We are therefore interested to know whether you use the internet for private purposes, at least occasionally?

*INT.: This can be on a computer, laptop, tablet or smartphone.*

Yes, I use the internet for private purposes.  
No, I don't use the internet for private purposes.

Don't know

### OR002 (If respondent uses the internet for private purposes ("Yes" in OR001)) [xr20]

You said that you use the internet. How often do you use it, be it via a computer, a laptop, a tablet, or a smartphone?  
Do you use it several times a day, about once a day, several times a week, about once a week, or less often?

*INT.: If several devices are used, usages should be added up.*

### OR005 [xr21]

May we invite you to participate in these surveys?

Wishes to receive an invitation  
Does **not** wish to receive an invitation  
Respondent is hesitant

---

**OR006** (If, according to OR005, respondent is hesitant) [xr22]

You don't have to make a final decision today. May we nevertheless send you a non-binding invitation to participate?

*INT.: If possible, please deter the respondent from giving a final refusal; they can still decide at a later date not to participate.*

Yes

No

**ORconsent** (If respondent would like to receive an invitation ("Wishes to receive an invitation" in OR005 or "Yes" in OR006)) [xr23]

Thank you for accepting to receive an invitation.

When we start to interview you for GESIS GesellschaftsMonitor, it will be necessary to merge the answers from today's interview with the answers of the forthcoming surveys.

We would like you to take this information sheet about this topic.

*INT.: Interviewer, please confirm handover.*

I confirm having handed over the information sheet.

As you can also see from the information sheet, the merging of the information is crucial for the success of the research project.

Using merged data, researchers can, for example, analyse how attitudes change over time. Questions like this, which depend on the use of merged data, are of great interest for the social sciences.

The linking of the data takes place exclusively via a code number and not via your name.

Your anonymity is preserved.

*INT.: If necessary, probe and explain again:*

- *Only by jointly analyzing the information is it possible to investigate research questions such as attitude stability or change.*
- *Certain information, for example personal details, does not have to be asked for repeatedly.*
- *The linking of data is indispensable for achieving the research objectives.*

- *Data protection is fully provided for; linking takes place only via numbers not via names.*
- *The anonymity of the respondent is ensured also when data are merged.*

*INT.: Please note: Without consent, participation in the GESIS GesellschaftsMonitor is not possible.*

Do you consent to the data being linked in this way?

Yes

Yes, after explanation

No

---

**OR007** (If respondent agreed to the data linking ("Yes" in ORconsent) and uses the internet for private purposes ("Yes" in OR001 and "several times a day", "about once a day", "several times a week", "about once a week" or "less often" in OR002) [xr24]

You said earlier that you use the internet for private purposes. May we assume that it is okay with you to fill in the questionnaire online?

*INT.: Please win the target person over to the online mode without risking nonresponse. Arguments in favour:*

- *It is easy to operate.*
- *Lower costs (financing from public funds)*
- *Data protection is also ensured in the case of the online mode.*
- *It saves paper, so it is more environmentally friendly.*

The online questionnaire is okay with the respondent.

The respondent would prefer a paper-and-pencil questionnaire.

---

---

**OR008** (If, according to OR007, respondent chose the online questionnaire) [xr25]

In future, we would also like to invite you by email to participate in our surveys. May I record your email address for this purpose?

*INT.:* This information is voluntary, so do not insist. If the target person is sensitive about data protection, do not ask.

Yes

No

I do not have an email address.

Not asked

---

**For the interviewer: OR013** (If respondent agreed to the data being linked („Yes“ or „Yes, after explanation“ in ORconsent)) [xr26]

# **ISSP 2017 Module on Social Networks and Social Resources**

## **Final source questionnaire**

**19.07.2016**

### **Drafting Group**

Switzerland (convenor, Dominique Joye and Marlène Sapin)

Germany (Christof Wolf)

China (Yanjie Bian)

Denmark (Johannes Andersen)

Turkey (Ali Carkoglu and Ersin Kalaycioglu)

United States (Tom W. Smith and Peter Marsden)

With one expert from Taiwan (Yang-chih Fu)

### **Notes on the 2017 module**

1. All notes which are not part of the questionnaire and intended only for members are enclosed in pointed, angle brackets (for example, translation notes).
2. All the elements in questions which require local adaptation are enclosed in square brackets. These instructions often relate to adding the name of the relevant country.
3. Translation and clarification notes are provided after the relevant question.
4. In general, if translators have difficulties when translating answer categories, they should focus upon translating the concepts expressed by the codes rather than the precise words used.
5. Item history (in blue font color) is reported above question text and should be dropped in the final translated versions. The strict repetition of previous ISSP items is indicated by the “R”s, followed by the year of the ISSP module.
6. All the substantive questions must be asked in the order presented here (Q1 to Q30). Note that there is a unique filter in Q17.
7. The additional background variables (Q31 and Q32) are also compulsory and must be asked in the section on background variables. For countries that have very similar languages (Q32), the question wording has to be adapted in order to specify that they must not be considered as distinct languages.
8. If the optional items (Q33 to Q36 and SPDEGREE) are adopted, they should be asked to all respondents. The additional background variable on partner/spouse’s highest level of education (SPDEGREE) must be asked in the background variable section in using country specific categories. As this question must be filtered for respondents who do not have a partner, a suggested order is to ask it just after PARTLIV.
9. This module is fielded with the usual ISSP background variables (a set of mostly demographical background variables, which are delivered as mandatory part of the national data sets).

**Q1. Here is a list of jobs that people you know may have. These people could be family or relatives, close friends or someone else you know. By “knowing” a person, we mean that you know him/her by name and well enough to contact him/her.**

**If you know several people who have a job from the list below, please only tick the box for the person who you feel closest to. Each of these jobs could be held by a woman or a man.**

**Do you know a woman or a man who is...?**

PLEASE TICK ONE BOX ON EACH LINE

		Family or relative	Close friend	Someone else I know	No one	Can't choose
<b>[I001A_1]</b>	a. a bus/lorry driver	<input type="checkbox"/>				
<b>[I001A_2]</b>	b. a senior executive of a large company	<input type="checkbox"/>				
<b>[I001A_3]</b>	c. a home or office cleaner	<input type="checkbox"/>				
<b>[I001A_4]</b>	d. a hairdresser/barber	<input type="checkbox"/>				
<b>[I001A_5]</b>	e. a human resource manager/personnel manager	<input type="checkbox"/>

<b>[I001B_4]</b>	i. a police officer	<input type="checkbox"/>				
<b>[I001B_5]</b>	j. a school teacher	<input type="checkbox"/>				

<TN: “Police officer” must be translated in a way that it refers to all women and men doing any type of police work (e.g. traffic enforcement, street patrol, investigation).>

<TN: “A school teacher” must be translated so that it refers to middle education teaching, i.e. to a school teacher of teenagers, aged between 12 and 15 years >.

<TN: In many languages there are distinct job titles for females and males who hold a job (e.g. waitress/waiter).

a) Where it is appropriate, use only the male form assuming it is the generic title.

b) Use both the female and male forms only if necessary to make it clear that both women and men can hold the occupation.

In any case it should be clear that all the occupations can be held by both females and males. >

## Notes on Question Wordings

In the above text "( )" are parenthetical statements that will appear in the version administered to respondents. "[ ]" are used to show where appropriate, country-specific words will be inserted and the punctuations will be removed from the final text. "< >" are special notes or instructions to follow. The punctuations and the statements themselves will be removed from the final text.

Q. 2 - "Family members" includes both nuclear and extended relations.

Q. 3 - "sexual relations" means "sexual intercourse".

Q. 7 - "confidence" takes on several meanings, but having trust in is the main dimension.

Q. 7B - "Business and industry" - refers to large-scale businesses, but don't use an adjective like "big" in the translation.

Q. 7C - "Churches" can be substituted with a functional equivalent (one or more).

Q. 8 - "Religious leaders" include clergy and other religious leaders at both the local level and higher.

Q. 10 - "churches and religious organizations" refers to the power of organized or institutional religions collectively. The question is whether overall religious organizations (e.g. the Catholic and Lutheran churches) have too much/too little power. "Churches" can be substituted with a functional equivalent.

Q. 12B - "Social media" refers to such things as Facebook, Twitter, WhatsApp, Instagram, YouTube etc. If a respondent asks what "social media" is, these may be given as examples.

Qs. Required: 13, 14, 16a, 16c, 16f and Optionals: 2, 4C: "God" refers to a supreme being. The term should refer to an entity rather than a non-sentient force. An encompassing, non-sectarian term is desirable if possible.

Q. 13, response 3 - a "personal God" - a supreme being who cares about and is involved with individuals. This is a view of God in contrast to a deistic outlook.

Q. 15E, 30 - "supernatural" refers to beyond the physical world, should connote things of a divine or transcendental nature. Avoid if possible, terms that refer mostly to entities like ghosts, poltergeists, elves, gremlins, etc. not associated with religion.

Q. 16F - "Churches" can be substituted with a functional equivalent.

Qs 18-20 - "preference" refers to the religion that a person favors or identifies with. If a person was born a member of one religion, but then preferred or identified with another religion, this question asks about the latter.

"Religions" refers to major faiths or organized theological systems as opposed to "denominations" which are sub-divisions within a religion. What is important is that these questions distinguish all relevant faiths, religions, denominations, sects, etc. that exist in each country.

Qs. 21-23 - "religious services" generally refers to organized, group worship activities like Muslims going to the mosque on Fridays, Catholic mass, attending church on Sundays for Protestants, etc. Private prayers at home would not normally count.

Q. 25 - "Church" can be substituted with a functional equivalent.

Q. 27 - In general, list two or three examples that would be appropriate for the two or three largest religions in your country. If the country is religiously homogenous and only one type of religious object would be typical for that religion, a single example would suffice. However, we want to avoid creating the impression that we are referring only to religious objects relating to one particular religion.

Q. 28 Note that this refers to a religious visit, thus sightseeing at a shrine, temple, church, tomb, etc. without a religious purpose would not count. In general, list two or three examples of holy places that would be appropriate for the two or three largest religions in your country. If the country is religiously homogenous and only one type of holy place would be typical for that religion, a single example would suffice. However, we want to avoid creating the impression that we are referring only to holy places relating to one particular religion.

Q. 29 "extremely non-religious" - this does not mean anti-religious or attacking religion, but being without any religious feelings, beliefs, or behaviors.

"Extremely" should be translated to avoid a negative connotation and not to imply religious extremism.

Q. 30 - see Q. 15E above.

Q. 33A - "Interfere" means to take a measure to hinder, obstruct; "government" means the institutions of the state, not the party in power.

Q. 33B - "Living close together" refers to having a neighbor or living in the same small community.

Q. 34A - "represents" means stands for, is part of, is emblematic of

Q. 35 - "Christians" collectively refers to followers of all churches associated with Christianity: Eastern Orthodox, Catholic, Protestant, Baptist, Seventh Day Adventist, etc. Similarly the other terms cover all sects or divisions within each of the listed major religions.

## Optionals

Optional Qs. 1 and 2 should be asked in countries with an appreciable number of Evangelical Protestants. They are not general questions to be asked in all countries.

Optional Qs. 3-7,9 are generally applicable for all countries.

Optional Q. 1 - "born-again" - this refers to a specific type of spiritual experience in which people accept Christ as their personal Savior and are "born-again" as a Christian on the path to salvation. If your country has Baptist or Pentecostal sects, find what they use in your language(s) for this. It does not refer to "rebirth" in the sense of reincarnation.

Optional Q. 2 - "Bible" should be used in all countries with predominantly Judeo-Christian heritage. Countries with adherents mostly from other religious traditions might either omit this item or replace "Bible" with the appropriate holy book. For example, a predominately Muslim country could rephrase the item in terms of the Koran.

"This does not apply to me." This code is largely for members of religions outside the Judeo-Christian tradition, but we want it to be flexible enough for other respondents to use it, if it seems appropriate to them.

Optional Q. 3 - "turning point" - a time or event in one's life when a change occurred resulting in a gaining of faith, becoming a believer, a rededication to one's religion or similar.

Optional Q. 6 - See note for Q.35 among compulsory items.

"Non-believers" refers to individuals without any religious belief  
"Jews" refers to the followers of Jewish faith.

Optional Q. 8A - "Reincarnation - being Reborn in this world again and again"

This was mistranslated in several countries in 2008. Terms that refer to the resurrection of Christ, the rising or resurrection of the dead in end times, or being born again (see note on Option Q. 1) must be avoided.

Optional Q. 8B - "Nirvana" is a Buddhist concept that refers to the ultimate state transcending pain and desire in which individual consciousness ends.
