Q.62 I am going to read out to you some opinions about nuclear energy and radioactivity. For each of these, could you tell me if you tend to agree or tend to disagree?

READ OUT	TEND TO AGREE	TEND TO DISAGREE	DON'T KNOW	
Living near a nuclear power station increases the risk of cancer or having abnormal children	1	2	3	(34)
The problem of disposal of nuclear waste has not yet been solved: dumping this waste at the bottom of the sea or burying it in the ground cannot be done without contaminating the environment	1	2	3	(35)
In our country, the risk of radioactive contamination is lower than the risk of chemical pollution	1	2	3	(36)
An accident like Chernobyl could not happen in a nuclear power station in Britain	1	2	3	(37)
A country which has a nuclear power station near its borders should keep its neighbouring countries constantly informed about the way the power station is operating	1	2	3	(38)

Q.63 **SHOW CARD P** I am going to show you a certain number of situations which expose people to radiation. From this list, could you tell me the two situations which in your opinion lead to the most serious consequences? (TWO REPLIES ONLY)

	(39)	
Living near a nuclear power station -----	1	
Spending a long time in the mountains -----	2
