EB32 - D15 - DEMO

D.16. We would like to analyse the survey results according to the income of the people we interviewed (SHOW INCOME CARD \*\*). Here is an income scale; we would like to know in what group your family is, counting all wages, salaries, children allowances, pensions and any other income that comes in. Just give me the letter of the group your household falls into before tax and other deductions.

## EUROBAROMETER 33

Between March 19 and April 16, 1990, INRA (EUROPE) carried out the 33rd wave of the STANDARD EUROBAROMETER, on request of the COMMISSION OF THE EUROPEAN COMMUNITIES, Directorate General X, INFORMATION, COMMUNICATION AND CULTURE, Unit "Surveys, Research, Analyses".

INRA(Europe) is a European Network of Market- and Public Opinion Research agencies, co-ordinated by the European Co-ordination Office (E.C.O.), Avenue R. Vandendriessche 18, B - 1150 Brussels.

The results of the Eurobarometer are made available through the Unit "Surveys, Research, Analyses" of the DG ICC of the Commission of the European Communities. All requests for further information should be addressed to Mr. Karlheinz REIF, DG X - ICC - SRA, "Eurobarometer", Rue de la Loi 200, B-1049 Brussels.

All Eurobarometer data are stored at the Zentral Archiv (Universität Köln, Bachemer Strasse, 40, D-5000 Köln 41). They are at the disposal of all institutes members of the European Consortium for Political Research (Essex), of the Inter-University Consortium for Political and Social Research (Michigan) and all those interested in social science research.

### DETAILS ON SAMPLING

In all 12 countries of the European Community, in total 11.775 national citizens, of 15 years and over, were interviewed in face-to-face, in their private residence.

Entre le 19 mars et le 16 avril 1990, INRA (EUROPE) a réalisé la vague 33 de l'EUROBAROMETRE STANDARD, à la demande de la COMMISSION DES COMMUNAUTES EUROPEENNES, Direction Générale X, Information, Communication et Culture, Unité "Sondages, Recherches, Analyses".

INRA (EUROPE) est une chaîne Européenne d'instituts de sondage d'opinion publique et d'études de marché, coordonnée par le Bureau de Coordination Européen (E.C.O.), Avenue R. Vandendriessche 18, B - 1150 Bruxelles.

Les résultats de l'Eurobaromètre sont disponibles à travers l'Unité "Sondages, Recherches, Analyses" de la DG ICC de la Commission des Communautés Européennes. Toute demande d'information supplémentaire doit être adressée à Mr. Karlheinz REIF, DG X - ICC - SRA, "Eurobarometre", Rue de la Loi 200, B - 1049 Bruxelles.

Toutes les données relatives aux Eurobaromètres sont déposées au Zentral Archiv (Universität Köln, Bachemer Strasse, 40, D-5000 Köln 41). Elles sont tenues à la disposition des organismes membres du European Consortium for Political Research (Essex), du Inter-University Consortium for Political and Social Research (Michigan) et des chercheurs justifiant d'un intérêt de recherche.

### L'ECHANTILLONNAGE

Dans les 12 pays-membres de la Communauté Européenne, au total 11.775 citoyens nationaux de 15 ans et plus ont été interrogés en face-à-face à leur domicile.

| Portugal             | 1000 |
| UK: Great Britain    | 1055 |
| UK: Northern Ireland | 319  |

The basic sample design applied in all Member States is a multi-stage, random (probability) one. In all Member States a number of sampling points was drawn with probability proportional to population size, for a total coverage of each Member State, and to population density.

For doing so, the points were drawn systematically from all "administrative regional units" (list appended), after stratification by individual unit and type of area. They thus represent the whole territory of the Member States according to the EUROSTAT-NUTS II and according to the distribution of the national, resident population in terms of metropolitan, urban and rural areas.

In each of the selected sampling points, a starting address was drawn, at random. That starting address formed the first of a cluster of addresses. The remainder of the cluster was selected as every Nth address by standard random route procedures from the initial address.

In Great Britain, a full random selection of respondents was applied, using electoral registers as sampling basis.

In each household the respondent was selected according to a random procedure, such as the first birthday method or the KISJ-grid. At every such address up to 2 recalls were made to achieve an interview with that respondent. The maximum number of interviews per household is one. All interviews were taken face to face.

Le principe d'échantillonnage, appliqué dans tous les pays-membres est une sélection aléatoire à multiples phases. Dans tous les pays-membres un certain nombre de points de chute sont tirés avec probabilité proportionnelle à la taille de la population, avec couverture totale de chaque état-membre, et à la densité de la population.

Les points de chute sont tirés systématiquement dans chacune des "unités régionales administratives" (liste en annexe), après stratification par unité et type de région. On représente ainsi le territoire complet de chaque pays-membre, selon les régions EUROSTAT-NUTS II et selon la distribution de la population nationale en termes d'urbanisation.

Dans chacun des points de chute, une adresse de départ est imposée, qui est sélectionnée aléatoirement. Cette adresse est la première d'un cluster d'adresses. Les autres adresses du cluster sont sélectionnées comme chaque adresse N, par procédure standardisée de "random route" de l'adresse initiale.

En Grande-Bretagne, une sélection purement aléatoire des répondants est appliquée, utilisant les listes électorales comme base de sélection.

Dans chaque ménage le répondant est sélectionné selon une procédure aléatoire, comme la méthode du premier anniversaire ou la grille dite KISJ. A chaque adresse, jusqu'à 2 révisites sont faites pour réaliser une interview avec la personne sélectionnée. Pas plus d'une interview par ménage n'est admise. Toutes les interviews sont réalisées en face à face.

**REALISATION OF THE FIELDWORK****REALISATION DU TERRAIN**

| <b><u>COUNTRY / PAYS</u></b> | <b><u>FROM: / DU:</u></b> | <b><u>TO: / AU:</u></b> | <b><u>POPULATION<br/>TOTAL :</u></b> |

| EC12                         |                           |                         | 258 184.9                            |

In all member States, fieldwork was conducted on the basis of detailed and uniform instructions prepared by the European Co-ordination Office (ECO).

Dans chacun des pays-membres le terrain est réalisé sur base d'instructions détaillées et uniformes, préparées par le Bureau Européen de Coordination (ECO).

**COMPARISON BETWEEN  
SAMPLES AND UNIVERSES  
AND WEIGHTING OF THE DATA**

For each of the countries a comparison between the samples and a proper universe description was carried out. This Universe description was made available by the National Research Institutes and by EUROSTAT.

For all EC-member-countries a national weighting procedure, using marginal and intercellular weighting, was carried out based on this Universe description. As such in all countries, minimum sex, age, region NUTS II and size of locality were introduced in the iteration procedure. For some countries extra variables were added, when considered necessary.

For international weighting INRA (EUROPE) applies the official population figures aged 15 years and older as published by EUROSTAT in the Regional Statistics Yearbook of 1988. The total population figures for input in this post-weighting procedure are listed above.

**COMPARAISON DES ECHANTILLONS  
AVEC LA POPULATION  
ET PONDERATION**

Pour chacun des pays une comparaison entre les échantillons et les chiffres de la population, description d'univers, est réalisée. Les chiffres d'univers sont mis à la disposition par les Instituts Nationaux et par EUROSTAT.

Pour tous les pays-membres une procédure de pondération nationale est réalisée, sur des données marginales ou croisées, tirées de cette description d'univers. Ainsi, dans tous les pays, au moins le sexe, l'âge, les régions NUTS II et la taille de l'agglomération sont introduits dans la procédure d'itération. Pour certains pays des variables supplémentaires sont introduites si nécessaire.

Pour pondérer au plan international, INRA (EUROPE) applique les données officielles de la population de 15 ans et plus, publiées par EUROSTAT dans l'Annuaire 1988 des Statistiques Régionales. Les chiffres exacts introduits dans cette routine de post-pondération sont résumés dans le tableau précédent.
