TYPORG1 – Type of organisation, for-profit/non-profit

	National Language	English Translation
<i>Question no. and text</i>	#11 Radite li (ili ste radili) u radnoj organizaciji čije biste osnovno djelovanje opisali kao:	#11 Are you currently employed (or have been in the past) in the organization which main work can be described as:
<i>Codes/ Categories</i>	1. Profitno (ostvarivanje financijske dobiti i profita za vlasnike)	1. Profit (pursuit of financial gain and profit for the owners)
	2. Neprofitno	2. Non-profit
	8. Ne može odrediti	8. Can not determine
	9. Bez odgovora	9. No answer
<i>Interviewer Instruction</i>	<i>Profitno određenje se NE odnosi na trenutno ekonomsko stanje i poslovanje radne organizacije. Primjer profitnih radnih organizacija su privatne tvrtke, ali i javna poduzeća koja ostvaruju dobit vlasnicima (HEP, Hrvatske šume...). Primjer neprofitnih organizacija bili bi npr. nastavnici i liječnici u državnom sektoru, dok bi nastavnici i liječnici u privatnim školama, klinikama i bolnicama trebali definirati svoj rad u profitnim radnim organizacijama.</i>	Profit designation is NOT related to the current economic situation and business success of an organization. Examples of profit organizations are those working as a private company, but also those working as a public enterprise that generates income to the owners (HEP, the Croatian forest ...). An example of non-profit organization would be teachers and doctors in the state sector, while teachers and doctors in private schools, clinics and hospitals should define their work in for-profit companies.

ISCO08 - Occupation ISCO 2008

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

	National Language	English Translation
<i>Question no. and text</i>	# 13 Koje je Vaše zanimanje? Navedite točan naziv Vašeg radnog mjesta i zanimanja. Opišite što radite, koje su Vam glavne dužnosti. SPISCO08 – Spouse, partner: occupation ISCO 2008

Please give the text of the source question(s) on the respondent's spouse occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] “inadequately described” use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

	National Language	English Translation
<i>Question no. and text</i>	#20 Navedite točan naziv radnog mjesta i zanimanja Vašeg supruga/partnera. Opišite što radi, koje su mu/joj glavne dužnosti.
