

ZA Study 4191
Flash Eurobarometer 167
„The United Kingdom and the European Union, Winter 2004“

Archive information and errata

- D2 (AGE) has only been delivered as recoded variable (AGE GROUPS).
- D3 (AGE EDUCATION) has only been delivered as recoded variable.
For one case AGE EDUCATION indicates a value which is too high for the indicated AGE.
- Please not plausible multiple answer combinations for D4 (CURRENT OCCUPATION) between D4a21 (Without a professional activity – other”) with all other substantive answer categories. The archive computed the integrated variable OCCUP correcting for this inconsistency.
