# ISSP Background Variable Documentation

by

Markus Quandt, Evi Scholz and Insa Bechert GESIS

on behalf of the

ISSP Demographics Method Group

(Germany, Mexico, Norway, the Philippines, South Africa, Spain, Sweden, Switzerland, Taiwan, and the Archive)

Users of the international ISSP data file should have all relevant information to understand the construction of the ISSP background variables. Thus, the ISSP has decided to provide a documentation of its background variables and to regularly update this documentation (decisions of the ISSP General Meetings in 2005 and 2006). The information collected with this document will be published with the ISSP data files. Furthermore, it will help to discuss and decide on streamlining the ISSP background variables.

The Demographics Method Group asks you to provide information on all your ISSP background variables. The document at hand serves to collect and structure this information from ISSP members in a template.

The document consists of three sections: Section 1 of this documentation refers to basic elements: source description, information on filters and routing, and construction information. In section 2, as an example, we present the relevant information for the variable UNION (Trade union membership) from Germany. Section 3 finally offers the documentation template for all ISSP background variables valid from the ISSP module 2010 forward.

If you have any questions on the documentation, please do not hesitate to contact us: [isspservice@gesis.org](mailto:isspservice@gesis.org)

## 1. Basic Elements

For each of the variables listed in section 3 below, please give the following information as applicable.

### ❖ Source description

- Please give the **question no./position/name(s)** used in your field questionnaire and report additional information sources, for example, if interviewer observation was used instead of asking questions to respondents. If your ISSP is run with a larger survey and the background variable is taken from this survey, then refer to that (those) source question(s). Please make a **note** from which survey the question(s)/variable(s) come(s) (see below).
- Please give the text of the **original question(s)** exactly as used in your field questionnaire and **in your national language**.
  - Please include all **response categories** of the original field questionnaire.
  - Please give **interviewer instructions** if necessary to understand the generation of response codes.
- Please **translate original questions, response categories and interviewer instructions** into English.

- Please provide **notes** if needed. Notes can address both possible translation issues (**translation note**) and country specific particularities of question background, of variable generation or of the meaning of individual response categories (**note**).
  
- ❖ **Filter Variables and Conditions:** If any variables cover only part of the sample, please list the conditions (questions/variables and categories/codes) used to define the *excluded cases*. In other words, report the conditions which lead to a ‘not applicable’ code in the variable following the filter.
  
- ❖ **Construction/Recoding**
  - Please report how the codes of the ISSP target variable were derived from your source data.
  - Please use a table of correspondence with source and target codes (see the example in section 2 and tables in section 3).
  - If construction of ISSP target codes involves more than simple 1-1 relationships between source and target codes, please use roughly Boolean syntax as shown in the example 2 below. Command syntax of common statistics programs is also welcome. Just put the syntax used into the “Optional: Recoding Syntax” box if you consider that it will increase comprehensibility and transparency.
  - Please always (also for country specific variables) report how the ISSP missing values (not applicable-NAP, no answer-NA, don’t know-DK) were filled.
  
- ❖ **Complementary information (see last page)**
  - Please provide the part(s) of your country questionnaire that relate(s) to the background variables reported in this template. If these variables are already covered by your country’s field questionnaire delivered with your national ISSP data file, then just tick the box on the last page of this document. (PDF or MS Word format preferred.)
  - Please also supply frequency tables with absolute and relative frequencies, missing values *included*, for **all source** variables. *Source variables* are the country-specific variables **before** recodes into ISSP standard variables are done. (MS Word or simple ASCII file preferred.)
  - If your country derives ISCO88 codes from a national occupation coding scheme, please supply a correspondence list of national codes and ISCO88 codes. (MS Word or simple ASCII file preferred.)

## 2. Example

The German example for the variable UNION is constructed from two variables referring to two questions in the German field questionnaire.

### UNION – Trade union membership

	National Language	English Translation
<i>Question no. and text</i>	#1 Darf ich Sie fragen, ob Sie derzeit Mitglied in einer Gewerkschaft sind?	#1 May I ask you whether you are currently a member of a trade union?
<i>Codes/ Categories</i>	1. Ja, bin Mitglied	1. Yes, I am member
	2. Nein, bin kein Mitglied	2. No, I am not member
	9. Keine Angabe*	9. No answer*
	0. Nein, Befragter will Frage nicht beantworten*	0. Respondent refuses to answer*
<i>Question no. and text</i>	#2 Waren Sie früher einmal Mitglied in einer Gewerkschaft?	#2 Were you once a member of a trade union?
<i>Codes/ Categories</i>	1. Ja	1. Yes
	2. Nein	2. No
	8. Weiß nicht	8. Don't know
	9. Keine Angabe*	9. No answer*
<i>Note</i>	Falls Befragter aktuell kein Gewerkschaftsmitglied ist; „nein“ in #1	If respondent not currently union member; no in #1
<i>Interviewer Instructions</i>	—	
<i>Translation Note</i>	—	
<i>Note</i>	Current and former union membership taken from ALLBUS 2010 Answer categories marked by an asterisk are not read aloud.	

### Filter Variable(s) and Conditions:

Former membership (#2) not asked if respondent currently member (#1=1)
--

### Construction/Recoding:

Country Variable Codes/ Construction Rules	→UNION
If (#1=1)	1. Yes, currently
If (#2=1)	2. Yes, previously but not currently
If (#1=2 and #2=2)	3. No, never

If (#1=0)	7. Refused
Else	9. No answer

### 3. Variable List

In the following you will find forms to ease documentation of the points described in section 1 above.

#### Some Hints to Fill in the Forms

- Please fill in the forms on the screen and return the file to <isspservice@gesis.org> – please do *not* return a printout using paper and pencil!
- In general, please feel free to be flexible in using the forms. If necessary adopt them to your reporting needs. In particular:
  - Please insert as many additional fields as needed, e.g. add lines if your country variable has more categories than the template provides.
  - Please skip fields not needed, e.g. skip ‘note’ lines if no note is required.
  - If individual response categories require separate notes, insert as many additional lines as necessary *below* the respective category.
  - If your field questionnaire has more than one language version, please replicate the complete ‘National Language - English Translation/Note’ block as often as needed.
- The question numbers should refer to the numbers of your original field questionnaire.
- For variables with continuous data (AGE, WRKHRS...), please list the lowest and the highest valid codes empirically found in your country’s data and the various non-response codes, e.g. NAP (not applicable), DK (don’t know); if additional non-response codes occur in your data, such as ‘refused’, please add.
- If source variables are relevant for *several* ISSP target variables, please copy the information for the source variables each time to offer a complete documentation of the individual ISSP target variable.

**General Note**

In general, translations for the German background questions are taken from the ALLBUS 2002 translation where wording for most of the background questions was identical to the ALLBUS 2012 (Harkness and Blohm 2004). Where wording was not identical to the ALLBUS 2012 questions, translation was done by the German ISSP team itself (marked by two asterisks).

Answer categories marked by one asterisk are not read aloud.

The German ISSP 2012 data file is based on the final but GESIS inhouse version of ALLBUS 2012. Thus, variable names used in the “Construction/Recoding” part of the following documentation will differ from the variable names in the ALLBUS 2012 data file distributed by GESIS, Cologne.

ISSP 2012 Germany

Please name the **ISSP module** which the documentation refers to (e.g., “*Environment III / ISSP2010*”):

**Family and Gender Roles IV / ISSP 2012**

Please name your **country**:

**Germany**

**SEX - Sex of respondent**

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	—	—
<i>Interviewer Instruction</i>	S001 <i>Geschlecht der befragten Person ohne Befragen eintragen!</i>	S001 <i>Enter sex of respondent without asking.**</i>
<i>Codes/ Categories</i>	1. Männlich	1. Male
	2. Weiblich	2. Female
	9. KA*	9. NA*
<i>Translation Note</i>	—	
<i>Note</i>	Sex taken from ALLBUS 2012 where question was not asked; face-to-face interview; sex coded by interviewer	

**Construction/Recoding:**

<b>Country Variable Codes (in translation)</b> S001	<b>→ SEX</b>
1	1. Male
2	2. Female
—	9. No answer

\*\* Translated by the German ISSP team.

\* Answer categories marked by an asterisk are not read aloud.

**BIRTH – Year of birth**

This question can be asked as an alternative to asking about AGE. If BIRTH is not asked directly, it must be computed by DATEYR ‘year of interview’ minus AGE ‘age of respondent’.

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	S002 Sagen Sie mir bitte, in welchem Monat und welchem Jahr Sie geboren sind?	S002 Please tell me what month and year you were born in.
<i>Codes/ Categories</i>		
<i>Interviewer Instruction</i>	<i>Achtung: Wichtige Angabe für das weitere Interview! Bitte besonders auf korrekte Angabe achten!</i>	<i>Attention: Important information for the further interview. Please take care of correct information.**</i>
<i>Translation Note</i>	—	
<i>Note</i>	Year of birth (s002_2) taken from ALLBUS 2012.

## DE\_DEGR - Country-specific highest completed degree of education

	National Language	English Translation
<i>Interviewer Instruction</i>	<i>Liste S5 vorlegen!</i>	<i>Please display card S5!</i>
<i>Question no. and text</i>	S005 Als nächstes kommen jetzt Fragen zu Ihrer Ausbildung und Ihrem Beruf. Beginnen wir mit Ihrer Ausbildung: Welchen allgemeinbildenden Schulabschluss haben Sie?	S005 Next we come to questions about your education and job. Let's begin with your education: What general school leaving certificate do you have?
<i>Interviewer Instruction</i>	<i>Nur eine Nennung möglich! Nur höchsten Schulabschluss angeben lassen!</i>	<i>Only one choice possible. Please request <u>highest</u> school leaving certificate only.</i>
<i>Codes/ Categories</i>	A Noch Schüler [1]	1. A Still at school
	B Schule beendet ohne Abschluss [2]	2. B Finished school without school leaving certificate
	C Volks- / Hauptschulabschluss bzw. Polytechnische Oberschule mit Abschluss 8. oder 9. Klasse [3]	3. C Lowest formal qualification of Germany's tripartite secondary school system, after 8 or 9 years of schooling
	D Mittlere Reife, Realschulabschluss bzw. Polytechnische Oberschule mit Abschluss 10. Klasse [4]	4. D Intermediary secondary qualification, after 10 years of schooling
	E Fachhochschulreife (Abschluss einer Fachoberschule etc.) [5]	5. E Certificate fulfilling entrance requirements to study at a polytechnical college
	F Abitur bzw. Erweiterte Oberschule mit Abschluss 12. Klasse (Hochschulreife) [6]	6. F Higher qualification, entitling holders to study at a university
	G Anderen Schulabschluss, und zwar... [7]	7. G Other school leaving certificate, please enter...
	KA [9]*	9. NA*
<i>Interviewer Instruction</i>	<i>Liste S6 vorlegen!</i>	<i>Please display card S6!</i>
<i>Question no. and text</i>	S006 Welchen beruflichen Ausbildungsabschluss haben Sie? Was von dieser Liste trifft auf Sie zu? Nennen Sie mir bitte die entsprechenden Kennbuchstaben.	S006 What vocational or professional training do you have? Which of the categories on the card apply to you? Please name the appropriate letter(s).
<i>Interviewer Instruction</i>	<i>Mehrfachnennungen möglich außer wenn M genannt !</i>	<i>Multiple responses possible unless "M" selected.</i>
<i>Codes/ Categories</i>	A Beruflich-betriebliche Anlernzeit mit Abschlusszeugnis, aber keine Lehre	A On-the-job vocational training with final certificate, but not within traineeship or apprenticeship scheme

---

\* Answer categories marked by an asterisk are not read aloud.

	B Teilfacharbeiterabschluss	B Compact vocational training course
	C Abgeschlossene gewerbliche oder landwirtschaftliche Lehre	C Completed trades/crafts or agricultural traineeship
	D Abgeschlossene kaufmännische Lehre	D Completed commercial traineeship
	E Berufliches Praktikum, Volontariat	E Work placement/internship
	F Berufsfachschulabschluss	F Technical or vocational college certificate
	G Fachschulabschluss	G Specialized vocational college certificate
	H Meister-, Techniker- oder gleichwertiger Fachschulabschluss	H Master (craftsmen), technician or equivalent college certificate
	J Fachhochschulabschluss (auch Abschluss einer Ingenieurschule) [resulting in variable s002_9]	J Polytechnic degree (or engineering college degree)
	K Hochschulabschluss [resulting in variable s002_10]	K University degree
	L Anderen beruflichen Ausbildungsabschluss, und zwar...	L Other vocational training certificate, please enter...
	M Keinen beruflichen Ausbildungsabschluss	M No completed vocational training
	KA [99]*	99. NA*
<i>Interviewer Instruction</i>	<i>Liste S7 vorlegen!</i>	<i>Please display card S7!</i>
<i>Question no. and text</i>	S007a Um welche Art von Fachhochschulabschluss handelt es sich dabei? Bitte nennen Sie mir nur den höchsten Abschluss, den Sie erlangt haben.	S007a What is the highest polytechnical degree you have graduated with?***
<i>Codes/ Categories</i>	Bachelor	Bachelor
	Master	Master
	Diplom	Diploma
	Magister	Magister
	Staatsexamen oder Lehramtsprüfung	State examination or teaching qualification
	Promotion	Doctorate
	Sonstiger Abschluss	Other degree
<i>Interviewer Instruction</i>	<i>Liste S7 vorlegen!</i>	<i>Please display card S7!</i>

\* Answer categories marked by an asterisk are not read aloud.

<i>Question no. and text</i>	S007b Um welche Art von Hochschulabschluss handelt es sich dabei? Bitte nennen Sie mir nur den höchsten Abschluss, den Sie erlangt haben.	S007b What is the highest university degree you have graduated with?***
<i>Codes/ Categories</i>	Bachelor	Bachelor
	Master	Master
	Diplom	Diploma
	Magister	Magister
	Staatsexamen oder Lehramtsprüfung	State examination or teaching qualification
	Promotion	Doctorate
	Sonstiger Abschluss	Other degree
<i>Translation Note</i>	—	
<i>Note</i>	<p>Question on vocational training only asked if respondent not still at school; “general school leaving certificate”, “vocational training” and “kind of polytechnical/ university degree” taken from ALLBUS 2012.</p> <p>Please note that the German ALLBUS data allow for multiple answers. Respondents with multiple educational degrees are coded according to their “highest” educational entry in the German ISSP degree variable.</p> <p>For example, respondents with “Abitur” and additional vocational training in the dual system (but no further academic education) are coded 8 "Vocational training, degree from German dual system". Thus, the code 7 "Higher secondary (Abitur)" is only given to respondents who did not receive neither any academic nor vocational training.</p>

**Filter Variable(s) and Conditions:**

WORK serves as filter question for NEMPLOY, WRKSUP, NSUP, TYPORG1 TYPORG2 and MAINSTAT:

“I am currently working” (#1) goes to NEMPLOY (and then to WRKSUP, NSUP, TYPORG1 TYPORG2 and MAINSTAT);

“I had paid work in the past” (#2) goes to NEMPLOY (and then to WRKSUP, NSUP, TYPORG1 and TYPORG2);

“I have never had paid work” (#3) skips the questions on respondent’s working situation (NEMPLOY, WRKSUP, NSUP, TYPORG1, and TYPORG2) and goes to MAINSTAT.

**Construction/Recoding:**

<b>Country Variable Codes/Construction Rules</b> <b>J036</b>	<b>→WORK</b>
1	1. Currently in paid work
2	2. Currently not in paid work, paid work in the past
3	3. Never had a paid work
9	9. No answer

**Optional: Recoding Syntax**

### ISCO88 - Occupation ISCO 1988

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO88-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO88 codes *attached as a separate file*. Please report which kind of ISCO code you apply. The most common ones are the code developed by the International Labour Organisation (ILO) and the variant developed for the European Union (EU), ISCO-COM. If you apply another variant such as ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, then please specify.

Please do **not** enter **standard** ISCO88 codes here. But please report if your country **adds** or **changes** codes compared to ISCO88, if any.

Occupations should be coded on the 4-digit level of ISCO88. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, the 4-digit code 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit code in the data file is 110 (Armed Forces).

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

### SPISCO88 – Spouse, partner: occupation ISCO 1988

Please give the text of the source question(s) on the spouse's occupation used in your field questionnaire. If ISCO88-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO88 codes *attached as a separate file*. Please report which kind of ISCO code you apply. The most common ones are the code developed by the International Labour Organisation (ILO) and the variant developed for the European Union (EU), ISCO-COM. If you apply another variant such as ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, then please specify.

Please do **not** enter **standard** ISCO88 codes here. But please report if your country **adds** or **changes** codes compared to ISCO88, if any.

Occupations should be coded on the 4-digit level of ISCO88. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, the 4-digit code 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit code in the data file is 110 (Armed Forces).

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

All German interviews	1. No weighting

**MODE – Administrative mode of data-collection**

<i>Note</i>	Self-completion, interviewer attending, CASI (answers not forced; filter routing program-controlled). [CASI used in German ISSP since 2005]
-------------	--

**Construction/Recoding:**

<b>Country Variable Codes/Construction Rules</b>	<b>→ Mode</b>
—	10. F2f/PAPI, no visuals
—	11. F2f/PAPI, visuals
—	12. F2f/PAPI, respondent reading questionnaire
—	13. F2f/PAPI, interpreter or translator – no visuals
—	14. F2f/PAPI, interpreter or translator – visuals
<b>Applies for German ISSP 2012 interviews where respondent explicitly asks ALLBUS interviewer to continue face-to-face interview instead of self-completion (issp_c=2)</b>	20. CAPI, no visuals
—	21. CAPI, visuals
—	22. CAPI, respondent reading questionnaire (paper or on monitor)
—	23. CAPI, interpreter or translator – no visuals
—	24. CAPI, interpreter or translator – visuals
—	30. SC, arrives with interviewer, interviewer attending
—	31. SC, arrives with interviewer, drops-off, picks up later
—	32. SC, arrives with interviewer, drops off, mailed back by R
—	33. SC, mailed to, completed by R and hold for pick up
—	34. SC, mailed to, mailed back by R
<b>Applies for German ISSP 2012 interviews: CASI interview with interviewer attending (issp_c=1)</b>	40. CASI, self-completion, computer-assisted

#### **4. Country Questionnaire**

Please provide the part(s) of your country questionnaire that relate(s) to the background variables reported in this template. If these variables are already covered by your country's field questionnaire delivered with your national ISSP data file, then just tick on the last page of this document. (PDF or MS Word format preferred.)

Already included in field questionnaire provided with the country data file.

**Attached file: issp2012\_german\_final.doc. BV partly included in the German ISSP 2012 field quex, partly taken from ALLBUS 2012.**

#### **5. Frequency Distributions of Source Variables**

Please supply frequency distributions with absolute and relative frequencies, missing values *included*, for **all** *source* variables. *Source variables* are the country-specific variables **before** recodes into ISSP standard variables are done. (MS Word or simple ASCII file preferred.)

**Attached file: issp2012\_bv\_freq.spv**

#### **6. Correspondence list ISCO88<->national occupation codes**

If your country derives ISCO88 codes from a national occupation coding scheme, please supply a correspondence list of national codes and ISCO88 codes. (MS Word or simple ASCII file preferred.)

ISCO88 is used to code responses directly.

Conversion of national coding scheme to ISCO88. Attached file: *ZZZZZZ.ZZZ*.
