ES_DEGR - Country-specific highest completed degree of education

	National Language	English Translation
<i>Question no. and text</i>	P35a ¿Cuáles son los estudios de <u>más alto nivel</u> oficial que Ud. ha cursado (con independencia de que los haya terminado o no)? Por favor, especifique lo más posible, diciéndome el <u>curso</u> en que estaba cuando los terminó (o los interrumpió), y también el nombre que tenían, entonces, esos estudios: (ej., 3 años de Estudios Primarios, Primaria, 5º de Bachillerato, Maestría Industrial, Preuniversitario, 4º de EGB, Licenciatura, Doctorado, FP1, etc.)	Q35a Which are the <u>highest level</u> official studies that you have done (whether you have finished them or not)? Please specify as much as possible, telling me the level (year) you were in, when you finished (or interrupted them), and also the name those studies had then (if different): (example: 3 years of Primary, Primary, first year of Junior High, Vocational Training, last year of High School, 4th year of former Primary Education, College degree, PhD, first level of Vocational Training, etc)
<i>Codes/ Categories</i>	(ENTREVISTADOR: Si aún está estudiando, anotar el último curso que haya <u>completado</u>. Si <u>no</u> ha completado la Primaria, anotar <u>nº de años que asistió a la escuela</u>.)	(INTERVIEWER: If still studying, write down the last school year that he/she has <u>finished</u>. If he/she has <u>not finished</u> Primary, write down the <u>n. of years that he/she went to school</u>.)
<i>Note</i>	The interviewer must write down the last year <u>completed</u> in school by respondent and the name of those studies. Then, he/she will write the appropriate code according to the Studies-Degree-Card. This code and the information given by respondent is revised later on by expert coders. The amount of examples given for the name of Spanish studies may seem too many, but, in Spain, it is necessary, due to the constant change in study plans in the last 25 years.

ISCO88 - Occupation ISCO 1988

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO88-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO88 codes *attached as a separate file*. Please report which kind of ISCO code you apply. The most common ones are the code developed by the International Labour Organisation (ILO) and the variant developed for the European Union (EU), ISCO-COM. If you apply another variant such as ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, then please specify.

Please do **not** enter **standard** ISCO88 codes here. But please report if your country **adds** or **changes** codes compared to ISCO88, if any.

Occupations should be coded on the 4-digit level of ISCO88. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, the 4-digit code 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit code in the data file is 110 (Armed Forces).

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

Nos referimos a su <u>ocupación principal</u> : aquélla por la que Ud. (o la persona que aporta más ingresos al hogar) obtiene/nía mayores ingresos.	Q. 41 And which was your last occupation or trade? That is, in what does/did your work consist of, <u>specifically</u> ? (Please be as precise as possible, describing the tasks you do/did. EXAMPLE: clinic assistant, security agent, aesthetician, ranger, occupational therapist, dressmaker, etc.). If you apply another variant such as ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, then please specify.

Please do **not** enter **standard** ISCO88 codes here. But please report if your country **adds** or **changes** codes compared to ISCO88, if any.

Occupations should be coded on the 4-digit level of ISCO88. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, the 4-digit code 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit code in the data file is 110 (Armed Forces).

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

Note on Specifications and Recoding of Some Differences Between the Spanish Questionnaire and ISSP Instructions in Some Opinion Variables in the Data File

1) The Spanish questionnaire does not include the middle category (Neither agree nor disagree) in the following variables:

**V5; V6; V7; V8; V9; V10; V11; V14; V15; V16; V17; V18; V19;
V20; V22; V23; V24; V25; V26; V27**

Spain specific codes (Q1; Q2; Q4; Q5; Q7):

1'Muy de acuerdo' (Strongly agree)
2'De acuerdo' (Agree)
3'En desacuerdo' (Disagree)
4'Muy en desacuerdo' (Strongly disagree)
8'N.S.' (DK)
9'N.C.' (NA)

ISSP defined codes:

1 "Strongly agree"
2 "Agree"
3 "Neither agree nor disagree"
4 "Disagree"
5 "Strongly disagree"
8 "Can't choose"
9 "No answer"

The values of the original Spanish variables have been recoded:

RECODE Vxx (3=4) (4=5).

Recorded variable in dataset:

- 1' Strongly agree '
- 2' Agree '
- 4' Disagree '
- 5' Strongly disagree '
- 8' Can't choose '
- 9' No answer '

2) V28 "Q8 Paid leave: Yes, how long - no".

In the Spanish questionnaire, the above question consists of two variables:

Spain specific codes:**P8**

- 1'Sí' (Pasar a P8a)
- 2'No, no debería existir una baja remunerada' (leave)
- 8'N.S.'
- 9'N.C.'

P8A

- Nº de meses
- 98'N.S.'
- 99'N.C.'

Q8

- (Yes (GO to Q8a))
- (No, there shouldn't be paid leave)
- (DK)
- (NA)

Q8A

- (N. of months)
- (DK)
- (NA)

ISSP defined codes:

- 01 "Yes, 1 month"
- 02 "Yes, 2 months"
- 03 "Yes, 3 months"
- 60 "Yes, 60 months"
- 96 "No, there should be no paid leave"
- 98 "Don't know"
- 99 "No answer"

In order not to lose the cases (quite a lot) who answer "Yes" in Q8, but who do not specify how long the period should be, the variable is recoded with an added category. Besides, the highest values are recoded in order not to interfere with value 96 that has its own category:

IF (P8=1) V28=P8A.

IF (P8=8) V28=98.

IF (P8=9) V28=99.

IF (P8=1 AND (P8A=95 OR P8A=96) V28=94.

IF (P8=1 AND (P8A=98 OR P8A=99)) V28=95.

IF (P8=2) V28=96.

Recorded variable in dataset:

01 "Yes, 1 month"

02 "Yes, 2 months"

03 "Yes, 3 months"

60 "Yes, 60 months"

94 "Yes, 94 and more monthts'

95 "Yes, don't give specific paid leave "

96 "No, there should be no paid leave"

98 "Don't know"

99 "No answer"

3) The following variables in the Spanish questionnaire don't include category 6 (Father at home, mother full-time):

V31 "Q11a Child under school age: Best parental childcare option".

V32 "Q11b Child under school age: Least desirable parental childcare".

Spain specific codes (P9 y P10):

1'Que la madre se quede en casa y el padre trabaje'

2'La madre, a tiempo parcial y el padre, a jornada completa'

3'Que ambos, la madre y le padre, trabajen la jornada completa'

4'Que ambos, la madre y el padre, trabaje a tiempo parcial'

5'El padre, a tiempo parcial, y la madre a jornada completa'

8'N.S.'

9'N.C.'

ISSP defined codes:

- 1 "Mother at home, father full-time"
- 2 "Mother part-time, father full-time"
- 3 "Mother and father full-time"
- 4 "Mother and father part-time"
- 5 "Father part-time, mother full-time"
- 6 "Father at home, mother full-time"**
- 8 "Can't choose"
- 9 "No answer"

Recorded variable in dataset:

- 1 "Mother at home, father full-time"
- 2 "Mother part-time, father full-time"
- 3 "Mother and father full-time"
- 4 "Mother and father part-time"
- 5 "Father part-time, mother full-time"
- 8 "Can't choose"
- 9 "No answer"

4) V39; V40; V41; V42; V43; V44; V45; V46; V47; V48; V49; V50

The above variables correspond to questions 19 – 25 in the Spanish questionnaire. There is an important difference here between the filter applied in the Spanish questionnaire and that of ISSP, and it is impossible to adapt it to ISSP instructions:

In the Spanish case, the people who answer those questions are only those who "have a partner and live with him/her" (code "1" in Q17 =PARTLIV). While the ISSP instructions say that all respondents who have a partner should answer, regardless of whether they live together or not (codes 1 and 2 in PARTLIV).

Spain specific codes (Q19 - Q25):

0'No applicable: No partner, or, if he/she has a partner, they do not live together"

ISSP defined codes:

0 "Not applicable, no partner (Code 3 in PARTLIV)"

Recorded variable in dataset:

0'Not applicable: No partner or, if he/she has a partner, they do not live together" (Code 2 or 3 in PARTLIV)".

5) V51; V52; V53; V54

There is a difference between the Spanish questionnaire and the English questionnaire in the criteria for "Non applicable" in the above variables:

Spain specific codes (P26):

1'Varias veces a la semana' (Several times a week)

2'Varias veces al mes' (Several times a month)

3'Una o dos veces' (Once or twice)

4'Nunca' (Never)

7'No procede (no trabaja/no tiene responsabilidades familiares)*

9'N.C.'

*Translation: (Not applicable: doesn't work/doesn't have family responsibilities)

ISSP defined codes:

0 "Doesn't apply, no job"

1 "Several times a week"

2 "Several times a month"

3 "Once or twice"

4 "Never"

8 "Don't know"

9 "No answer"

RECODE V51 TO V54 (7=0).

Recorded variable in dataset:

0' Not applicable: (doesn't work/doesn't have family responsibilities)'

- 1 'Several times a week'
- 2 'Several times a month'
- 3 'Once or twice'
- 4 'Never'
- 9 'No answer'

6) V57 "Q26 How satisfied with family life".

In the Spanish questionnaire the above variable includes a category that is lacking in ISSP: (code 97 in Q29: Non applicable (doesn't have a family)).

Spain specific codes (P29):

- 1 'Completamente satisfecho'
- 2 'Muy satisfecho/a'
- 3 'Bastante satisfecho/a'
- 4 'Ni satisfecho/a ni insatisfecho/a'
- 5 'Bastante insatisfecho/a'
- 6 'Muy insatisfecho/a'
- 7 'Completamente insatisfecho/a'
- 97 'No procede (no tiene familia)'
- 98 'N.S.'
- 99 'N.C.'

ISSP defined codes:

- 1 "Completely satisfied"
- 2 "Very satisfied"
- 3 "Fairly satisfied"
- 4 "Neither satisfied nor dissatisfied"
- 5 "Fairly dissatisfied"

- 6 "Very dissatisfied"
- 7 "Completely dissatisfied"
- 8 "Can't choose"
- 9 "No answer"

RECODE V57 (97=0) (98=8) (99=9).

Recorded variable in dataset:

0 'Not applicable (no family)'

- 1 "Completely satisfied"
- 2 "Very satisfied"
- 3 "Fairly satisfied"
- 4 "Neither satisfied nor dissatisfied"
- 5 "Fairly dissatisfied"
- 6 "Very dissatisfied"
- 7 "Completely dissatisfied"
- 8 "Can't choose"
- 9 "No answer"

7) V59 "Q28 Mother ever worked for pay before R 14".

In the Spanish questionnaire the above variable doesn't include category 6 in ISSP defined codes (Non applicable, Mother non present).

Spain specific codes (Q31):

- 1 'Sí'
- 2 'No'
- 8 'N.C.'
- 9 'N.S.'

ISSP defined codes:

- 1 "Yes, she worked for pay"
- 2 "No"
- 6 "Mother not present"**
- 8 "Don't know"
- 9 "No answer"

Recorded variable in dataset:

- 1 'Yes'
- 2 'No'
- 8 'D.K.'
- 9 'N.A.'

8) V67 "Q34 Duration of relationship".

The Spanish question and the filter applied is different from ISSP requirements: the Spanish question refers only to the years that the respondent and his/her partner are living together (code 1 in Q17 =PARTLIV). ISSP instructions, on the contrary, indicate that the question should be answered by all those who have a partner, regardless of whether they live together or not (1 or 2 in PARTLIV).

Spain specific codes (P18):

- 1 "Un año"
- 2 "Dos años"
- 3 "..."
- 90 'Menos de un año'
- 99 'N.C.'

ISSP defined codes:

- 0 "Less than one year"
- 1 "One year"
- 2 "Two years"
- 3 "..."
- 97 "No answer, refused"
- 98 "Don't know"
- 99 "Not applicable, no partner (code 3 in PARTLIV)"**

IF (P17=1) V67=P18.

IF (P17=2 OR P17=3) V67=0.

IF (P17=9) V67=97.

RECODE V67 (99=97) (0=99) (90=0).

Recorded variable in dataset:

- 0 "Less than one year"
- 1 "One year"
- 2 "Two years"

3 "..."

97 "No answer, refused"

98 "Don't know"

99 "Not applicable, no partner or they don't live together (2 or 3 in PARTLIV)"
