Parents questionnaire full version

Lfnr.	Variable	Problem/reason for problem	Action
1	--	Dutch parents were also approached parallel to wave 2 of data collection and asked to participate.	A new data set is available containing all parental interviews of students that do not belong to the inside-sample of CILS4EU. The data set is identical to the parental interviews in wave 1 (version 1.2.0) except for the prefix 'p2_' instead of 'p1_'. For these data sets, a separate codebook is provided, too. Only a full version of this data set is available.
