**Flash Eurobarometer 207**  
**Introduction of the Euro in the New Member States**

**ARCHIVE INFORMATION AND ERRATA**

- UNIQID: 223 duplicate id numbers; one case without id; no duplicate cases.
- W3: TELEPHONE ACCESS WEIGHT - this weight only includes countries where both telephone and face-to-face interviews were conducted
- MODE: This variable identifies the interview mode for countries where both telephone and face-to-face interviews were conducted. Countries with telephone interviews only (Cyprus and Malta) are set to SYSMIS.
- LENTIM: Generation and scale unit are not documented. Face-to-face interviews are not coded; no data available for Estonia.
- REGION: Variable was labelled in accordance with the official NUTS classification (levels 1 to 3) by the ARCHIVE. For Romania and Bulgaria this was in addition based on the regions and frequencies as documented in the technical reports.
- D3/D4: Several cases that refuse to answer (coded 99) or declare that they never have been in full-time education (coded 1) in D3, at the same time indicate that they are "Students (full time)" in D4. Furthermore several respondents with an "Age when stopped full time education" in D3 declare that they are full-time students in D4.
- D98A, D98B, D99A, D99B: Variables are only available for countries where both telephone AND face-to-face interviews were conducted. POLAND: D98; ESTONIA, LATVIA, LITHUANIA, HUNGARY, SLOVAKIA: D99. FIXTEL summarizes Q98/Q99. These variables are used for dual frame weighting (W3).
