	National Language	English Translation
<i>Question no. and text</i>	P37a ¿Cuáles son los estudios de <u>más alto nivel</u> oficial que Ud. ha cursado (con independencia de que los haya terminado o no)? Por favor, especifique lo más posible, diciéndome el <u>curso</u> en que estaba cuando los terminó (o los interrumpió), y también el nombre que tenían, entonces, esos estudios: (ej., 3 años de Estudios Primarios, Primaria, 5º de Bachillerato, Maestría Industrial, Preuniversitario, 4º de EGB, Licenciatura, Doctorado, FP1, etc.)	Q37a Which are the <u>highest level</u> official studies that you have done (whether you have finished them or not)? Please specify as much as possible, telling me the level (year) you were in, when you finished (or interrupted them), and also the name those studies had then (if different): (example: 3 years of Primary, Primary, first year of Junior High, Vocational Training, last year of High School, 4th year of former Primary Education, College degree, PhD, first level of Vocational Training, etc)
<i>Codes/ Categories</i>	CURSO NOMBRE	YEAR NAME
	NIVEL	LEVEL
<i>Interviewer instnction</i>	(ENTREVISTADOR: Si aún está estudiando, anotar el último curso que haya <u>completado</u>. Si <u>no</u> ha completado la <u>Primaria</u>, anotar <u>nº de años</u> que asistió a la escuela.)	(INTERVIEWER: If still studying, write down the last school year that he/she has <u>finished</u>. If he/she has <u>not finished</u> Primary, write down the <u>n. of years</u> that he/she went to school.)
<i>Note</i>	The interviewer must write down the last year <u>completed</u> in school by respondent and the name of those studies. Then, he/she will write the appropriate code according to the Studies-Degree-Show-Card. This code and the information given by respondent is revised later on by expert coders. The amount of different examples given for the name of Spanish studies are necessary, due to the constant change in study plans in the last 30 years.

ISCO88 - Occupation ISCO 1988

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO88-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO88 codes *attached as a separate file*. Please report which kind of ISCO code you apply. The most common ones are the code developed by the International Labour Organisation (ILO) and the variant developed for the European Union (EU), ISCO-COM. If you apply another variant such as ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, then please specify.

Please do **not** enter **standard** ISCO88 codes here. But please report if your country **adds** or **changes** codes compared to ISCO88, if any.

Occupations should be coded on the 4-digit level of ISCO88. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, the 4-digit code 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit code in the data file is 110 (Armed Forces).

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.
