We have been commissioned to carry out a study of people's feelings and opinions about a variety of important issues. The study is being conducted in a number of other countries and the objective is to see how people's values and opinions vary across the different countries. The interview will take about an hour to complete and I would be very grateful if you could spare me this much time. All the information that you give will be treated in the strictest confidence and only aggregated results will be published. We very much hope that you will be able to co-operate since we are interviewing only a sample of the population and your views will represent those of many people we will not be able to interview.
