**The Gallup Organisation Hungary upon the request of the European
Commission Directorate General Internal Market and Services**

Data set version 1.0.0 (2010-06-21)

ARCHIVE INFORMATION AND ERRATA

- UNIQID: The serial case id has been appointed by the archive. The original case id includes two duplicate numbers (2200000013, 2300000267).
- REGION: For BULGARIA the NUTS classification for this variable has been completed by the archive in accordance with the corresponding official NUTS classification and other Flash EB surveys. The 13 categories provided for GREECE could not be clearly specified in accordance with NUTS 2. At least two categories were not correctly assigned in the original data set (6010 "ATTIKA" n=19 and 6022 "CRETE" n=345). The four NUTS1 categories for Greece in variable NUTS1_GR were reconstructed by the archive based on the corresponding frequency distribution documented in the technical evaluation report and in accordance with former surveys.
- For technical reasons original VARIABLE NAMES with more than eight digits have been abbreviated by the archive in order to comply with software limitations (e.g. for SPSS portable system files).
- SYSMIS (system missing) data due to question skips (filter) have not been recoded.
