ISSP Background Variable Documentation

Please name the **ISSP module** which the documentation refers to (e.g., "*Work Orientations III / ISSP2005*"):

Social Inequality IV / ISSP 2009

Please name your **country**:

Slovak Republic

General remark: The 2009 ISSP module was administered together with the 2010 module. Therefore the new 2010 specification for background variables was used, from which the 2009 BG variables, required for the 2009 module, were derived. *In the case of the BG variable SPWRKTYP this is not fully possible (due to missing state / private employer distinction).*

SPISCO88 – S-P: Occupation ISCO

Please give the text of the source question(s) on the spouse's occupation used in your field questionnaire. If ISCO88-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO88 codes *attached as a separate file.* Please report which kind of ISCO code you apply. The most common ones are the code developed by the International Labour Organisation (ILO) and the variant developed for the European Union (EU), ISCO-COM. If you apply another variant such as ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, then please specify.

Please do **not** enter **standard** ISCO88 codes here. But please report if your country **adds** or **changes** codes compared to ISCO88, if any.
