The German Longitudinal Election Study (GLES) is a long-term project funded by the German Research Foundation (Deutsche Forschungsgemeinschaft) which started with the 2009 federal election. GLES is the largest and most ambitious election study held so far in Germany.

GLES 2009 was directed by four principal investigators: Prof. Dr. Hans Rattinger (University of Mannheim), Prof. Dr. Sigrid Roßteutscher (University of Frankfurt), Prof. Dr. Rüdiger Schmitt-Beck (University of Mannheim) Prof. Dr. Bernhard Weßels (Social Science Research Center Berlin), in close cooperation with the German Society for Electoral Studies (Deutsche Gesellschaft für Wahlforschung), and GESIS.

The following documentation refers to the Pre-election Cross Section (ZA5300) of the GLES 2009 and will give you some general information about the dataset.

Basic information

| Funding Agency | German Research Foundation (Deutsche Forschungsgemeinschaft) |
| Data Collector | BIK MARPLAN, Offenbach |
| Date of collection | 08/10/2009-09/26/2009 |
| Content | The first component of GLES comprises a pre- and a post-election cross-section survey. A total of 4,290 interviews were realized (pre-election 2,173 and post-election 2,117). This documentation is about the pre-election cross section.  

The cross-sectional data also represent the first waves of a new long-term panel in the course of which the same respondents will be surveyed again in 2013 and 2017. 66.4 percent of the respondents in West Germany and 64.9 percent in East Germany agreed to participate in the panel. |

Methodology

| Geographic Coverage | Germany (DE) |
| Universe | The population comprises all persons with German citizenship resident in the Federal Republic of Germany, who had a minimum age of 16 years and lived in private households at the time the survey was being conducted. |
| Selection Method | Disproportional stratified multistage random sampling based on the ADM-design. All in all, 250 sampling points were drawn in West Germany with the aim to realize 1,400 interviews. 150 sampling points were drawn in East Germany to realize 700 interviews. As a result of this procedure, the East German population is overrepresented in the sample. The target person in the household was determined by Kish-Selection-Grid. |
| Mode of Data Collection | Computer Assisted Personal Interview (CAPI), with an average duration of approximately 60 minutes. |
Field Work

All in all, 400 sampling points were drawn. In 374 sampling points, at least one interview could be realized. On average every interviewer surveyed at 2.2 sampling points. The interviewers realized 5.6 interviews per sampling point on average. The average number of attempts until successful contact was 1.6. In 14.7 percent of the cases, three or more attempts were necessary.

The interviewers were compensated based on the number of completed interview. Additionally, they got their travel expenses and charges refunded.

By sending the respondents a postal request, in order to confirm that the interview had actually been held, twenty percent of the 2,173 completed interviews could be verified. Overall, 34 interviews had to be deleted from the dataset, because the interviewers deviated too much from their designated sampling point.

Response Rate

Of 4,740 drawn addresses, 12.5 percent dropped out because of sample neutral losses, 11.1 percent were not visited by interviewers and in 1.3 percent of the cases the address was either not occupied, invalid, or communication was not possible due to language difficulties. This results in a cleared initial sample of 4,148 addresses. Based on that, 2,173 people were surveyed (1,424 in Western and 749 in Eastern Germany) resulting in a response rate of 52.4 percent.

Weights

The pre-election cross section comprises three types of weights: a design weight, a transformation weight, and post-stratification weights.

The “East-West weighting” (wei_ow) includes a special weight factor for the regions of Germany (East, including Berlin and West). This design weight corrects for the disproportional sample size of these regions.

The second weight is the “Transformation weighting” (wei_tran) because the design of the study was based on a household sample. The transformation weight enables us to transform the data into a personal sample. This weight is based on the reduced household size (people in a household who belong to the population).

To ease working with both weights (east-west and transformation weight) at the same time, the “Combination Transformation and East-West weighting” (wei_trow) was created. In order to do this the dataset was first weighted with the transformation weight, and in a second step, the east-west weight was calculated again.

The “Sociodemographic and regional weights with (and without) transformation weight” create the third type of weights (post-stratification) provided in the dataset. Those weights were calculated by using the iterative proportional fitting (IPF). The iteration process ends when the difference between the weighted marginal distribution and the aimed distribution becomes smaller than 0.0001. To prevent large weights, the weights were trimmed (after each iteration) so that no weight is more than 5 times larger than the average weight. The weights are constructed on the basis of gender, age (4 groups: 16 to 29, 30 to 45, 45 to 59 and 60 years and older), education (three groups: low, middle, high), BIK-regions (three groups) and East (incl. Berlin) / West German federal states. Missing cases are replaced with the mode. The dataset includes six sociodemographic and regional weights: Germany as a whole, East and West Germany individually. For each of these regions, two weights were included: one with the transformation weight and one without it.

Data access
Usage regulations

Data and documents are released for academic research and teaching: access category A.

Anonymized data

According to German data protection laws, only anonymized data can be made accessible for public download. Based on this, some variables had to be deleted from the publicly available dataset. As a matter of course no information is lost: All variables can be used by interested researchers in a Secure Data Center (SDC) at GESIS (Cologne, Mannheim). Some variables are also available by signing a user contract. If you are interested in those variables please send an e-mail to gles@gesis.org. An overview of those variables can be found on our homepage (www.gesis.org/gles).

Errata

- In 21 cases, year of birth (d201b) and age (q1a) did not correspond. These cases become tagged in the variable “problem1”.

- The variables “kand1” and “kand5” contained incorrect candidate names. All cases, in which the respondents were asked about the wrong candidates, were marked in the variables problem2 and problem3.

- In question d286a (Language spoken in household) a filter error occurred. Following the questionnaire only people who themselves or whose partners were born in a foreign country, were supposed to be asked. Because of the filter error, only those people who themselves and whose partners were born in a foreign country were asked. Furthermore, people who did not provide any information on their country of birth, did not have a partner or did not answer the partner question, were also asked question d286a.

The most recent errata list is provided by the GESIS Data Catalogue (www.gesis.org/dbk). There you can also find a list of all changes made between the different versions of the dataset.

Further Remarks

The data of this study are also available as cumulation (ZA5302) with the Post-election Cross Section (ZA5301).

You can find more information about GLES at www.gesis.org/gles or www.gles.eu.

To get an overview of the use of our data, we kindly request users of GLES-data to inform us about publications that utilize those data. In case of limited access to your publication (e.g. conference papers), we would highly appreciate if you could send us an electronic (PDF file, gles@gesis.org) or a print copy of your publication (GESIS, GLES, Post Box 122155, 68072 Mannheim, Germany).
Please note:
As a public service to the international academic community, we provide English translations of GLES datasets, questionnaires, and related important documents. Due to specifics of the original documents in German and the fact that translations were not done by political scientists, the wording of established social and political science questions and constructs in these translations may occasionally deviate somewhat from the Standard English versions. If you have any questions concerning the translations, do not hesitate to contact the principal investigators or their collaborators. For an overview of the whole research team please have a look at the GLES website http://www.gles.eu. You can also send an e-mail to gles@gesis.org.

DAT
Date of interview

INT.: Please enter today's date. (yyyymmdd == year month day)

Q1
Gender

INT.: Is the respondent male or female?
(1) Male
(2) Female

Q1A
Age

INT.: Please enter the respondent's age in the box below.
What is your age?

Q2
Interest in politics

INT.: Display list and leave displayed. Check with a cross as applicable. One response only.
Quite generally, how interested are you in politics: very interested, somewhat interested, in between, not very interested, or not at all interested?
(1) Very interested
(2) Somewhat interested
(3) In between
(4) Not very interested
(5) Not at all interested
(98) Don't know
(99) No answer

Q3
Interest, election campaign

INT.: List still displayed. Check with a cross as applicable. One response only.
And how interested are you in particular in this federal election campaign?
(1) Very interested
(2) Somewhat interested
(3) In between
(4) Not very interested
(5) Not at all interested
(98) Don't know
(99) No answer

Q4
Interest in the outcome of the election

INT.: Display list. Check with a cross as applicable. One response only.
And how important is the outcome of the upcoming federal election to you personally? Very important, somewhat important, in between, not very important, or not important at all?
(1) Very important
(2) Somewhat important
(3) In between
(4) Not very important
(5) Not important at all

(98) Don’t know
(99) No answer

Q5  Satisfaction with democracy

INT.: Display list. Check with a cross as applicable. One response only.

On the whole, are you very satisfied, fairly satisfied, neither satisfied nor dissatisfied, not very satisfied, or not at all satisfied with the way democracy works in Germany?

(1) Very satisfied
(2) Fairly satisfied
(3) Neither satisfied nor dissatisfied
(4) Not very satisfied
(5) Not at all satisfied

(98) Don’t know
(99) No answer

Q6  Political knowledge: first/second vote

INT.: Response categories, do NOT read out. One response only.

In the federal elections you have two votes, the first vote and the second vote. What do you think: Which vote decides how many seats each party will have in parliament?

(1) The first vote
(2) The second vote
(3) Both are equally important

(98) Don’t know
(99) No answer

Q7  Hypothetical vote intention (under 18)

INT.: Display list. Check with a cross as applicable. One response only.
FILTER: => /Q9 if NOT Q1A<18
(Only ask this question if the respondent is younger than 18)

When elections are held a lot of people vote, others do not manage to vote or do not participate in elections for other reasons. Just assuming you were eligible to vote: how likely is it that you would vote in the federal election on 27th September? Please use this list for your answer.

(1) Certain to vote
(2) Likely to vote
(3) Might vote
(4) Not likely to vote
(5) Certain not to vote

(98) Don’t know
(99) No answer
(100) Not applicable

Q8A  Hypothetical vote intention (under 18), first vote

INT.: Display list. Get respondent to choose and assign number. CAREFUL! Number = code category.
FILTER: => /Q16 if NOT (Q7=01,02,03,98,99)
You would have two votes in the federal election. The first vote is for a candidate in your local constituency, the second vote is for a party. Here is a ballot paper similar to the one you receive for federal elections. How would you mark your ballot? Please just tell me the identification code for your first and second vote. Start with your first vote please.

(1) Candidate for CDU/CSU  
(4) Candidate for SPD  
(6) Candidate for Bündnis 90/Die Grünen  
(5) Candidate for FDP  
(7) Candidate for Die Linke  
(206) Candidate for NPD  
(225) Candidate for Republikaner  
(801) Candidate for other party

(998) Don’t know

Q69A Attitudes to politics in general 1

Now, I would like to know your opinion about several general statements about politics. Please say from this card ranging from -2 to +2 how much you agree or disagree with each of these statements.

I often find political issues difficult to understand.

(1) -2 Strongly disagree
(2) -1 Disagree
(3) 0 Neither agree nor disagree
(4) +1 Agree
(5) +2  Strongly agree
(98) Don’t know
(99) No answer

### Q69B
**Attitudes to politics in general 2**

INT.: Display list. One response in each case.

Now, I would like to know your opinion about several general statements about politics. Please say from this card ranging from -2 to +2 how much you agree or disagree with each of these statements.

The political parties are only interested in people’s votes, not in what voters think.

(1) -2  Strongly disagree
(2) -1 Disagree
(3) 0 Neither agree nor disagree
(4) +1 Agree
(5) +2 Strongly agree

(98) Don’t know
(99) No answer

### Q69C
**Attitudes to politics in general 3**

INT.: Display list. One response in each case.

Now, I would like to know your opinion about several general statements about politics. Please say from this card ranging from -2 to +2 how much you agree or disagree with each of these statements.

Today’s problems are so complex that politicians are no longer able to solve them.

(1) -2  Strongly disagree
(2) -1 Disagree
(3) 0 Neither agree nor disagree
(4) +1 Agree
(5) +2 Strongly agree

(98) Don’t know
(99) No answer

Q124
Use of daily newspapers: 2. local newspaper

INT.: DO NOT read out. Get respondent to choose and assign freely.
FILTER: => /Q130 if NOT Q101H=01
(Only ask the question if the respondent has stated that she/he reads local or regional newspaper occasionally or regularly (Q101H=01))

On how many days per week, on average, do you read reports about politics in Germany in the second local or regional newspaper you just mentioned?

(0) Not at all
(1) 1 day
(2) 2 days
(3) 3 days
(4) 4 days
(5) 5 days
(6) 6 days
(7) 7 days
(98) Don’t know
(99) No answer
(100) Not applicable

Q125
Party political bias, 2. local newspaper

INT.: One response only.
FILTER: => /+1 if NOT (Q124=01-07,98)
(Only ask the question if the respondent reads local or regional newspaper at least one day a week or answered Q124 with "Don’t know")

When you think in particular about the reports in the local or regional newspaper on the political parties and the election campaign, what impression did you have? Were these reports more favourable to some parties than to others?

(1) Yes
(2) No
(98) Don’t know
(99) No answer
(100) Not applicable
**Q126m1 – m3**  
*Pre-election pre225*  
Party political bias, 2. local newspaper - political party

INT.: Multiple response. Maximum 3 parties. DO NOT read out. Get respondent to choose and assign. FILTER: => /+1 if NOT Q125=01  
(Only ask the question if the respondent believes that local or regional newspaper shows party political bias (Q125=01))

Which parties were they more favourable to?

- (1) CDU/CSU

INT.: Display list. One response only.

[NOTE: filter as in q140: FILTER:=>/+6 if Q139A>801 OR Q139B>801 (Only ask the question if the respondent leans toward a particular party)]

As part of our study we would like to find out what people mean when they say that they lean toward a particular political party or identify more closely with one party rather than with other parties. Using this scale from -2 to +2 would you please tell me how accurately the following views reflect yours? The party itself does not mean that much to me, but it has better policies at the moment.

(1) -2 Strongly disagree
(2) -1 Disagree
(3) 0 Neither agree nor disagree
(4) +1 Agree
(5) +2 Strongly agree

(98) Don’t know
(99) No answer
(100) Not applicable

**Q143**
General trust  
Pre-election pre118

INT.: Display list. One response only.

Quite generally speaking, on balance, would you say that most people can’t be trusted or that most people can be trusted? Please use the scale from 1 to 11 to indicate your view. 1 means that most people can’t be trusted and 11 means that most people can be trusted. Use the values in between to express your opinion more precisely.

(1) 1 Most people can’t be trusted
(2) 2
(3) 3
(4) 4
(5) 5
(6) 6
(7) 7
(8) 8
(9) 9
(10) 10
(11) 11 Most people can be trusted

(98) Don’t know
(99) No answer

**Q144A**
Personality battery: shy, reserved  
Pre-election pre153

INT.: Display list. One response only.

Please tell me for each of the following statements, using this scale, to what extent they apply to you. I see myself as someone who is reserved.
I tend to be somewhat shy and reserved.

(1) Strongly disagree
(2) Disagree
(3) Neither agree nor disagree
(4) Agree
(5) Strongly agree

(98) Don’t know
(99) No answer

**Q144B**

**Personality battery: easily trust other people and see the good in others**

INT.: Display list. One response only.

Please tell me for each of the following statements, using this scale, to what extent they apply to you. I see myself as someone who is generally trusting.

I easily trust other people and see the good in others.

(1) Strongly disagree
(2) Disagree
(3) Neither agree nor disagree
(4) Agree
(5) Strongly agree

(98) Don’t know
(99) No answer

**Q144C**

**Personality battery: thoroughly**

INT.: Display list. One response only.

Please tell me for each of the following statements, using this scale, to what extent they apply to you. I see myself as someone who does a thorough job.

I perform tasks very thoroughly.

(1) Strongly disagree
(2) Disagree
(3) Neither agree nor disagree
(4) Agree
(5) Strongly agree

(98) Don’t know
(99) No answer

**Q144D**

**Personality battery: active imagination**

INT.: Display list. One response only.

### D263
Partner’s former profession, follow-up question, employee

INT.: Display list. One response only.
FILTER: \(+1\) if NOT D259=05
(Only ask the question if the respondent’s partner used to be a service/white-collar employee (D259=05))

And which group of employees did she/he belong to?

1. Plant foreman with employee status
2. Employee with simple duties (e.g. salesperson, clerk, typist)
3. Employee under loose supervision carrying out complex tasks independently (e.g. senior clerical staff, bookkeeper, draughtsman)
4. Employee carrying out responsible tasks independently or with limited responsibility for others (e.g. researcher, manager, head of department)
5. Employee with wide managerial responsibilities and decision-making powers (e.g. head of organisation/association, managing director, executive of large firm or organisation)

(98) Don’t know
(99) No answer
(100) Not applicable

### D264
Partner’s former profession, follow-up question, manual worker

INT.: Display list. One response only.
FILTER: \(+1\) if NOT D259=06
(Only ask the question if the respondent’s partner used to be a manual worker (D259=06))

Was she/he employed as....

1. Unskilled worker
2. Semi-skilled worker
3. Skilled worker
4. Head-workman
5. Master(craftsman/tradesman), site foreman

(98) Don’t know
(99) No answer
(100) Not applicable

### D265
Partner’s former profession, follow-up question, in vocational training

INT.: Display list. One response only.
FILTER: \(+1\) if NOT D259=07
(Only ask the question if the respondent’s partner used to be in vocational training (D259=07))
Which kind of vocational training was that?

(1) Commercial or administrative traineeship
(2) Industrial training
(3) Home economics/agricultural training
(4) Civil service training
(5) Work placement/internship

(98) Don't know
(99) No answer
(100) Not applicable

**D266m1 – m11**

Pre-election D12.2

Partner's former occupation

INT.: Make a note of response.
FILTER: => /+1 if NOT (D242=01)
(Only ask the question if the respondent's partner used to be in full or part-time employment (D242=01))

Which professional activity did your partner practise in her/his main job? Does this activity have a special name? [Please specify the precise name of her/his professional activity, in other words do not name "commercial employee" but "forwarding merchant", not "manual worker" but "machinist". If she/he was a public employee, please specify her/his official title, e.g. "police officer", or "senior teacher". If she/he was an apprentice/trainee, please specify the occupation she/he was training for.]

(1) Make a note of response

(98) Don’t know
