Part I: About the GESIS Panel

1. General Overview

The GESIS Panel provides a probability-based Omnibus Access Panel infrastructure located at GESIS Leibniz Institute for the Social Sciences in Mannheim, Germany. The project offers the social science community a unique opportunity to collect survey data from a representative sample of the German population free of charge.

The sample encompasses the German speaking population aged between 18 and 70 years (at the time of recruitment) and permanently residing in Germany. Fully operational from the beginning of 2014 the GESIS Panel encompasses about 4800 panelists.

The omnibus survey waves take place on a bi-monthly basis, each taking about 20 minutes and split up into two self-administered survey modes (online, offline). 62% of the panelists participate online (Web-based surveys), 38% of the panelists attend the surveys by mail.

Each survey wave consists of two major parts: About fifteen minutes of survey time is reserved for the studies submitted by access panel passengers. Fielded panel passenger studies have undergone a peer-review process. The second part of each survey wave (about five minutes of interviewing time) is reserved for longitudinal core study topics developed by GESIS.

One aim of the GESIS Panel Longitudinal Core Study is to measure frequently demanded characteristics beyond demographics, such as personality and human values, political behavior and orientations, well-being and quality-of-life, environmental attitudes and behavior, and information/communication technology usage. Moreover, a second aim of the GESIS Panel Longitudinal Core Study is to assess and to control for data quality (i.e., different sources of survey error) by measuring concepts such as survey participation evaluations, survey mode habits and preferences, and by including selected items from other benchmark surveys (e.g., German micro-census, ESS, ALLBUS, ISSP).

2. Data Collection Waves

2.1 Data Collection

The data collection process employs two self-administered survey modes (online, offline). Data collection and panel maintenance is administered and organized by the GESIS Panel Team. From 2014 onwards, the GESIS Panel runs questionnaires submitted by the research community that underwent a review process.

Panel members were recruited in 2013 in face-to-face interviews followed by a self-administered welcome survey. The mode was chosen by the participants. All participants of the welcome survey are considered members of the panel and invited to the bimonthly regular waves. Please refer to the methods report of the recruitment process.

From 2014 onwards all participants are invited by mail and receive an unconditional incentive of 5 Euros. For the online mode, all GESIS Panel questionnaires are implemented into a Questback panel installation. In addition to the mail invitation, online participants receive an invitation and two reminders by email. The online data collection process is conducted by the GESIS Panel team. The online field phase lasts about eight weeks.

Offline data are collected by the mail service provider SSM. They send out all paper questionnaires one day before the start of the online field phase. No reminders are sent out in the offline mode. In-coming paper questionnaires are processed by SSM until one day before the start of the next wave's field phase. The data is entered manually and all questionnaires are archived electronically.

2.2 Waves

The GESIS Panel omnibus survey waves take place on a bi-monthly basis, each encompassing about 20 minutes starting with wave aa in August 2013. The regular field phase lasts until the beginning of the next wave for both modes. Each wave includes a number of studies.

Table 1 presents an overview of all waves fielded by the GESIS Panel so far with central characteristics. The first column indicates the name of the wave. Waves and studies are named after the GESIS Panel naming convention (see Codebook). Waves are signified by two letters, the first signifying the year and the second the wave in the year, both letters having the potential range from a to z. To give an example, wave aa is the first wave (starting in mid-August) in the first year of the GESIS Panel 2013 and wave ba is the first wave in the second year of the GESIS Panel that went into the field Mid February 2014.

The second column indicates the studies that were fielded in the respective wave. The last columns provide information on the field period as well as the number of invited panelists as well as the number of those that participated for online and offline mode separately.

The first three waves in 2013 (waves aa, ab, ac) were part of the recruitment phase and therefore only include a subsample of panelists. The first wave of the GESIS Panel with the full sample is wave ba in February 2014.

Table 1 Overview of GESIS Panel field periods

| Wave | Studies | Field period | | Invited | | Participation | |
|------|----------------|---------------------------|---------------------------|---------|---------|---------------|---------|
| | | Online | Offline | Online | Offline | Online | Offline |
| aa | aa, ab, zq | 21.08.2013- 20.09.2013 | 21.08.2013- 14.10.2013 | 793 | 301 | 670 | 204 |
| ab | ab, ac, ad, zq | 16.10.2013- 10.12.2013 | 16.10.2013- 10.12.2013 | 1712 | 877 | 1462 | 584 |
| ac | ab, ae, af, zq | 11.12.2013- 19.02.2014 | 11.12.2013- 19.02.2014 | 2765 | 1562 | 2278 | 1003 |

3. Access to Data and Documentation

The scientific use file of the GESIS Panel is accessible for scientific purposes only via the GESIS Data Archive in Cologne. Along with the dataset all documents are stored centrally in the data catalogue. The documentation comprises the wave reports, the questionnaires and a codebook that documents all variables in the dataset.

Every two months an updated version of the master dataset is released that includes new data from the last wave as well as revisions from previous waves. Data will be accessible about three months after the end of the field period.

We provide two versions of this masterdataset: a scientific use file accessible for research purposes (GESIS Panel – reduced version: ZA5665) and a secure scientific use file that is only available for on-site use at the Secure Data Center in Cologne (GESIS Panel – full version: ZA5664). To access the scientific use file, users have to register with the data catalogue of the Data Archive (<https://dbk.gesis.org/dbksearch/>) and apply for access to the GESIS Panel dataset. Researchers then need to sign a user contract. Upon approval of the data use request, the data archive will provide researchers with access to the current scientific use file via secure ftp download.

Due to privacy protection rules some variables are not included in the scientific use file but are only included in the secure scientific use file that can only be accessed on-site via the [Secure Data Center](#) at the GESIS data archive in Cologne. Please refer to the conditions of the Secure Data Center for more information on this opportunity to use the GESIS Panel data.

4. Bibliographic Citation and Notification of Publications

4.1 Bibliographic Citation

Each new release, with its own DOI, is marked as a new version. Although each release may include changes to older waves, replicability is guaranteed since every variable remains in the dataset and new versions are not replaced but added as new variables. We ask users to always pay attention that they use the correct DOI of the dataset they used for publications.

Researchers are required to cite the dataset they use in publications as follows with the correct ZA and Version number and DOI. Please use the following citations for the data with the doi: 10.4232/1.11877 and doi: 10.4232/1.11878.

German:

GESIS (2013): GESIS Panel - full version. GESIS Datenarchiv, Köln. ZA5664 Datenfile Version 1.0.0, doi:10.4232/1.11877

GESIS (2013): GESIS Panel - reduced version. GESIS Datenarchiv, Köln. ZA5665 Datenfile Version 1.0.0, doi:10.4232/1.11878

English:

GESIS (2013): GESIS Panel - full version. GESIS Data Archive, Cologne. ZA5664 Datafile Version 1.0.0, doi:10.4232/1.11877

GESIS (2013): GESIS Panel - reduced version. GESIS Data Archive, Cologne. ZA5665 Datafile Version 1.0.0, doi:10.4232/1.11878

4.2 Notification of Publications

To get an overview over the actual usage of our data, we would appreciate short notification in case of publications using GESIS Panel data to info@gesis-panel.de. Please notify bibliographic information of your publication and the DOI of the data set used. In accordance with our user contract we ask researchers to provide us with an electronic or paper copy of

their publications. Publications that use GESIS Panel data are included in the official GESIS Panel bibliography on our homepage.

5. GESIS Panel Team

5.1 Core Team Members

The GESIS Panel team members are Prof. Dr. Michael Bosnjak (Team Leader) and Dr. Wolfgang Bandilla (Overall Project Management), Angela Tanner (Project Marketing and Survey Project Management), Carina Cornesse (until March 2014), Tanja Dannwolf, Ines Schaurer and Bella Struminskaya (Survey Project Management), Tobias Enderle and Kai Weyandt (Survey Statistics and Data Quality Management), Jessica Trixa (until December 2013, Data Archiving), Gabriele Wahlig (Panel Management), and Kai Böge and Benjamin Zapilko (Software Adjustment and Maintenance).

5.2 Quality Assurance Board Members

The members of the GESIS Panel Scientific Quality Assurance Board are Jun.-Prof. Dr. Annelies Blom (University of Mannheim), Alan Bryman (University of Leicester), Prof. Dr. Mick Couper (University of Michigan), Prof. Dr. Marcel Das (CentERdata and Tilburg University), Prof. Dr. Don Dillman (Washington State University), Prof. Dr. Marek Fuchs (Technical University Darmstadt), Prof. Dr. Jon Krosnick (Stanford University), Prof. Dr. Peter Lynn (University of Essex), and Ass.-Prof. Dr. Vera Toepoel (Utrecht University).

6. Acknowledgements

The GESIS Panel is financed by the German Federal Ministry of Education and Research.

The GESIS Panel thanks the researchers submitting proposals to and fielding studies in the GESIS Panel. We are grateful to the anonymous reviewers that provided valuable feedback to the submitted studies.

Part II: Wave ac (December/ January 2013/ 2014)

1. Wave Preparation

1.1 Responsible GESIS Panel Team Members

Survey project management: Ines Schrauer & Bella Struminskaya

Data management: Tobias Enderle

Data archiving: Kai Weyandt

Panel management: Gabi Wahlig

1.2 Methodological Considerations

Wave ac is the third wave of the GESIS panel that went into the field during the recruitment process. The recruitment process started in June 2013 with face to face interviews and the welcome survey (for more details please refer to the respective method reports). GESIS Panel conducted three waves that only included subsample of panelists in order to not lose participants over the rather long recruitment process (see Figure 1).

Figure 1 shows as well that wave ac already includes the majority of the final sample of active panel members.

Respondents received a conditional post-paid incentive of 5 Euros. Respondents were asked to provide their bank account to receive the incentives via a half yearly automatic bank transfer.

GESIS Panel recruitment phase

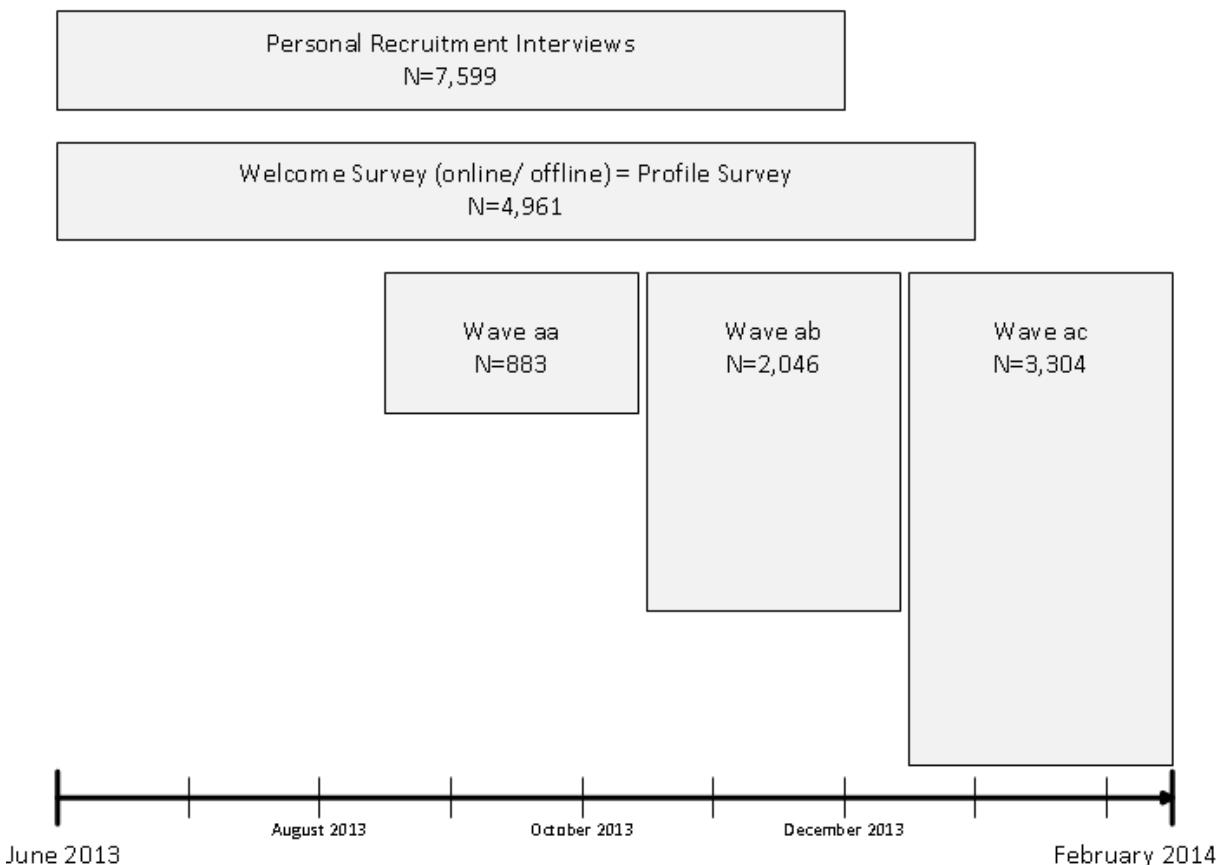

Figure 1 Overview of the recruitment phase of the GESIS Panel

1.3 Studies

Four studies were part of wave ac (see Table 2). The first study fielded in wave ac is the last part of the longitudinal study "Political perception and democracy" by Tanja Dannwolf, Michael Herrmann and Klaus Pforr, that was already part of the two preceding waves aa and ab. The second study is the cross-sectional survey experiment on scale numbering and scale switching within a questionnaire by Ines Schäurer and Bella Struminskaya. Study three is another experiment on the format of an open question. Lastly, wave ac contains study zq on survey evaluation, which is a GESIS Panel core study and is part of every panel wave.

Table 2 Overview of GESIS Panel studies

| Study | Waves | Authors | Title |
|-------|------------|---|----------------------------------|
| ab | aa,ab,ac | Tanja Dannwolf, Michael Herrmann, Klaus Pforr | Political Perception & Democracy |
| ae | ac | Ines Schäurer & Bella Struminskaya | Scale Experiments |
| af | ac | Ines Schäurer & Bella Struminskaya | Experiment open question |
| zq | core study | Bella Struminskaya, Michael Bosnjak, Lars Kaczmarek | Survey evaluation |

1.4 Questionnaire Composition

In general, the order of the items in the questionnaire can be inferred from the numbering of the variables (see variable naming convention in the Codebook).

The wave ac questionnaire begins with three questions on technological attitudes which are included as easy starting questions and continues with 7 questions from study ab that are followed by 20 questions from study ae, and two questions of study af. The questionnaire closes with nine questions on respondents' evaluation of the questionnaire (core study zq). The questionnaire did not contain any filters. However, it includes two experiments (for further details see study descriptions for study ae and af).

Online and offline questionnaire differ with respect to the experimental variation of studies ae and af. The scale labeling part of study ae contains three experimental versions with split-ballot experiments. This results in 6 versions for the online questionnaire. However in the offline mode only two conditions are implemented. This results in four versions of the offline questionnaire (variable aczp605a indicates the offline version). Variables acae109a and acae110a indicate the experimental groups for online and offline respondents.

Study af experimentally varied the design of a text box for an open question only in the offline mode.

Furthermore the online and offline questionnaire differ with respect to two questions from the core study on survey evaluation. Online respondents were asked about the electronic device they used to fill in the questionnaire (variables aczq014 and aczq015). Offline respondents were asked on which date they filled in the questionnaire (variables aczq017 and aczq018).

The online and offline questionnaire as well as the codebook can be accessed via the study entry in the Data archive.

2. Fielding and Outcome Rates

2.1 Fielding Phase

Invitations to wave ac were sent out on 10 December 2013 per mail with the paper questionnaire and on 11 December per email including a link to the online questionnaire. End of the field time was 18 February 2014.

Overall, 4327 active members of the GESIS Panel were invited, 1562 via mail and 2765 online.

The respondents invited by mail did not receive any reminders. The online participants who have not participated in the survey received two reminders on 19 December and on 30 December 2013. The text of the invitation (letter and email) and the reminders (only email) can be found in the appendix.

Figure 2 shows the cumulative participation over the field period and the daily return of online and paper questionnaires. A detailed table can be found in the appendix (see Table 4).

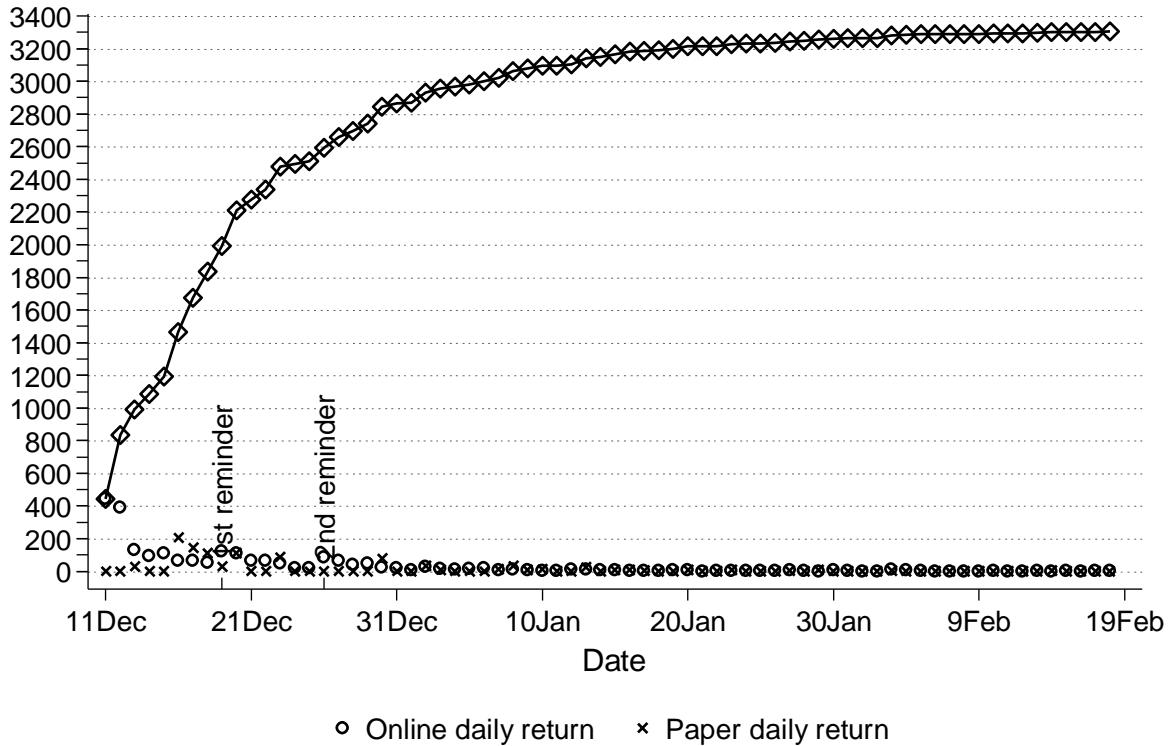

Figure 2 Wave ac field phase

2.2 Outcome Rates

Response rates calculations for self-administered online and offline surveys within the GESIS Panel are based on Callegaro and DiSogra (2008), Callegaro (forthcoming) and Final Disposition Codes for Mail Surveys (American Association for Public Opinion Research, 2011). For detailed information on coding of outcomes for the Wave ac, refer to Table 5 in the Appendix.

The completion rate (COMR) is the proportion of those who completed or partially completed the survey over eligible panel members who were invited to the survey. All active panel members are eligible for the wave. Active panel members are those who do not sign off from the panel. The eligibility for the wave surveys is defined as the returned welcome questionnaire: all invited panelists who returned the welcome questionnaire, were invited to the wave. The completion rate is computed separately for two modes and as an overall rate with counting the response to the mode the respondent was originally invited to.

$$\text{Completion Rate COMR} = \frac{\text{Interview+Partial}}{\text{Interview+Partial+Refusal+Noncontact+Other}}$$

$$\text{Overall COMR} = (3053 + 194) / (3053 + 194 + 81 + 20 + 979) = 75.04\%$$

$$\text{COMR Online} = (2139 + 110) / (2139 + 110 + 56 + 14 + 446) = 81.34\%$$

$$\text{COMR Offline} = (914 + 84) / (914 + 84 + 25 + 6 + 533) = 63.89\%$$

Absorption rate indicates the quality of address lists of active panel members. This estimate is a proportion of noncontacts among the active panelists.

$$\text{Absorption Rate} = \frac{\text{Invitations sent - undeliverable invitations}}{\text{Invitations sent}}$$

$$\text{Overall Absorption Rate} = (4327-20)/4327 = 99.54\%$$

$$\text{Absorption Rate Online} = (2765-14)/2765 = 99.49\%$$

$$\text{Absorption Rate Offline} = (1562-6)/1562 = 99.62\%$$

Cumulative response rate (COMR) is obtained by multiplication of the recruitment rate, profile rate, and the completion rate for each wave. It is advisable to report this indicator when using the data from a single wave. The detailed information about the calculation of the recruitment rate and the profile rate is provided in the Appendix.

$$\text{Cumulative Response Rate 1 (CUMR1)} = \text{RECR} \times \text{PROR} \times \text{COMR}$$

$$\text{Overall CUMR1 Wave ac} = 0.2898 \times 0.7942 \times 0.7506 = 17.28\%$$

$$\text{CUMR1 Wave ac Online}^1 = 0.2898 \times 0.7878 \times 0.8134 = 18.57\%$$

$$\text{CUMR1 Wave ac Offline} = 0.2898 \times 0.8067 \times 0.6389 = 14.94\%$$

The break-off rate is a proportion of those who answered less than 50% of the substantial questions over those who started the interview (answered at least one question).

$$\text{Break-off rate} = \frac{\text{Break-off}}{\text{Interview} + \text{Partial} + \text{Break-off}} = 34/(3053+194+34) = 1.04\%$$

$$\text{Break-off rate Online} = 29/(2139+110+29) = 1.27\%$$

$$\text{Break-off rate Offline} = 5/(914+84+5) = 0.50\%$$

3. Post-Processing

3.1 Data Cleaning and Quality Control

Variable aczp002a indicates the mode in which the respondent answered the questionnaire. In general, paper questionnaires offer less guidance to respondents on how to answer a question than online questionnaires. This might even cause questions to be answered in an unintended manner and render the offline and online data incomparable. All responses marked as unclear by the field institute entering the data are thoroughly checked by the survey management of GESIS Panel. Any peculiarities are described and discussed in section 3.2.

¹ For calculations of the cumulative response rates by online and offline mode the recruitment rate is assumed to be equal for online and offline panelists as it cannot be split into modes since no information on Internet usage is available for non-respondents to the recruitment interview.

Sometimes a question is collected with more than one variable. An example in wave aa is the vote choice where respondents can provide their party choice or chose a "don't know" or "not applicable" option. For technical reasons the answer to this question is collected in two distinct variables. In such cases the GESIS Panel may generate a new variable that combines the information from more than one variable.

The longitudinal character of the panel requires special attention to data protection measures. Some variables might therefore require special security levels. These variables are discussed and listed in section 3.5.

3.2 Handling of Ambiguous Cases in the Paper Questionnaire

The paper questionnaires are entered manually by a field institute. Any problems and unclear responses are marked by the person entering the data and clarified afterwards by the responsible survey manager. This is done by reverting to the scanned paper questionnaires of the respondent.

The first group contains cases in which the person entering the data was uncertain of how to interpret the information provided by the respondent in the questionnaire. If one of two choices was clearly rendered invalid by the respondent, the data manager entered a valid response after consulting a second person. These cases are not considered as unclear responses and are not specially marked in the dataset. Single incidences of unclear responses occur in several questions throughout the survey. A typical example is when a respondent crossed two answer options and it is not clear which one was the final choice. These are marked as -111.

Overall, wave ac does not include any variables that are problematic in comparison from online to offline mode due to unintended response behavior.

3.3 Variables that are generated in the process of data cleaning

Table 3 lists the variables that were generated in the process of data cleaning.

Table 3 Overview of generated variables in wave ac

| Variable | Variable Label | Reason |
|----------|-----------------------|--|
| aczq016b | Anmerkungen, dichotom | Data protection: The text responses are not published but only a variable indicating whether the respondent left comments on the survey. |

3.4 Paradata

In general, paradata can be easily identified in the dataset by the third and fourth digit in the variable name zr. In general, more paradata are available in the online mode.

For the online mode, time stamps signify the time when a respondent pressed the forward button of a page.

3.5 Disclosure of Variables

Due to the low number of cases and the implied knowledge about the time of recruitment, the whole wave ac is only published in the secure scientific use file and can therefore only be accessed via the Secure Data Center at GESIS Data Archive in Cologne.

3.6 Miscellaneous

There is one error in a fully-labeled 5-point-scale in version 3 (variables acae042a-acae045a) and version 4 (variables acae046a- acae049a) of the offline questionnaire. Labels were intended to be "stimme voll zu", "stimme eher zu", "weder noch", "stimme eher nicht zu" "stimme überhaupt nicht zu" in version 3 and the reversed oder starting with "stimme überhaupt nicht zu" in version 4. Instead, in both versions category 2 and 4 were both labeled as "stimme eher zu".

Appendix

II. Outcome and Response Metrics

Table 5 Outcome Codes

| CAPI Recruitment | Overall | Online | Offline |
|---|---------|--------|---------|
| Initial Consent | 6210 | n/a | n/a |
| Cases directly and actively refusing | 10498 | n/a | n/a |
| Noncontacts | 1864 | n/a | n/a |
| Other eligible noninterview cases | 1104 | n/a | n/a |
| Unknown if housing unit | 247 | n/a | n/a |
| Unknown eligibility other | 1502 | n/a | n/a |
| <hr/> | | | |
| Profile (Welcome) Survey | Overall | Online | Offline |
| Profile survey Invited | 6210 | 3997 | 2213 |
| Invited including mode switch | 6210 | 4104 | 2106 |
| Profile survey Complete | 4875 | 3223 | 1652 |
| Profile survey Partial | 57 | 10 | 47 |
| Refusal to complete profile survey | 50 | 28 | 22 |
| Break-off (among refusal) | 20 | 6 | 14 |
| Profile survey noncontact (bouncer/retour) | 27 | 13 | 14 |
| Profile survey other | 1201 | 830 | 371 |
| <hr/> | | | |
| Single wave surveys | Overall | Online | Offline |
| Wave ac Invited | 4327 | 2765 | 1562 |
| Wave ac Complete | 3053 | 2139 | 914 |
| Wave ac Partial | 194 | 110 | 84 |
| Wave ac Refusal | 81 | 56 | 25 |
| Break-off (among refusal) | 34 | 29 | 5 |
| Wave ac Noncontact (bouncer/retour) | 20 | 14 | 6 |
| Wave ac Other | 979 | 446 | 533 |

Note: Complete response is defined as 80% and more of answered substantial questions. Partial response is defined as 50-80% of answered substantial questions. Break-off is defined as providing an answer to at least one substantial question and to less than 50% substantial questions. Refusal includes active (explicit) refusal and implicit refusal (leaving the questionnaire unanswered). Substantial questions are questions starting from the first question to up to the survey evaluation items (denoted as zq in codebooks).

Table 6 AAPOR Code scheme

| | |
|---|---------|
| Returned questionnaire | 1.0 |
| Complete | 1.1 |
| Partial or break-off with sufficient information | 1.2 |
| Eligible. Non-Interview | 2.0 |
| Refusal and Breakoff | 2.10 |
| Refusal | 2.11 |
| Other person refusal | 2.111 |
| Known respondent-level refusal | 2.112 |
| Explicit refusal | 2.1121 |
| Explicit refusal with incentive | 2.11211 |
| Explicit refusal no incentive | 2.11212 |
| Implicit refusal | 2.1122 |
| Logged on to survey. did not complete any items | 2.11221 |
| Blank questionnaire mailed back. „implicit refusal“ | 2.113 |
| Blank questionnaire with incentive returned | 2.1131 |
| Blank questionnaire with no incentive returned | 2.1132 |
| Break-off: questionnaire too incomplete to process/Break-off or partial with insufficient information | 2.12 |
| Non-contact | 2.20 |
| Notification that respondent was unavailable during field period | 2.26 |
| Completed questionnaire but not returned during field period | 2.27 |
| Other | 2.30 |
| Death (including Post: „Deceased“) | 2.31 |
| Physically or mentally unable/incompetent | 2.32 |
| Language | 2.33 |
| Respondent language problem | 2.332 |
| Miscellaneous | 2.36 |
| Unknown eligibility. non-interview | 3.0 |
| Not mailed / No invitation sent | 3.11 |
| Nothing ever returned | 3.19 |
| Post: No Mail Receptacle | 3.253 |
| Unknown whereabouts. mailing returned undelivered | 3.30 |
| Invitation returned undelivered (Email Bouncer) | 3.30 |
| Email Bouncer: Delivery problem | 3.3113 |
| Email Bouncer: Mailbox unknown | 3.3114 |
| Email Bouncer: Postbox full | 3.3115 |
| Email Bouncer: Spam-Filter | 3.3116 |
| Post: Undeliverable as addressed | 3.31 |
| Post: Attempted - Addressee not known at place of address | 3.311 |
| Postal box full | 3.3112 |
| Post: Moved. left no address | 3.32 |
| Returned with forwarding information | 3.40 |
| Other | 3.90 |

Note: estimate of eligible cases from the cases with unknown eligibility (e) is set to 1 for the calculation of response rates yielding no ineligible cases since the eligibility was determined during the recruitment interview.

Mannheim, 9. Dezember 2013

Einladung zu unserer Dezember-/Januar-Umfrage

Sehr geehrter Herr Mustermann,

herzlichen Dank für Ihre Teilnahme am GESIS GesellschaftsMonitor. Wie bereits angekündigt führen wir alle zwei Monate eine Umfrage durch.

Heute möchten wir Sie gerne einladen, an unserer aktuellen **Dezember-/Januar-Umfrage** teilzunehmen. Die Beantwortung der Fragen wird etwa 20 Minuten in Anspruch nehmen. Bitte schicken Sie uns den ausgefüllten Fragebogen wieder mit dem beiliegenden frankierten Rückumschlag zu.

Wir wünschen Ihnen viel Spaß beim Ausfüllen der Umfrage und möchten uns wieder mit 5 Euro für Ihre Teilnahme bedanken. **Nachdem wir den beantworteten Fragebogen erhalten haben, werden die 5 Euro auf Ihrem bei uns angelegten Guthabenkonto gutgeschrieben.** Sie können telefonisch jederzeit unser Auszahlungsformular anfordern, das wir Ihnen dann umgehend zusenden. Wenn Sie uns das Formular – natürlich kostenfrei – zurückgeschickt haben, werden wir Ihr Guthaben zum Jahreswechsel und danach halbjährlich überweisen.

In keinem Fall werden Daten weitergegeben, die Ihre Person erkennen lassen. Weitere Informationen zum Datenschutz finden Sie auf der Rückseite dieses Briefs.

Bei Rückfragen erreichen Sie uns telefonisch zu den üblichen Bürozeiten unter 0621-1246564 oder per E-Mail an info@gesis-gesellschaftsmonitor.de. Wir freuen uns über Ihr Interesse und beantworten gerne alle Fragen.

Mit freundlichen Grüßen

Erklärung zum Datenschutz und zur absoluten Vertraulichkeit Ihrer Angaben bei dem GESIS GesellschaftsMonitor

GESIS – Leibniz-Institut für Sozialwissenschaften arbeitet nach den Vorschriften des Bundesdatenschutzgesetzes (BDSG) und allen anderen anwendbaren datenschutzrechtlichen Bestimmungen.

Das gilt auch für die Wiederholungsbefragungen beim GESIS GesellschaftsMonitor, wo es wichtig ist, mehrere Befragungen mit derselben Person durchzuführen und die statistische Auswertung so vorzunehmen, dass die Angaben aus mehreren Befragungen durch eine Code-Nummer miteinander verknüpft werden. Auch hier gilt:

Es gibt keine Weitergabe von Daten, die Ihre Person erkennen lassen.

Die Ergebnisse werden – genauso wie bei Einmalbefragungen – ausschließlich **in anonymisierter Form** dargestellt. Das bedeutet: Niemand kann aus den Ergebnissen erkennen, von welcher Person die Angaben gemacht worden sind.

Die Teilnahme am GESIS GesellschaftsMonitor ist freiwillig. Erhaltene Aufwandsentschädigungen sind keine Bezahlung, sondern ein Dankeschön für die gegebene Unterstützung der wissenschaftlichen Forschung. Sie gehen damit keine Verpflichtung für weitere Befragungen ein. Die Beendigung bzw. das Abbrechen der Teilnahme ist jederzeit möglich und mit keinen Nachteilen verbunden. Um nicht mehr teilzunehmen, bedarf es keiner Kündigung.

Nach der Teilnahme an einer Befragung werden die Antworten in einer Datenbank gespeichert und zwar getrennt von den personenbezogenen Daten. Die Ergebnisse der Studie werden dann zu Forschungszwecken beispielsweise in Tabellen und Grafiken zusammengefasst. Das heißt, niemand erfährt, welche Antworten Sie persönlich gegeben haben.

Da es sich beim GESIS GesellschaftsMonitor um mehrere Befragungen handelt (Wiederholungsbefragungen), werden Befragungen durch eine Code-Nummer miteinander verknüpft. Ergebnisse werden nur **in anonymisierter Form** dargestellt. Niemand kann aus den Ergebnissen erkennen, von welcher Person die Angaben gemacht worden sind.

Für die Einhaltung der Datenschutzbestimmungen ist verantwortlich:

b. Invitation send by Email

Sehr geehrte/r Frau/ Herr ,

herzlichen Dank für Ihre Teilnahme am GESIS GesellschaftsMonitor. Wie bereits angekündigt führen wir alle zwei Monate eine Umfrage durch.

Heute möchten wir Sie gerne einladen, an unserer aktuellen Befragung teilzunehmen. Über diesen Link kommen Sie direkt zu unserer Dezember-/Januar-Umfrage 2013/14:

<https://www.gesis-gesellschaftsmonitor.de/> CODE

Wir wünschen Ihnen viel Spaß beim Ausfüllen der Umfrage. Die Beantwortung der Fragen wird etwa 20 Minuten in Anspruch nehmen. Wir möchten uns wieder mit 5 Euro für Ihre Teilnahme bedanken, die wir auf Ihrem Guthabenkonto gutschreiben.

Mit Ihren Zugangsdaten können Sie sich in unserem Portal auf www.gesis-gesellschaftsmonitor.de anmelden. Dort können Sie

- die aktuelle Umfrage aufrufen,
- den Stand Ihres Guthabenkontos einsehen und
- Ihr Guthaben auszahlen lassen.

Bei Rückfragen erreichen Sie uns telefonisch zu den üblichen Bürozeiten unter 0621-1246564 oder per E-Mail an info@gesis-gesellschaftsmonitor.de. Wir freuen uns über Ihr Interesse und beantworten gerne alle Fragen.

Mit herzlichen Grüßen aus Mannheim,

Ihr GESIS GesellschaftsMonitor Team

Hinweis zum Datenschutz:

In keinem Fall werden Daten weitergegeben, die Ihre Person erkennen lassen. Niemand kann aus den Auswertungen der Daten Rückschlüsse darauf ziehen, von welcher Person die Angaben gemacht worden sind. Weitere Informationen zum Datenschutz finden Sie hier:
