

**GESIS Archive Study ID: ZA4984  
Flash Eurobarometer 257  
February 2009**

**Views on European Union Enlargement**

**Conducted by The Gallup Organisation, Hungary, upon the request of DG  
ENLARGEMENT A.2 “Information, Communication” and coordinated by  
Directorate General Communication**

**ARCHIVE INFORMATION AND ERRATA**

- **CASEID:** Original case identification is not unique. A duplicate case id number has been identified for Lithuania. A unique serial id was appointed by the archive (UNIQID).
- **REGION:** Official NUTS classification in this variable has been completed by the archive in accordance with the corresponding official NUTS classification, former Flash EB waves, and the technical report. The 13 categories for GREECE could not be clearly specified in accordance with NUTS 2. The four NUTS1 categories were reconstructed by the archive based on the corresponding frequency distribution documented in the technical evaluation report and in accordance with former waves. Variable NUTS1 also recodes NUTS1 levels for Belgium and the Netherlands.
