EVS 1999 Bilingual Documentation Great Britain

English-Original documentation of the data release 2012/12/28

Related to the national dataset

Archive-Study-No. ZA3777, Version: 3.0.1, doi:10.4232/1.11535

*European Values Study and
GESIS Data Archive for the Social Sciences*

Introduction

The present bilingual variable documentation is a supplement to the English Variable Report published for the national dataset.

The English Variable Report not only includes an extensive description of the data on study and variable level, but also contains frequency counts for almost all variables. It can be accessed through the GESIS Data Catalogue (<http://gesis.org/data-catalogue/>) and ZACAT-Online Study Catalogue (<http://zacat.gesis.org/>).

Bilingual Variable Documentation eases the work process by offering a direct comparison of questions as in English Master Questionnaire on one side, and language versions in field questionnaire on the other. What is more, for comparative analyses users can easily access this type of documentation provided for all participating countries. By this, exploration of communalities and differences in question wording across countries/cultural contexts is supported.

An overview of available documentation accessible for all countries can be found on the EVS website: <http://www.europeanvaluesstudy.eu/evs/surveys/survey-1999-2000/participatingcountries/>

The graphic below shows countries sharing one or more languages in the blue boxes. Languages marked red show shared languages.

Languages fielded in EVS 1999

Integrated Dataset English Master Questionnaire						
Austria German	Belarus Russian	Belgium Flemish/Dutch French	Bulgaria Bulgarian	Croatia Croatian	Czech Republic Czech	Denmark Danish
Estonia Estonian Russian	Finland Finnish	France French	Germany German	Great Britain English	Greece Greek	Hungary Hungarian
Iceland Icelandic	Ireland English	Italy Italian	Latvia Latvian Russian	Lithuania Lithuanian	Luxembourg Luxembourgish French	Malta Maltese
Netherlands Dutch	Northern Ireland English	Poland Polish	Portugal Portuguese	Romania Romanian	Portuguese	Russian Russian
Slovenia Slovenian	Spain Spanish	Sweden Swedish	Slovak Republic Slovak	Turkey Turkish	Ukraine Ukrainian Russian	

Comparisons between countries and language versions can be extended to the EVS 2008 for which bilingual documentation of national datasets is also available through the Data Catalogue and ZACAT.

Additionally, the [Online Variable Overview](#), which also allows for identification of trend variables across EVS waves (1981, 1990, 1999, and 2008), is provided by the GESIS Data Archive.

Citation

Publications based on EVS data should acknowledge this by means of bibliographic citations. To ensure that such source attributions are captured for social science bibliographic utilities, citations must appear in the footnotes or in the reference section of publications.

Explanation of Bilingual Variable Documentation

In the following pages, the English/original language documentation is provided.

The left part of the page depicts the variable documentation according to the English Master Questionnaire. It displays question number and text, response categories and missing values, additional notes referring to data, as well as applied standards, information on coding and harmonized variables.

On the right hand side, variables are documented in the original language fielded in given country. Question number and text, as well as response categories and missing values are displayed in original (fielded) language(s). Notes on this side refer to deviations between master and field questionnaire, translation problems, typing errors, and references to original country-specific variables. Besides, a standard note is added concerning the recoding and documentation of missing values in the national datasets.

version - GESIS archive version

GESIS Archive Version:

3.0.1 '2012-12-28'

This variable identifies the GESIS archive version number of this data set and the corresponding release date, recorded as an alphanumeric string. The version number is composed of a sequence of three numbers. The major number is incremented when there are changes in the composition of the data set (e.g. additional variables or cases) , the minor or second number is incremented when significant errors have been fixed (e.g. coding errors, misleading value labels) , and the third or revision number is incremented when minor bugs are fixed (e.g. spelling errors in variable or value labels) .

V1 - how important in your life: work (Q1A)

Q.1

<Show card 1>

Please say, for each of the following, how important it is in your life.

Q.1A Work

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 1 very important
- 2 quite important
- 3 not important
- 4 not at all important

how important in your life: work (Q1A)

Q.1

<Show card A>

Please say, for each of the following, how important it is in your life.

Q.1A Work

- 3 not applicable
- 2 no answer
- 1 don't know
- 1 very important
- 2 quite important
- 3 not important
- 4 not at all important

Missing values from field questionnaire were recoded into -1 to -5 in the datasets. Since the original language documentation was developed in cooperation between the participating countries, CEPS/Instead Luxembourg, and GESIS Data Archive, Cologne, the documentation of the missing values may differ from country to country. For some countries missing values have been adopted and translated directly from data, for others they were documented according to the respective field questionnaires.

CARD 1

- 1- Very important
- 2- Quite important

Q.5b __P None

0 not mentioned

1 mentioned

CARD 5

- A- Social welfare services for elderly, handicapped or deprived people
- B- Religious or church organisations
- C- Education, arts, music or cultural activities
- D- Trade unions
- E- Political parties or groups
- F- Local community action on issues like poverty, employment, housing, racial equality
- G- Third world development or human rights
- H- Conservation, the environment, ecology, animal rights
- I- Professional associations
- J- Youth work (e.g. scouts, guides, youth clubs etc.)
- K- Sports or recreation
- L- Women's groups
- M- Peace movement
- N- Voluntary organisations concerned with health
- O- Other groups

V48 - how often spend time with friends (Q6A)

Q.6

<Show card 6>

I'm going to ask how often you do certain things. For each activity, would you say you do them every week or nearly every week; once or twice a month; only a few times a year; or not at all?

Q.6A Spend time with friends

- 5 other missing
- 4 question not asked
- 2 no answer
- 1 don't know
- 1 every week
- 2 once or twice a month
- 3 a few times a year
- 4 not at all

how often spend time with friends (Q6A)

Q.6

<Show card D>

I'm going to ask how often you do certain things. Giving an answer from this card please tell me how often you do each.

<Interviewer: Code 'Not applicable' when respondent is not involved in the activity at all>

Q.6A Spend time with friends

- 3 not applicable
- 2 no answer
- 1 don't know
- 1 every week
- 2 once or twice a month
- 3 a few times a year
- 4 not at all

Missing values from field questionnaire were recoded into -1 to -5 in the datasets. Since the original language documentation was developed in cooperation between the participating countries, CEPS/Insead Luxembourg, and GESIS Data Archive, Cologne, the documentation of the missing values may differ from country to country. For some countries missing values have been adopted and translated directly from data, for others they were documented according to the respective field questionnaires.

CARD 6

- 1- every week or nearly every week
- 2- once or twice a month
- 3- only a few times a year
- 4- not at all

V49 - how often spend time with colleagues (Q6B)

Q.6

<Show card 6>

I'm going to ask how often you do certain things. For each activity, would you say you do them every week or nearly every week; once or twice a month; only a few times a year; or not at all?

<Interviewer: Code 'Not applicable' when respondent is not involved in work, church or club>

Q.6B Spend time with colleagues from work or your profession outside the workplace

- 5 other missing
- 4 question not asked
- 3 not applicable
- 2 no answer
- 1 don't know
- 1 every week
- 2 once or twice a month
- 3 a few times a year
- 4 not at all

Because filter rules may differ between countries v49 __filt was constructed correcting for inconsistencies.

how often spend time with colleagues (Q6B)

Q.6

<Show card D>

I'm going to ask how often you do certain things. Giving an answer from this card please tell me how often you do each.

<Interviewer: Code 'Not applicable' when respondent is not involved in the activity at all>

Q.6B Spend time with colleagues from work or your profession outside the workplace

- 3 not applicable
- 2 no answer
- 1 don't know
- 1 every week
- 2 once or twice a month
- 3 a few times a year
- 4 not at all

Missing values from field questionnaire were recoded into -1 to -5 in the datasets. Since the original language documentation was developed in cooperation between the participating countries, CEPS/Instead Luxembourg, and GESIS Data Archive, Cologne, the documentation of the missing values may differ from country to country. For some countries missing values have been adopted and translated directly from data, for others they were documented according to the respective field questionnaires.

Now I'd like you to look at this card. I'm going to read out some different forms of political action that people can take, and I'd like you to tell me, for each one, whether you have actually done any of these things, whether you might do it or would never, under any circumstances, do it.

Q.51A Signing a petition

- 3 not applicable
- 2 no answer
- 1 don't know
- 1 have done
- 2 might do
- 3 would never do

Missing values from field questionnaire were recoded into -1 to -5 in the datasets. Since the original language documentation was developed in cooperation between the participating countries, CEPS/Instead Luxembourg, and GESIS Data Archive, Cologne, the documentation of the missing values may differ from country to country. For some countries missing values have been adopted and translated directly from data, for others they were documented according to the respective field questionnaires.

CARD 51

- A- Signing a petition
- B- Joining in boycotts
- C- Attending lawful demonstrations
- D- Joining unofficial strikes
- E- Occupying buildings or factories

- 1- Have done
- 2- Might do
- 3- Would never do

V180 - political action: joining in boycotts (Q51B)

Q.54G

<Show card F>

Now I'd like you to tell me your views on various issues. How would you place your views on this scale?

<Read out 1= and 10= as shown below FOR EACH QUESTION>

-3 not applicable

-2 no answer

-1 don't know

1 Each individual should be responsible for arranging his or her own pension

2

3

4

5

6

7

8

9

10 The state should be responsible for everyone's pension

Missing values from field questionnaire were recoded into -1 to -5 in the datasets. Since the original language documentation was developed in cooperation between the participating countries, CEPS/Institute for Social Research, Luxembourg, and GESIS Data Archive, Cologne, the documentation of the missing values may differ from country to country. For some countries missing values have been adopted and translated directly from data, for others they were documented according to the respective field questionnaires.

CARD 54

A	1	2	3	4	5	6	7	8	9	10
	Individuals should take more responsibility for providing for themselves					The state should take more responsibility to ensure that everyone is provided for				
B	1	2	3	4	5	6	7	8	9	10
	People who are unemployed should have to take any job available or lose their unemployment benefits					People who are unemployed should have the right to refuse a job they do not want				
C	1	2	3	4	5	6	7	8	9	10
	Competition is good. It stimulates people to work hard and develop new ideas					Competition is harmful. It brings out the worst in people				
D	1	2	3	4	5	6	7	8	9	10
	The state should give more freedom to firms					The state should control firms more effectively

how much confidence in: armed forces (Q58B)

Q.58

<Show card V>

Please look at this card and tell me, for each item I read out, how much confidence you have in them...

Q.58B The armed forces

-3 not applicable

-2 no answer

-1 don't know

1 a great deal

2 quite a lot

3 not very much

4 none at all

Missing values from field questionnaire were recoded into -1 to -5 in the datasets. Since the original language documentation was developed in cooperation between the participating countries, CEPS/Instead Luxembourg, and GESIS Data Archive, Cologne, the documentation of the missing values may differ from country to country. For some countries missing values have been adopted and translated directly from data, for others they were documented according to the respective field questionnaires.

People have different views about the system for governing this country. Here is a scale for rating how well things are going

<Read out: 1=Very bad; 10=Very good>

-3 not applicable

-2 no answer

-1 don't know

1 bad

2

3

4

5

6

7

8

9

10 very good

Note:

Note in GB questionnaire, inconsistency between interviewer instruction, which states 1='very bad', and value label for 1 in questionnaire, which gives only 'bad' for label 1. NB interview cards not available, so it is not possible to say whether the card shown to respondents gave 'very bad' or 'bad' for point 1 on the scale.

Missing values from field questionnaire were recoded into -1 to -5 in the datasets. Since the original language documentation was developed in cooperation between the participating countries, CEPS/Instead Luxembourg, and GESIS Data Archive, Cologne, the documentation of the missing values may differ from country to country. For some countries missing values have been adopted and

translated directly from data, for others they were documented according to the respective field questionnaires.

 Standardized country-specific variable containing country ISO 3166-1 identifier (CCC) and country-specific categories (political parties) .

Due to different filter structure on v256 respondents who did not name a party (v256=-2) have also been asked v257.

Missing values from field questionnaire were recoded into -1 to -5 in the datasets. Since the original language documentation was developed in cooperation between the participating countries, CEPS/Institute Luxembourg, and GESIS Data Archive, Cologne, the documentation of the missing values may differ from country to country. For some countries missing values have been adopted and translated directly from data, for others they were documented according to the respective field questionnaires.

4 separated

5 never married

6 cohabiting

7 single

Note:

Response categories 6 and 7 were not included in Master Questionnaire but in several national data sets. Thus, for the integrated data set these additional response categories were adopted.

Due to the additional filter on v294 none of the respondents with v293=1 and v294=1 has been asked v296; hence, for these respondents the legal marital status has been inferred from v294 (if (v294=1 and v296=-3) v296=1) .

current legal marital status respondent (Q89)

Q.89

What is your current legal marital status?

<if "divorced" or "never married"- go to Q.91>

-3 not applicable

-2 no answer

-1 don't know

1 married

2 widowed

3 divorced

4 separated

5 never married

Note:

Slightly different response options in GB questionnaire

Missing values from field questionnaire were recoded into -1 to -5 in the datasets. Since the original language documentation was developed in cooperation between the participating countries, CEPS/Insead Luxembourg, and GESIS Data Archive, Cologne, the documentation of the missing values may differ from country to country. For some countries missing values have been adopted and translated directly from data, for others they were documented according to the respective field questionnaires.
