ISSP 2013 – National Identity III
Study Description
ISSP Study Description Form

Study title: ISSP 2013 – National Identity

Fieldwork dates: 3110-2013-0601-2014

Principal investigators: Aalborg University
Department of Political Science.
Fibigerstraede 1, 9220 DK-Aalborg Oe:

- Associate prof. Sanne Lund Clement (Director of the Danish ISSP programme)
- Associate prof. Johannes Andersen
- Associate prof. Ditte Shamshiri-Petersen
- Prof. Jørgen Goul Andersen
- Research assistant Morten Højmose Andersen
- Student Charlotte Caroline Lund
- Student Emil Bak Haugaard
- Student Tobias Kammersgaard

Other associated Participants:
Aalborg University
Department of Political Science:
- Associate prof. Henrik Lolle
- Prof. Christian Albrekt Larsen

University of Aarhus
Department of Political Science
DK-8000 Aarhus C:

- Assistant prof. Kim Mannemar Sønderskov
- Associate prof. Gitte Sommer Harrits

Department of Education
DK-8000 Aarhus C:

- Prof. Mads Meier Jæger

University of Copenhagen
Department of Sociology
Linnésgade 22
DK-1361 Copenhagen K.

- Prof. Peter Gundelach

University of Southern Denmark
Department of Political Science
Campusvej 55
DK-5230 Odense M.
Sample type: Sampling-procedure: A representative sample (simple random sample) was drawn from the Central Population Register (CPR) – which is a national register of all Danish citizens – from which respondent’s name and address were identified. Thus, the sampled unit was ’named individuals’. No stratification, clustering etc. was employed.

Fieldwork institute: Rambøll Denmark A/S
Hannemans Allé 53
DK-2300 København S
T +45 5161 1000 - F +45 5161 1001
E ramboll@ramboll.dk
W www.ramboll.dk

Fieldwork methods: Web based (self-completion). If non-response then telephone interviews were used.

For the 18 to 65 years old an introduction letter was posted including a link to a web-enquete and a personal code to activate the survey. A self-completion paper-based questionnaire can be sent if requested.

N. of respondents: 1473

Details about issued sample:

</table>

* When new sample units are added during the field period via a new dwelling units list or other standard updating procedure, these additional issued units are added to the starting number of units to make up the total gross sample size. Also, when substitution is used, the total must include the originally drawn cases plus all
substitute cases. See AAPOR/WAPOR Standard Definitions, pp. 9-10 for further clarification.

Language(s): Danish

Weight present: No

Weighting procedure: None

Known systematic properties of sample: None

Deviations from ISSP questionnaire: The ISSP module was the main part of a larger survey. MODE has been added two options - 50. CAWI, Computer assisted web interview and 60. CATI, Computer assisted telephone interview.
