2. Most of us worry about things that might go wrong. How worried are you about ...
   - Drug addicts stealing to get money to buy drugs .................. Extremely Very Fairly Not very Not worried
   - Drug addicts hanging around on the streets? ...................... Extremely Very Fairly Not very Not worried

3a. Have you or your family been the victim of a theft or burglary you think was committed by a drug addict? .......... Yes No

c. What about treating heroin like we treat alcohol?
   - Allow adults to buy heroin if they want, but not allow young people to buy it.
   - Do you .... Strongly support Support Mixed feelings Oppose Strongly oppose

d. Now we would like to ask about different kinds of treatment programs that try to deal with heroin addicts. First, there are programs where heroin addicts...
   - Visit a medical clinic regularly for counselling and take a drug called methadone every day that stops them craving heroin.
   - The aim is to get addicts to lead a normal, healthy life - to have a regular job, support their family, not break the law, and try to get them to stop using heroin.

   - Instead its aim is to get them to lead a normal, healthy life with a regular job, support their family, and not break the law.
   - Do you .... Strongly support Support Mixed feelings Oppose Strongly oppose

g. There are also programs where addicts go and live for a year or two in a treatment house...
   - Closely supervised by drug counsellors. There are absolutely no drugs.
   - The aim is to get addicts to stop using heroin, and to get addicts to lead a normal, healthy life again.
   - Do you .... Strongly support Support Mixed feelings Oppose Strongly oppose

c. How effective do you think medical treatment for addiction is now - about what percent of heroin addicts can be cured (that is stop using)?.......................... 1% 5% 10% 20% 40% 60% 80%

d. And if they can't be cured entirely, how many can be helped to lead a normal healthy life, with a regular job, support their family, and not steal or sell drugs?.......................... 1% 5% 10% 20% 40% 60% 80%

9. The ACT government is thinking about running a trial to provide heroin to addicts to see if this is as good as or better than current treatment programs. It would
• run for two years
• measure effects on crime, health, AIDS risk, social problems and drug use
• be limited to about 100 Canberra heroin addicts
• only allow heroin to be injected at special clinics under medical supervision, no take-away heroin
• have strict security

Do you think a program like this would... TRUST

g. Reduce the chance of AIDS spreading into the community at large?.................... Yes! Yes ?? No Noll
h. Set a bad example for youth?.................... Yes! Yes ?? No Noll

i. Now that you have thought about some of the potential benefits and potential problems of a heroin trial in the ACT, to your reaction to it...

   Very favourable ........................................ 1
