

**ZA Study 4739**  
**Flash Eurobarometer 234**  
**„Citizens’ perceptions of the EU Regional Policy”**

### **Archive information and errata**

- CASEID: The original case identification number is not continuously unique, even if separating by country and interview mode (38 non unique case id-s related to 78 records for Denmark, no duplicate cases). A unique serial id number was produced by the archive.
- REGION: NUTS categories in this variable are specified according to official NUTS classification (levels 1 to 3) or former Flash EB surveys by the archive. Regions for Bulgaria and Romania are not documented (mapping to NUTS is not clear).
- NUTS: Variable collapses NUTS 2 regions (variable REGION) for Belgium and the Netherlands to the NUTS 1 level.
- NUTS2: Variable is not documented. Only data for Germany, Spain, France, Italy and Poland differ from data in REGION or NUTS.
- D98A, D98B, D99A, D99B: These variables are only available for face-to-face interviews (see MODE). D98 variables include Polish cases, D99 other countries where face-to-face interviews were conducted.
- OCCU: Construction of this variable is not documented.
- W3: Separate application of this weight variable is not indicated. The factor for DUAL FRAME countries is supposed to be included in W4 (POST-STRATIFICATION WEIGHT).
