

Archive Study ID: ZA4884
Flash Eurobarometer 248
October 2008
Towards a safer use of the Internet for children in the EU
– a parents' perspective

ARCHIVE INFORMATION AND ERRATA

- UNIQID: Original case identification is not available. A unique serial id was appointed by the archive.
- REGION: Official NUTS classification in this variable has been specified by the archive in accordance with the corresponding official NUTS classification, former Flash EB waves, and the technical report. Category '20050' for ITALY (n=6) is not documented. Category '26010' for BULGARIA (n=251) is not documented and implausible. The 13 categories for GREECE could not be clearly specified in accordance with NUTS 2, except for Attica (6022). The four NUTS1 categories were reconstructed by the archive based on the corresponding frequency distribution documented in the technical evaluation report and in accordance with former waves. Variable NUTS1 also recodes NUTS1 levels for Belgium and the Netherlands.
