ISSP 1999 INEQUALITY
FINAL QUESTIONNAIRE

[NOTES ON LAYOUT CONVENTIONS]

LAYOUT CONVENTIONS:

(1) Questions with "V" numbers under 100 (eg V12, V43, V73) are repetition items. PLEASE USE THE SAME WORDING FOR THEM AS YOU USED IN 1992.

(2) (OPTIONAL PHRASES) -- involving clarification or transition between questions, but never the substance of the question -- that you may omit or include (possibly in modified form) according to your best judgment -- are shown in curly brackets { }.

(3) [COUNTRY SPECIFIC MATERIAL] is shown in square brackets and capital letters. For example, for:
   "in [COUNTRY] taxes are too high"
you would insert the name of your country, e.g. ...
   "in Australia taxes are too high"
or
   "in Norway taxes are too high"

(4) [[Material in DOUBLE square brackets like this]] is NOT part of the questionnaire -- respondents should not see this material! It is instead notes about concepts and translation, and other materials for the analyst.

(5) Variable numbers refer to the 1992 Inequality Module where possible; others are new. Variable names are from 1992 where possible.
1. To begin, we have some questions about opportunities for getting ahead...
First, how important is coming from a wealthy family?

8 Can't Choose

[[(V312)]]
Would you say that you earn...
If you are not working now, please tell about your last job.
1 Much less than I deserve
2 Less than I deserve
3 What I deserve
4 More than I deserve
5 Much more than I deserve
6 Never Worked
8 Can't Choose
We would like to know what you think people in these jobs actually earn. Please write how much you think they usually earn each [YEAR/MONTH/WEEK], [BEFORE/AFTER] taxes. Many people are not exactly sure about this, but your best guess will be close enough. This may be difficult, but it is very important. So please try.

[[In 1992, the item asked about YEAR and BEFORE taxes. This should be followed if you asked it this way before. If you did not participate in the 1992 ISSP and you find this formulation problematic, you may use whichever of “year”, “month”, “fortnight”, or “week” is most customary in your nation. Use “before” tax or “after” tax, according to the custom in your nation. For example you might say: “Please write how much you think they usually earn each year before taxes”, or “Please write how much you think they usually earn each week before taxes”, or “Please write how much you think they usually earn each week after taxes”.]]

[A LARGE NATIONAL CORPORATION--a privately owned corporation that operates throughout the country, not a corporation owned by the government. “Company” is also acceptable in English rather than “corporation”.

JUDGE IN XXX COURT--your country’s highest appellate court--not a court that originally tries cases, even serious cases, but the highest court of all. For example, in the USA it would be “A judge in the Supreme Court”.

CABINET MINISTER--in the national government, so use the word that makes clear sense in your language. For example, in Australia it would be “A cabinet minister in the federal government”.

LAWYER--”solicitor” in the British-type systems where barristers are separate.]]
Next, what do you think people in these jobs ought to be paid -- how much do you think they should earn each year before taxes, regardless of what they actually get... Please write in how much they SHOULD earn each year

[[V41]] First, about how much do you think a skilled worker in a factory should to earn? .................

[[V42]] A doctor in general practice? .........................

[[V44]] The chairman of a large national corporation? ....

[[V45]] A lawyer? {-- about how much ought they to earn?}.

[[V43]] A shop assistant? ........................................

[[V48]] The owner-manager of a large factory? .............

[[V49]] A judge in [COUNTRY'S HIGHEST COURT]? ....

[[V50]] An unskilled worker in a factory? .................

[[V51]] A cabinet minister in the [NATIONAL] government ...

[[V302]] YOUR occupation -- about how much ought they to earn? ......

*If not working now, please tell about your last occupation*

*If you have never worked, please check here* .........................................................[ ]

These required background variables can be put anywhere in the questionnaire – for example, with your other demographic and background questions. They need not go with the rest of the ISSP module.

Question wording can vary, so long as you get the required information. Normally you would use essentially the same wording in asking about father and mother as you already use in corresponding questions for respondent.]

[[V142: REQUIRED DEMOGRAPHIC VARIABLE – father’s occupation, ISCO 1988]]

[[COUNTRY SPECIFIC WORDING is allowed so long as it gets this information. Like other demographic and background variables, this question can be put wherever you like in the questionnaire – it need not be with the other ISSP questions.]]

[[The age reference – “when you were 14” in the example below – should preferably be age 14 or 15 or 16. Use that same age in other questions about family background – such as V74 or V502.]]

[[Answers must be coded to the International Labor Office’s International Standard Classification of Occupations 1988 – the full 4 digit code]]

[[A standard and recommended wording follows. Note that there are 2 questions. The information from both is used in assigning the ISCO code. The questions: ]]

When you were 14 years old, what kind of work did your father do; what was his occupation?

**DESCRIBE FULLY, USING TWO WORDS OR MORE (Do not use initials or abbreviations)**

[[leave space for 3 lines of writing]]

What were some of your father’s main duties? Please write in a description of his duties

[[leave space for 2 lines of writing]]

[[v502: REQUIRED DEMOGRAPHIC VARIABLE – Father supervisor]]

[[COUNTRY SPECIFIC WORDING is allowed so long as it gets this information. Like other demographic and background variables, this question can be put wherever you like in the questionnaire – it need not be with the other ISSP questions.]]

[[This is the same information you currently provide for respondent; presumably you would use similar wording in your question.]]

[[Use the same age here (“14, or “15” or “16”) that you use in your question about “father’s occupation when you were age X”. If you do not mention any particular age in the father’s occupation question, use age “15” here.]]

[[This is the information required:

In his job [when you were 14/15/16], did your father supervise anyone who was directly responsible to him?

No, did not supervise
Supervised between one and 9 persons
Supervised 10 or more persons ]]

[[Here is one acceptable wording: ]]

In that job, did your father supervise anyone who was directly responsible to him?

No, did not supervise
Yes, supervised 1 to 9 people
Yes, supervised 10 or more
Don’t Know
[[v501: REQUIRED DEMOGRAPHIC VARIABLE – father self-employed/ government worker/ employee of private business]]

[[COUNTRY SPECIFIC WORDING is allowed so long as it gets this information. Like other demographic and background variables, this question can be put wherever you like in the questionnaire – it need not be with the other ISSP questions.]]

[[Definitions of “private”, “government” and “self-employed” follow usual ISSP definitions for respondent’s own job (these are variables V109 and V110 in the 1992 module).]]

[[The CONCEPT required is:

When you were [14/15/16] your father’s employer was...

Private company or business
Government (national, state, or local government)
Self-employed
(can’t say)]]

[[One acceptable wording is:]]

Did your father work for a private company, or what?
Employee of a private company or business
Federal, state, or local government employee
Self-employed; in partnership; conducting own business
Other (please specify)

[[V317 REQUIRED DEMOGRAPHIC – Father’s education]]

[[Like other demographic and background variables, this question can be put wherever you like in the questionnaire – it need not be with the other ISSP questions.]]

[[COUNTRY SPECIFIC WORDING is allowed so long as it gets this information. Note that the question needs to DISTINGUISH 7 CATEGORIES – NOT LESS! We want to distinguish the usual ISSP education categories, which are similar to those used by the UN.]]

[[Use wording, suitable to your country. Follow UNESCO definitions of primary, secondary and tertiary but use wording that is suitable and clear for your country. The categories required (not the wording you would use) are:

1. None
2. Incomplete primary
3. Primary completed
4. Incomplete secondary (also includes completed qualifications at a level below academic secondary school completion – for example skilled manual qualifications given by trade schools.)
5. Secondary completed
6. Some tertiary education but less than a university Bachelor’s degree (Includes incomplete university. Also includes completed post-secondary courses below university Bachelor’s degree level. Examples are qualifications from US junior college, polytechnical institutes in many countries, and other similar post-secondary education.)
7. University completed (Bachelor’s degree or higher)]]

[[One acceptable wording, suitable for a relatively simple education systems, is:]]

How much education did your father have?

1. None
2. Only a few years of primary school
3. Finished primary school
4. Some schooling beyond that (including trade qualifications)
5. Finished secondary school (12 years)
6. Some education beyond year 12, but no university degree
7. Completed university (Bachelors’, Master’s, or Doctorate degree)
[[V417: REQUIRED DEMOGRAPHIC -- mother’s education]]:
[[Same concepts and wording as for father’s education, V317]]

[[V318: REQUIRED DEMOGRAPHIC – Books]]

[[COUNTRY SPECIFIC WORDING is allowed so long as it gets this information. Like other demographic and
background variables, this question can be put wherever you like in the questionnaire – it need not be with the other
ISSP questions.]]

[[Use the same age here (“14, or “15” or “16”) that you use in your question about “father’s occupation when you
were age X”. If you do not mention any particular age in the father’s occupation question, use age “15” here.]]

[[Information required: You could ask for an exact number but we recommend instead using the following
categories (this is easier for respondent to remember, shows the level of precision required, and will probably get
less missing data than asking for the exact number):
