ISSP 2013 Switzerland

ISSP Background Variable Documentation

by

Markus Quandt, Evi Scholz and Insa Bechert GESIS

on behalf of the

ISSP Demographics Method Group

(Germany, Mexico, Norway, the Philippines, South Africa, Spain, Sweden, Switzerland, Taiwan, and the Archive)

Users of the international ISSP data file should have all relevant information to understand the construction of the ISSP background variables. Thus, the ISSP has decided to provide a documentation of its background variables and to regularly update this documentation (decisions of the ISSP General Meetings in 2005 and 2006). The information collected with this document will be published with the ISSP data files. Furthermore, it will help to discuss and decide on streamlining the ISSP background variables.

The Demographics Method Group asks you to provide information on all your ISSP background variables. The document at hand serves to collect and structure this information from ISSP members in a template.

Please note that, due to changes in the ISSP Background Variables, there are different versions of documentation templates to use, related to the respective ISSP study under consideration. The template at hand serves to document your national **ISSP** survey.

The document consists of three sections: Section 1 of this documentation refers to basic elements: source description, information on filters and routing, and construction information. In section 2, as an example, we present the relevant information for the variable UNION (Trade union membership) from Germany. Section 3 finally offers the documentation template for all ISSP background variables valid from the ISSP module 2013 onwards.

If you have any questions on the documentation, please do not hesitate to contact us:

isspservice@gesis.org

1. Basic Elements

For each of the variables listed in section 3 below, please give the following information as applicable.

❖ Source description

- Please give the **question no./position/name(s)** used in your field questionnaire and report additional information sources, for example, if interviewer observation was used instead of asking questions to respondents. If your ISSP is run with a larger survey and the background variable is taken from this survey, then refer to that (those) source question(s). Please make a **note** from which survey the question(s)/variable(s) come(s) (see below).
- Please give the text of the **original question(s)** exactly as used in your field questionnaire and **in your national language**.
 - Please include all **response categories** of the original field questionnaire.

- Please give **interviewer instructions** if necessary to understand the generation of response codes.
- Please **translate original questions, response categories and interviewer instructions** into English.
- Please provide **notes** if needed. Notes can address both possible translation issues (**translation note**) and country specific particularities of question background, of variable generation or of the meaning of individual response categories (**note**).
- ❖ **Filter Variables and Conditions:** If any variables cover only part of the sample, please list the conditions (questions/variables and categories/codes) used to define the *excluded cases*. In other words, report the conditions which lead to a ‘not applicable’ code in the variable following the filter.
- ❖ **Construction/Recoding**
 - Please report how the codes of the ISSP target variable were derived from your source data.
 - Please use a table of correspondence with source and target codes (see the example in section 2 and tables in section 3).
 - If construction of ISSP target codes involves more than simple 1-1 relationships between source and target codes, please use roughly Boolean syntax as shown in the example 2 below. Command syntax of common statistics programs is also welcome. Just put the syntax used into the “Optional: Recoding Syntax” box if you consider that it will increase comprehensibility and transparency.
 - Please always (also for country specific variables) report how the ISSP missing values (not applicable-NAP, no answer-NA, don’t know-DK) were filled.
- ❖ **Complementary information (see last page)**
 - Please provide the part(s) of your country questionnaire that relate(s) to the background variables reported in this template. If these variables are already covered by your country’s field questionnaire delivered with your national ISSP data file, then just tick the box on the last page of this document. (PDF or MS Word format preferred.)
 - Please also supply frequency tables with absolute and relative frequencies, missing values *included*, for **all source** variables. *Source variables* are the country-specific variables **before** recodes into ISSP standard variables are done. (MS Word or simple ASCII file preferred.)
 - If your country derives ISCO88 codes from a national occupation coding scheme, please supply a correspondence list of national codes and ISCO88 codes. (MS Word or simple ASCII file preferred.)

2. Example

The German example for the variable UNION is constructed from two variables referring to two questions in the German field questionnaire.

UNION – Trade union membership

	National Language	English Translation
<i>Question no. and text</i>	#1 Darf ich Sie fragen, ob Sie derzeit Mitglied in einer Gewerkschaft sind?	#1 May I ask you whether you are currently a member of a trade union?
<i>Codes/ Categories</i>	1. Ja, bin Mitglied	1. Yes, I am member
	2. Nein, bin kein Mitglied	2. No, I am not member
	9. Keine Angabe*	9. No answer*
	0. Nein, Befragter will Frage nicht beantworten*	0. Respondent refuses to answer*
<i>Question no. and text</i>	#2 Waren Sie früher einmal Mitglied in einer Gewerkschaft?	#2 Were you once a member of a trade union?
<i>Codes/ Categories</i>	1. Ja	1. Yes
	2. Nein	2. No
	8. Weiß nicht	8. Don't know
	9. Keine Angabe*	9. No answer*
<i>Note</i>	Falls Befragter aktuell kein Gewerkschaftsmitglied ist; „nein“ in #1	If respondent not currently union member; no in #1
<i>Interviewer Instructions</i>	—	
<i>Translation Note</i>	—	
<i>Note</i>	Current and former union membership taken from ALLBUS 2010 Answer categories marked by an asterisk are not read aloud.	

Filter Variable(s) and Conditions:

Former membership (#2) not asked if respondent currently member (#1=1)

Construction/Recoding:

Country Variable Codes/ Construction Rules	➔UNION
If (#1=1)	1. Yes, currently
If (#2=1)	2. Yes, previously but not currently
If (#1=2 and #2=2)	3. No, never
If (#1=0)	7. Refused

Else	9. No answer
------	--------------

3. Variable List

In the following you will find forms to ease documentation of the points described in section 1 above.

Some Hints to Fill in the Forms

- Please fill in the forms on the screen and return the file to <isspservice@gesis.org> – please do *not* return a printout using paper and pencil!
- In general, please feel free to be flexible in using the forms. If necessary adopt them to your reporting needs. In particular:
 - Please insert as many additional fields as needed, e.g. add lines if your country variable has more categories than the template provides.
 - Please skip fields not needed, e.g. skip ‘note’ lines if no note is required.
 - If individual response categories require separate notes, insert as many additional lines as necessary *below* the respective category.
 - If your field questionnaire has more than one language version, please replicate the complete ‘National Language - English Translation/Note’ block as often as needed.
- The question numbers should refer to the numbers of your original field questionnaire.
- For variables with continuous data (AGE, WRKHRS...), please list the lowest and the highest valid codes empirically found in your country’s data and the various non-response codes, e.g. NAP (not applicable), DK (don’t know); if additional non-response codes occur in your data, such as ‘refused’, please add.
- If source variables are relevant for *several* ISSP target variables, please copy the information for the source variables each time to offer a complete documentation of the individual ISSP target variable.

Please name the **ISSP module** which the documentation refers to (e.g., “*Health and Health Care / ISSP2011*”):

NATIONAL IDENTITY III / ISSP 2013

Please name your country:

Switzerland

The three national languages are presented subsequently for each variable in the following order: FRENCH – GERMAN - ITALIAN.

SEX - Sex of respondent

	National Language	English Translation
Question no. and text	D16 Sexe	Sex
Codes/ Categories	1. Homme	1. Man
	2 Femme	2 Woman
	-2. Pas de réponse	-2. No answer
Note	<INFORMATION COMING FROM HOUSEHOLD COMPOSITION : F2 for respondent>	
Question no. and text	D16 Geschlecht	Sex
Codes/ Categories	1. Mann	1. Man
	2 Frau	2 Woman
	-2. Keine Antwort	-2. No answer
Note	<INFORMATION COMING FROM HOUSEHOLD COMPOSITION : F2 for respondent>	
Question no. and text	D16 Sesso	Sex
Codes/ Categories	1. Uomo	1. Man
	2. Donna	2. Woman
	-2. Nessuna risposta	-2. No answer
Note	<INFORMATION COMING FROM HOUSEHOLD COMPOSITION : F2 for respondent>	

Construction/Recoding:

Country Variable Codes (in translation)	→ SEX
D16 = 1	1. Male
D16 = 2	2. Female
D16 = -2	9. No answer

Optional: Recoding Syntax

```
compute SEX=D16 .
if (D16=-2) sex=9.
exe.
```

BIRTH – Year of birth

This question can be asked as an alternative to asking about AGE. If BIRTH is not asked directly, it must be computed by DATEYR 'year of interview' minus AGE 'age of respondent'.

	National Language	English Translation
Question no. and text	D17 Année de naissance	Year of birth
Codes/ Categories	I4 NUMERIC	
Note	<INFORMATION COMING FROM HOUSEHOLD COMPOSITION : F3 for respondent>	
Question no. and text	D17 Geburtsjahr	Year of birth
Codes/ Categories	I4 NUMERIC	
Note	<INFORMATION COMING FROM HOUSEHOLD COMPOSITION : F3 for respondent>	
Question no. and text	D17 Anno di nascita	Year of birth
Codes/ Categories	I4 NUMERIC	
Note	<INFORMATION COMING FROM HOUSEHOLD COMPOSITION : F3 for respondent>	

Construction/Recoding: (list lowest, highest, and 'missing' codes only, replace terms in [square brackets] with real numbers)

	Country Variable Codes/Construction Rules	→BIRTH
Construction	= BIRTH	
Codes		MIN: 1910
		MAX: 1996
	-2	9999. No answer

Optional: Recoding Syntax

```
compute BIRTH=D17 .
if (D17=-2) BIRTH=9999 .
fre BIRTH .
```

AGE - Age of respondent

This question can be asked as an alternative to asking about BIRTH. If AGE is not asked directly, it must be computed by DATEYR 'year of interview' minus BIRTH 'year of birth'.

	National Language	English Translation
Question no. and text	Not asked, derived from BIRTH	
Codes/ Categories		
Interviewer Instruction		
Translation Note		
Note		

Construction/Recoding: (list lowest, highest, and 'missing' codes only, replace terms in [square brackets] with real numbers)

	Country Variable Codes/Construction Rules	→ AGE
Construction	2013 - BIRTH	
Codes		MIN: 18
		MAX: 98
	9999	999. No answer

Optional: Recoding Syntax

```
Compute AGE=999 .
DO IF (BIRTH NE 9999) .
  compute AGE=(2013-BIRTH).
end if.
```

EDUCYRS - Education I: years of schooling

	National Language	English Translation
<i>Question no. and text</i>	D14b 'Combien d'années d'études à plein temps avez-vous accomplies depuis la première année primaire? Veuillez ne pas compter les éventuelles années d'apprentissage ni les années répétées.	For how many years were you in fulltime education? Don't count the time you possibly spent doing an apprenticeship or repeating years.
<i>Codes/ Categories</i>	i4 NUMERIC	i4 NUMERIC
	-1. Ne sait pas	-1. Don't know
<i>Interviewer Instruction</i>	Introduire le nombre d'années. Arrondir au nombre d'années supérieur ou inférieur le plus proche. Un apprentissage ne compte pas ici.	Indicate the number of years. Round up or down to the nearest year. Don't include here the years of apprenticeship.
<i>Translation Note</i>	As a majority of the Swiss population does an apprenticeship, it is important to avoid its inclusion here. It is asked separately in the following question.	
<i>Note</i>		
<i>Question no. and text</i>	D14b Wie viele Jahre Ausbildung haben Sie seit der ersten Primarschulklasse absolviert? Zählen Sie bitte alle Vollzeit Aus- und Weiterbildungen dazu, nicht aber eine eventuelle Lehrzeit und immer ohne wiederholte Jahre.	For how many years were you in fulltime education? Don't count the time you possibly spent doing an apprenticeship or repeating years
<i>Codes/ Categories</i>	i4 NUMERIC	i4 NUMERIC
	-1. Ne sait pas	-1. Don't know
<i>Interviewer Instruction</i>	Anzahl Jahre eingeben. Auf die nächste Zahl Auf- oder Abrunden. Total= 9 Jahre. Eine Lehre zählt nicht dazu.	Indicate the number of years. Round up or down to the nearest year. Don't include the years of apprenticeship.
<i>Translation Note</i>	As a majority of the Swiss population does an apprenticeship, it is important to avoid its inclusion here. It is asked separately in the following question.	
<i>Note</i>		
<i>Question no. and text</i>	D14b Quanti anni di studio a tempo pieno ha completato dalla prima elementare in poi? Non conti né gli anni di apprendistato né gli anni ripetuti.	For how many years were you in fulltime education? Don't count the time you possibly spent doing an apprenticeship or repeating years
<i>Codes/ Categories</i>	i4 NUMERIC	i4 NUMERIC
	-1. Ne sait pas	-1. Don't know
<i>Interviewer Instruction</i>	Annotare numeri d'anni. Arrotondare la risposta in più o in meno all'anno	Indicate the number of years. Round up or down to the nearest year.

	intero più prossimo. Non prendere in conto un'apprendistato.	Don't include here the years of apprenticeship.
<i>Translation Note</i>	As a majority of the Swiss population does an apprenticeship, it is important to avoid its inclusion here. It is asked separately in the following question.	
<i>Note</i>		

<i>Question no. and text</i>	D14c Et le cas échéant combien d'années d'apprentissage avez-vous accomplies, sans compter d'éventuelles années répétées?	And, if appropriate, how many years did it take to do this apprenticeship, not including any possible repeated years?
<i>Codes/ Categories</i>	i4 NUMERIC	i4 NUMERIC
	-1. Ne sait pas	-1. Don't know
	-2. Pas de réponse	-2. No answer
	-5 N'a pas fait d'apprentissage	-5 No apprenticeship achieved
<i>Interviewer Instruction</i>	Introduire le nombre d'années. Arrondir au nombre d'années supérieur ou inférieur le plus proche.	Indicate the number of years. Round up or down to the nearest year.
<i>Translation Note</i>		
<i>Note</i>		
<i>Question no. and text</i>	D14c Und falls Sie eine Lehre gemacht haben, wie viele Jahre hat diese gedauert, ohne eventuelle wiederholt Jahre?	And, if appropriate, how many years did it take to do this apprenticeship, not including any possible repeated years?
<i>Codes/ Categories</i>	i4 NUMERIC	i4 NUMERIC
	-1. Weiss nicht	-1. Don't know
	-2. Keine Antwort	-2. No answer
	-5 Hat keine Lehre gemacht	-5 No apprenticeship achieved
<i>Interviewer Instruction</i>	Anzahl Jahre eingeben. Auf die nächste Zahl Auf- oder Abrunden.	Indicate the number of years. Round up or down to the nearest year.
<i>Translation Note</i>		
<i>Note</i>		
<i>Question no. and text</i>	D14c E se del caso, quanti anni d'apprendistato ha portato a termine, senza contare eventuali anni ripetuti?	And, if appropriate, how many years did it take to do this apprenticeship, not including any possible repeated years?
<i>Codes/ Categories</i>	i4 NUMERIC	i4 NUMERIC
	-1. Non so	-1. Don't know
	-2. Non risponde	-2. No answer
	-5 Non ha fatto nessun apprendistato	-5 No apprenticeship achieved
<i>Interviewer Instruction</i>	Annotare numeri d'anni. Arrotondare la risposta in più o in meno all'anno intero più prossimo.	Introduce the number of years. Round up or down to the nearest year.
<i>Translation</i>

CH_DEGR - Country-specific highest completed degree of education

	National Language	English Translation
<i>Question no. and text</i>	D14a Quel est le plus haut niveau de formation que vous avez terminé?	Which is the highest educational level you achieved?
<i>Codes/ Categories</i>	1. Ecole primaire inachevée	1. Uncompleted primary school
	2. Ecole primaire (4 à 6 ans de scolarité)	2. Primary school (4 to 6 years of schooling)
	3. Cycle d'orientation, école secondaire (et école primaire de 8-9 ans)	3. Secondary education (first stage, including primary school with 8 to 9 years of schooling)
	4. 10. année, préapprentissage, cours préparatoire, école préprofessionnelle	4. Additional year of secondary education, preparation for vocational training
	5. Formation professionnelle initiale (Attestation fédérale de formation professionnelle) Apprentissage court (2 ans), Ecole commerciale (1 an), Ecole de formation générale (1-2 ans)	5. Elementary vocational training (enterprise and school, 1-2 year)
	6. Apprentissage 3-4 ans (CFC), en entreprise formatrice ou en école professionnelle	6. Apprenticeship (vocational training, dual system, 3-4 years)
	7. Ecoles de culture générale (3 ans, certificat d'ECG, maturité spécialisée), Ecoles de degré diplôme (EDD), Ecole de commerce	7. General training school (2-3 years)
	8. Maturité professionnelle	8. Vocational baccalaureate
	9. Ecole normale, études pédagogiques (niveau préscolaire et primaire)	9. Diploma for teaching in primary school or preprimary school
	10. Ecoles de maturité gymnasiale, Gymnase, Collège	10. Baccalaureate preparing for university
	11. Deuxième apprentissage ou apprentissage en tant que deuxième formation	11. Second vocational training (or apprenticeship as second education)
	12. Maturité professionnelle pour adultes	12. Vocational baccalaureate for adults
	13. Maturité gymnasiale pour adultes ou apprentissage après maturité gymnasiale	13. Baccalaureate for adults or apprenticeship after Baccalaureate
	14. Maîtrise professionnelle, brevet fédéral et autres examens professionnels supérieurs	14. Advanced vocational qualification (specialization exam, federal certificate or diploma of advanced vocational training)
	15. Diplôme ou postgrade d'une école professionnelle supérieure, p.ex. dans les domaines technique, administration, santé, travail social, arts appliqués	15. Higher vocational training (diploma of a high school in domains such as technical, administration, health, social work, applied arts)

	16. Diplôme ou postgrade d'une des écoles supérieures suivantes: -écoles d'ingénieurs ETS -écoles supérieures de cadres pour l'économie et l'administration (ESCEA) -écoles supérieures d'arts appliqués (ESAA) -écoles supérieures d'économie familiale (ESEF) -école hôtelière de Lausanne (EHL, diplômes décernés en 1998, 1999 et 2000)	16. Higher vocational training (diploma of some specific high schools having obtained a recognition of tertiary level)
	17. Hautes écoles spécialisées (HES), Hautes écoles pédagogiques (HEP), Bachelor	17. University of applied science and pedagogical university (Bachelor)
	18. Hautes écoles spécialisées (HES), Hautes écoles pédagogiques (HEP), Master, diplôme, postgrade	18. University of applied science and pedagogical university (Master)
	19. Hautes écoles universitaires, demi-licence, certificat propédeutique	19. University diploma (intermediary level)
	20. Hautes écoles universitaires, Ecoles polytechniques fédérales (EPF), Bachelor, licence en 3-4 ans	20. University diploma and post-graduate (including technical) (Bachelor and short university degree)
	21. Hautes écoles universitaires, Ecoles polytechniques fédérales (EPF), licence exigeant plus que 4 ans	21. University diploma and post-graduate (including technical) (degree requiring more than 4 years)
	22. Hautes écoles universitaires, Ecoles polytechniques fédérales (EPF), Master, diplôme, postgrade	22. University diploma and post-graduate (including technical) (Master)
	23. Doctorat, PhD	23. Doctoral degree
	24. Autre formation (NOTEZ)	24. Other education (WRITE IN)
	-1. Ne sait pas	-1. Don't know
	-2. Pas de réponse	-2. No answer
<i>Instruction D14a_N</i>	Noter en détail, aussi le pays où la formation a été achevée	Describe carefully, indicating also the country where it has been achieved
<i>Translation Note</i>		
<i>Note</i>	For MOSAiCH 2013 (including ISSP 2012 and 2013) we have slightly amended the wording of the categories 2 and 3, precisising the number of necessary years of school. We suspected indeed a few errors in the previous edition, because in some cantons, 'Primarschule' (primary school) keeps the same name at the secondary degree (up to 9 years of school). Our suspicion has been confirmed, as it is mainly the following category 3 which has grown. Manual recode of code 24 (others) as far as possible into the categories of D14a.	
<i>Question no. and text</i>	D14a Welches ist Ihre höchste abgeschlossene Ausbildung?	Which is the highest educational level you achieved?

Codes/ Categories	1. Nicht abgeschlossene Primarschule	1. Uncompleted primary school
	2. Primarschule (4 bis 6 Jahre Schule)	2. Primary school (4 to 6 years of schooling)
	3. Sekundar-, Real- und Oberschule (auch 8-9 Jahre Primarschule)	3. Secondary education (first stage including primary school with 8 to 9 years of schooling)
	4. 10. Schuljahr, Vorlehre, Haushaltsjahr, Berufsvorbereitungsklasse, Brückenangebote	4. Additional year of secondary education, preparation for vocational training
	5. Berufliche Grundbildung (Eidg. Berufsattest) Anlehre in Betrieb und Schule, Handelsschule (1 Jahr), Allgemeinbildende Schule (1-2 Jahre)	5. Elementary vocational training (enterprise and school, 1-2 year)
	6. Berufslehre 3-4 Jahre (Eidg. Fähigkeitszeugnis) in Lehrbetriebe oder in Berufsfachschule	6. Apprenticeship (vocational training, dual system, 3-4 years)
	7. Fachmittelschulen (3 Jahre, FMS-Ausweis, Fachmaturität), Diplommittelschulen (DMS), Handelsschule	7. General training school (2-3 years)
	8. Berufsmaturität	8. Vocational baccalaureate
	9. Lehrerseminar, Schule für Unterrichtsberufe (für Vor- und Primarschule)	9. Diploma for teaching in primary school or preprimary school
	10. Gymnasiale Maturitätsschulen, Gymnasium	10. Baccalaureate preparing for university
	11. Zweite Berufslehre oder Berufslehre als Zweitausbildung	11. Second vocational training (or apprenticeship as second education)
	12. Berufsmaturität für Erwachsene	12. Vocational baccalaureate for adults
	13. Gymnasiale Maturität für Erwachsene oder Berufslehre nach gymnasialer Maturität	13. Baccalaureate for adults or apprenticeship after Baccalaureate
	14. Meisterdiplom, Eidg. Fachausweis und weitere Fachprüfung	14. Advanced vocational qualification (specialization exam, federal certificate or diploma of advanced vocational training)
	15. Diplom oder Nachdiplom einer höheren Fachschule, z.B in den Bereichen Technik, Verwaltung, Gesundheit, Sozialarbeit, Kunst und Gestaltung	15. Higher vocational training (diploma of a high school in domains such as technical, administration, health, social work, applied arts)

	16. Diplom oder Nachdiplom einer der folgenden höheren Fachschulen: - Ingenieurschule (HTL) - Höhere Wirtschafts- und Verwaltungsschule (HWV) - Höhere Fachschule für Gestaltung (HFG) - Höhere Hauswirtschaftliche Fachschule (HHF) - Hotelfachschule Lausanne (Abschlüsse der Jahre 1998, 1999 und 2000)	16. Higher vocational training (diploma of some specific high schools having obtained a recognition of tertiary level)
	17. Fachhochschulen (FH), Pädagogische Hochschulen (PH), Bachelor	17. University of applied science and pedagogical university (Bachelor)
	18. Fachhochschulen (FH), Pädagogische Hochschulen (PH), Master, Diplom, Nachdiplom	18. University of applied science and pedagogical university (Master)
	19. Universitäre Hochschulen, abgeschlossenes Grundstudium, Halblizenziat	19. University diploma (intermediary level)
	20. Universitäre Hochschulen, Eidgenössische Technische Hochschulen (ETH), Bachelor, Lizenziat in 3-4 Jahren	20. University diploma and post-graduate (including technical) (Bachelor and short university degree)
	21. Universitäre Hochschulen, Eidgenössische Technische Hochschulen (ETH), Lizenziat für das mehr als 4 Studienjahre erforderlich sind	21. University diploma and post-graduate (including technical) (degree requiring more than 4 years)
	22. Universitäre Hochschulen, Eidgenössische Technische Hochschulen (ETH), Master, Lizenziat, Diplom, Nachdiplom	22. University diploma and post-graduate (including technical) (Master)
	23. Doktorat, PhD	23. Doctoral degree
	24. Andere Ausbildung (detailliert notieren, auch Land wo diese Ausbildung abgeschlossen wurde)	24. Other education (describe carefully, indicating also the country where it has been achieved)
	Weiss nicht	-1. Don't know
	Keine Antwort	-2. No answer
<i>Instruction D14a_N</i>	Detailliert notieren, auch Land wo diese Ausbildung abgeschlossen wurde	Describe carefully, indicating also the country where it has been achieved
<i>Translation Note</i>

Our suspicion has been confirmed, as it is mainly the following category 3 which has grown. Manual recode of code 24 (others) into the categories of D14a (if not	

	possible recoded in -1 "Don't know")	
<i>Question no. and text</i>	D14a Quale è il livello di formazione più alto che ha terminato?	Which is the highest educational level you achieved?
<i>Codes/ Categories</i>	1. Scuola elementare non terminata	1. Uncompleted primary school
	2. Scuola elementare (scolarità di 4 a 6 anni)	2. Primary school (4 to 6 years of schooling)
	3. Scuola secondaria, scuola media (e scuola elementare di 8-9 anni)	3. Secondary education (first stage, including primary school with 8 to 9 years of schooling)
	4. 10. anno, pretirocinio, corso preprofessionale, offerte transitorie	4. Additional year of secondary education, preparation for vocational training
	5. Formazione professionale di base (Certificato federale di formazione pratica), Apprendistato breve (2 anni), Scuole commerciali (1 anno), Scuole di formazione generale (1-2 anni)	5. Elementary vocational training (enterprise and school, 1-2 year)
	6. Apprendistato 3-4 anni (AFC: attestato federale di capacità) tirocinio in azienda o in scuola professionale di base	6. Apprenticeship (vocational training, dual system, 3-4 years)
	7. Scuole specializzate (3 anni, certificato, maturità specializzata) scuola per professioni sanitarie/sociali (sspss), scuole di diploma (SDD), scuola commerciale	7. General training school (2-3 years)
	8. Maturità professionale	8. Vocational baccalaureate
	9. Scuola magistrale, patente di maestro/a per scuola dell'infanzia e scuola elementare	9. Diploma for teaching in primary school or preprimary school
	10. Scuole di maturità ginnasiale, Liceo	10. Baccalaureate preparing for university
	11. Secondo apprendistato o apprendistato come seconda formazione	11. Second vocational training (or apprenticeship as second education)
	12. Maturità professionale per adulti	12. Vocational baccalaureate for adults
	13. Maturità ginnasiale per adulti o apprendistato dopo maturità ginnasiale	13. Baccalaureate for adults or apprenticeship after Baccalaureate
	14. Maestria, brevetto federale e altri esami professionali superiori	14. Advanced vocational qualification (specialization exam, federal certificate or diploma of advanced vocational training)
	15. Diploma o postdiploma di una scuola professionale superiore, p.es. in nel campo tecnico, amministrativo, salute, lavoro sociale, arti applicata	15. Higher vocational training (diploma of a high school in domains such as technical, administration, health, social work, applied arts)

	16. Diploma o postdiploma di una delle seguenti scuole superiori: - scuola tecnica superiore (STS) - scuola superiore dei quadri per l'economia e l'amministrazione (SSQEA) - scuola superiore di arti applicate (SSAA) - scuola superiore di economia domestica (SSED) - scuola alberghiera di Losanna (titoli conseguiti negli anni 1998, 1999 e 2000)	16. Higher vocational training (diploma of some specific high schools having obtained a recognition of tertiary level)
	17. Scuole specializzate superiori (SSS), Alte scuole pedagogiche (ASP), Bachelor	17. University of applied science and pedagogical university (Bachelor)
	18. Scuole specializzate superiori (SSS), Alte scuole pedagogiche (ASP), Master, diploma, postdiploma	18. University of applied science and pedagogical university (Master)
	19. Università, biennio propedeutico, primo ciclo con certificato	19. University diploma (intermediary level)
	20. Università cantonali e politecnici federali (PF), Bachelor, licenza in 3-4 anni	20. University diploma and post-graduate (including technical) (Bachelor and short university degree)
	21. Università, Politecnico federale (PF), Licenza/laurea che richiede più di 4 anni di studio	21. University diploma and post-graduate (including technical) (degree requiring more than 4 years)
	22. Università, Politecnico federale (PF), Master, licenza, diploma, postdiploma	22. University diploma and post-graduate (including technical) (Master)
	23. Dottorato, PhD	23. Doctoral degree
	24. Altra formazione (specificare in dettaglio, anche il paese dove la formazione è stata terminata))	24. Other education (describe carefully, indicating also the country where it has been achieved)
	-1. Non so	-1. Don't know
	-2. Non risponde	-2. No answer
<i>Instruction D14a_N</i>	Indicare in dettaglio, anche il paese dove la formazione è stata terminata	Describe carefully, indicating also the country where it has been achieved
<i>Translation Note</i>		
<i>Note</i>	<p>For MOSAiCH 2013 (including ISSP 2012 and 2013) we have slightly amended the wording of the categories 2 and 3, precisising the number of necessary years of school. We suspected indeed a few errors in the previous edition, because in some cantons, 'Primarschule' (primary school) keeps the same name at the secondary degree (up to 9 years of school). Our suspicion has been confirmed, as it is mainly the following category 3 which has grown.</p> <p>Manual recode of code 24 (others) into the categories of D14a (if not possible recoded in -1 "Don't know")</p>

ISCO88 - Occupation ISCO 1988

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO88-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO88 codes *attached as a separate file*. Please report which kind of ISCO code you apply. The most common ones are the code developed by the International Labour Organisation (ILO) and the variant developed for the European Union (EU), ISCO-COM. If you apply another variant such as ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, then please specify.

Please do **not** enter **standard** ISCO88 codes here. But please report if your country **adds** or **changes** codes compared to ISCO88, if any.

Occupations should be coded on the 4-digit level of ISCO88. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, the 4-digit code 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit code in the data file is 110 (Armed Forces).

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

SPISCO88 – Spouse, partner: occupation ISCO 1988

Please give the text of the source question(s) on the spouse's occupation used in your field questionnaire. If ISCO88-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO88 codes *attached as a separate file*. Please report which kind of ISCO code you apply. The most common ones are the code developed by the International Labour Organisation (ILO) and the variant developed for the European Union (EU), ISCO-COM. If you apply another variant such as ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, then please specify.

Please do **not** enter **standard** ISCO88 codes here. But please report if your country **adds** or **changes** codes compared to ISCO88, if any.

Occupations should be coded on the 4-digit level of ISCO88. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, the 4-digit code 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit code in the data file is 110 (Armed Forces).

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

<i>Translation Note</i>		
<i>Note</i>	The answers given in the category "other" are recoded in the list, or remain in the category other. In Switzerland, citizen can vote for candidates in giving the vote to the party in choosing a list prepared by the parties, but they can also vote only for candidates. In this case, we vote for candidates of several lists without giving any vote to the party. That's what we call "mixed vote" (code 94)

The last national elections were in 2011; and the categories were adapted accordingly. Compared to 2011, three new parties are present: “the Liberals” (coming from an alliance between the previous Radicals and Liberal Party), the Conservative-democratic Party (a split of the Swiss People's Party) and the new “Movement of the citizens of French-speaking Switzerland (MCGe and others cantonal sections)”.

Party positions on a left-right schema, 2013

Far left	Labour Party
Left,center left	Social Democratic Party Green Party
Center,liberal	Popular Evangelic Party Christian Social Party Green Liberal Party
	<i>The Liberals</i>
Right,conservative	Christian Democrats Swiss People's Party <i>Conservative Democratic Party</i>
	<i>Movement of the citizens of French-speaking Switzerland</i>
Far right	Federal Democratic Union Lega dei Ticinesi (Lega) Swiss Democrats

Informations about the parties in Switzerland:

The Liberals ==> Right, conservative

After some years of political alliance between the Radicals and the much smaller Liberal Party, in January 2009, they merged to form the new party "FDP.The Liberals". The former FDP was founded in 1894, growing out of the liberal, radical and democratic movements that dominated the first decades of the federal state. The Liberal Party as well has roots going back as far as in the 19th century and was developed mainly in French-speaking Switzerland.

Very much like its precursors, "FDP. The Liberals" relies on classical liberalism. It has two members in the Federal Council and 30 seats in the National Council. With a number of 130000, it has by far the most members of all Swiss parties.

FDP.The Liberals too, they form their own faction in the National Council and are assigned 11 seats in the Council of States.

Christian democrats ==> Centre-right, conservative

This party has been founded by conservative Catholics, who lost the short civil war of 1847. Nevertheless, they are currently also present in Protestant cantons, with more eccentric positions. They claim for a social market economy. It is the second largest party in terms of membership, but the smallest of the four-party coalition government.

They form a faction of 31 seats with the evangelical people's party, in which they hold 28 seats. In the Council of States they are assigned 13 seats.

Socialist party (= social democrats) ==> Centre-left

As a merge of several cantonal workers' parties, the socialist/socialdemocratic Party has been founded in 1888. It is currently the most pro-european party in Switzerland. It ranks

fourth in terms of membership, but the second biggest in terms of votes and seats (46) in the National Council.

There, they form their own faction. In the Council of States they are represented with 11 seats.

Swiss people party ==> Right, conservative

Founded in 1936 from an association of farmers and artisans, this party became more and more populist, especially its right wing. Since the 1990's, they adopted certain anti-foreigner positions from the far-right. Quite closely linked to the fact that they are represented by only one member in the Federal Council (government), they consider themselves as an opposition party. In terms of their share of total votes, they form the biggest Swiss party, while they are outreached by the Christian Democrats and the "FDP.The Liberals" in terms of membership. The national elections of 2011 marked the end of a 20-year period of steady growth in their share of total votes with a climax of 28.9% in the 2007 national elections. They form their own faction in an alliance with the Lega (2 Seats) and a resulting total of 56 seats in the National Council (total: 200 seats). In the Council of States they've gained 5 out of 46 seats.

Conservative Democratic Party of Switzerland ==> Centre right

The Conservative Democratic Party was created in November 2008 as a split of the Swiss People's Party.

The Swiss People's Party (UDC, SVP) becoming more and more populist, a fraction of this party split from it, creating the more moderate "Conservative Democratic Party of Switzerland". It has one Federal Councillor (Eveline Widmer-Schlumpf), 9 seats in the National Council and one in the Council of the States. They put forward conservative values and economic liberalism.

This party is represented by its own faction in the national parliament.

Christian Social Party ==> Centre-left, liberal

In 1997, merging cantonal groups have founded the Christian-social Party to create a new party on the national level. As opposed to other Christian parties, they are very liberal on societal issues such as abortion and homosexual partnerships. They share social democratic views on redistribution and take strong environmentalist positions, why they may be labelled a "leftist Christian party". After 2011 elections, they hold no seats in national parliaments.

Swiss labour party ==> Far left

This party was founded in 1944 by the illegal Communist Party of Switzerland. In 2011, they lost their only seat in the parliament and are no longer represented.

Green party ==> Left, centre left

Born from the environmental movement, this party was found in 1983 and gained strength throughout the 1980s. It is the strongest party not represented in the national executive government.

They currently hold 15 seats in the national parliament and form their own faction. In the Council of States they are represented with 2 seats.

Green liberal party ==> Centre, liberal

Founded in 2007, they immediately won a seat in the Council of the states and three in the national council. Since then, they successfully expanded in the cantonal elections. Sharing the idea of environmentalism with the Green Party, its party program differs strongly with respect to regulation of the economy. It aims to combine moderate economic liberalism, liberalism on civil liberties and environmental sustainability. They represent 12 seats in the National Council and form their own faction.

Swiss democrats ==> Far right

Founded in 1975 as a split from the Evangelical People's Party. Beyond their social conservatism and christian values, they are eurosceptic and support strong anti-foreigner positions.

No more in the national parliament since end 2007 (where they held one seat in the council of the states).

Federal Democratic Union ==> Far right

The Christian, national-conservative Federal Democratic Union lost their only seat in parliament in the 2011 elections, while they won two seats in the 2003-election and one in 2007. They stand for value-oriented, biblical positions and strongly refuse European integration of Switzerland.

Evangelical People's Party ==> Centre

Founded in 1919, this small protestant party stands rather centre-left on some issues (redistribution, education, immigration, environment), but is conservative on others (abortion, family, euthanasia). The economic position is centrist.

Alliance with the Christian Democrats, being in the same faction at the national level.

Lega dei Ticinesi ==> Far right

Founded in 1991, this populist party refers to the model of the italian Lega Lombarda. It defends national conservative and isolationist positions and is one of the major parties in the Canton Ticino.

With their two seats in the National Council they belong to the Swiss People's Party faction.

Movement of the Citizens of French-speaking Switzerland (Mouvement des Citoyens Romands, MCR) ==> Far right

In 2005, a member of the Swiss People's Party and a former member of the Liberal Party founded the (local) patriotic protest party "Mouvement des Citoyens Genevois". After their first appearance in national elections in 2007 in the canton of Geneva, in 2011 they participated also in the canton of Vaud.

They bring forward anti-foreigner positions, especially against frontier workers from France. Contrarily, they take traditionally leftist stances in social welfare discourses. They are represented by one seat in the National Parliament, without belonging to a faction.

Construction/Recoding:

Country Variable Codes/Construction Rules	→ SUBSCASE
0	0. NAP, no substitution in this survey
NAP	1. Case from original sample
NAP	2. Case substituted

Optional: Recoding Syntax

--

WEIGHT – Weighting factor

Please report on whether you calculate any weighting variables. If you adjust for non-response bias, please enter the variable(s) on which the sample's distribution(s) is (are) adjusted to the population distribution(s). Please, also report if you apply any kind of rescaling.

Design weight to adjust for unequal selection probabilities	<u>No</u>	The sample frame is individual based and the sampling is pure random, so that every resident in Switzerland has equal chance to participate
	Yes	[]
Weight to adjust for non-response bias	<u>No</u>	[X]
	Yes	[] → <input type="checkbox"/> please specify variables used for calculation of weight
Are the final weights rescaled to net sample size (thus weighted sample size=unweighted sample size)?	No	[] → <input type="checkbox"/> please specify target population represented by sum of all case weights
	<u>Yes</u>	[X] (no weight used)
Note	all weight=1, according to the sample design (all respondents have the same probability to be selected)	

Construction/Recoding:

Country Variable Codes/Construction Rules	→ WEIGHT
	1. No weighting

MODE – Administrative mode of data-collection

<i>Note</i>	All questionnaires have been administrated F2F/ CAPI with showcards
-------------	---

Construction/Recoding:

Country Variable Codes/Construction Rules	→ Mode
	10. F2f/PAPI, no visuals
	11. F2f/PAPI, visuals
	12. F2f/PAPI, respondent reading questionnaire
	13. F2f/PAPI, interpreter or translator – no visuals
	14. F2f/PAPI, interpreter or translator – visuals
	20. CAPI, no visuals
ALL CASES	21. CAPI, visuals
	22. CAPI, respondent reading questionnaire (paper or on monitor)
	23. CAPI, interpreter or translator – no visuals
	24. CAPI, interpreter or translator – visuals
	30. SC, arrives with interviewer, interviewer attending
	31. SC, arrives with interviewer, drops-off, picks up later
	32. SC, arrives with interviewer, drops off, mailed back by R
	33. SC, mailed to, completed by R and hold for pick up
	34. SC, mailed to, mailed back by R
	40. CASI, self-completion, computer-assisted

4. Country Questionnaire

Please provide the part(s) of your country questionnaire that relate(s) to the background variables reported in this template. If these variables are already covered by your country's field questionnaire delivered with your national ISSP data file, then just tick on the last page of this document. (PDF or MS Word format preferred.)

☐ Already included in field questionnaire provided with the country data file.

☒ ISSP2013_q_CH_MOSAICH2013.pdf

5. Frequency Distributions of Source Variables

Please supply frequency distributions with absolute and relative frequencies, missing values included, for all source variables. Source variables are the country-specific variables before recodes into ISSP standard variables are done. (MS Word or simple ASCII file preferred.)

Attached file: ISSP2013_bvqfreqs_CH.doc .

6. Correspondence list ISCO88<->national occupation codes

If your country derives ISCO88 codes from a national occupation coding scheme, please supply a correspondence list of national codes and ISCO88 codes. (MS Word or simple ASCII file preferred.)

☒ ISCO88 is used to code responses directly.

☐ Conversion of national coding scheme to ISCO88. Attached file: ZZZZZZ.ZZZ.
