A STUDY OF ATTITUDES AND RELATIONSHIPS IN THE DETROIT AREA

1. Now I would like to ask your views on a few public issues. First of all, consider the question of whether people from other countries should be allowed to enter the United States and work here and become citizens. What is your feeling on this? (PROBE ONCE)

________________________________________________________________________

2. Here are four different views on the number of people we should let into the United States at the present time. (HAND CARD A) Which of these comes closest to your own opinion? (READ ALTERNATIVES)

____(1) We should allow anyone in who wants to come, as long as they are healthy and honest.

____(2) We should set a definite limit, but high enough so that large numbers can come.

____(3) We should set a definite limit, low enough so that only a small number can come.

____(4) We should close off all immigration, with only a few special exceptions.

3. On another question, which of these four statements do you come closest to agreeing with? (HAND CARD B AND READ ALTERNATIVES)

____1. Labor unions in this country are doing a fine job.

____4. This country would be better off without any labor unions at all.
