ISSP 2015 Iceland

ISSP Background Variable Documentation

by

Markus Quandt, Evi Scholz and Insa Bechert GESIS

on behalf of the

ISSP Demographics Method Group

(Germany, Mexico, Norway, the Philippines, South Africa, Spain, Sweden, Switzerland, Taiwan, and the Archive)

Users of the international ISSP data file should have all relevant information to understand the construction of the ISSP background variables. Thus, the ISSP has decided to provide a documentation of its background variables and to regularly update this documentation (decisions of the ISSP General Meetings in 2005 and 2006). The information collected with this document will be published with the ISSP data files. Furthermore, it will help to discuss and decide on streamlining the ISSP background variables.

The Demographics Method Group asks you to provide information on all your ISSP background variables. The document at hand serves to collect and structure this information from ISSP members in a template.

Please note that, due to changes in the ISSP Background Variables, there are different versions of documentation templates to use, related to the respective ISSP study under consideration. The template at hand serves to document your national **ISSP 2011 and 2012** surveys.

The document consists of three sections: Section 1 of this documentation refers to basic elements: source description, information on filters and routing, and construction information. In section 2, as an example, we present the relevant information for the variable UNION (Trade union membership) from Germany. Section 3 finally offers the documentation template for all ISSP background variables valid for the ISSP modules 2011 and 2012.

If you have any questions on the documentation, please do not hesitate to contact us:

isspservice@gesis.org

1. Basic Elements

For each of the variables listed in section 3 below, please give the following information as applicable.

❖ Source description

- Please give the **question no./position/name(s)** used in your field questionnaire and report additional information sources, for example, if interviewer observation was used instead of asking questions to respondents. If your ISSP is run with a larger survey and the background variable is taken from this survey, then refer to that (those) source question(s). Please make a **note** from which survey the question(s)/variable(s) come(s) (see below).
- Please give the text of the **original question(s)** exactly as used in your field questionnaire and **in your national language**.
 - Please include all **response categories** of the original field questionnaire.

- Please give **interviewer instructions** if necessary to understand the generation of response codes.
- Please **translate original questions, response categories and interviewer instructions** into English.
- Please provide **notes** if needed. Notes can address both possible translation issues (**translation note**) and country specific particularities of question background, of variable generation or of the meaning of individual response categories (**note**).
- ❖ **Filter Variables and Conditions:** If any variables cover only part of the sample, please list the conditions (questions/variables and categories/codes) used to define the *excluded cases*. In other words, report the conditions which lead to a ‘not applicable’ code in the variable following the filter.
- ❖ **Construction/Recoding**
 - Please report how the codes of the ISSP target variable were derived from your source data.
 - Please use a table of correspondence with source and target codes (see the example in section 2 and tables in section 3).
 - If construction of ISSP target codes involves more than simple 1-1 relationships between source and target codes, please use roughly Boolean syntax as shown in the example 2 below. Command syntax of common statistics programs is also welcome. Just put the syntax used into the “Optional: Recoding Syntax” box if you consider that it will increase comprehensibility and transparency.
 - Please always (also for country specific variables) report how the ISSP missing values (not applicable-NAP, no answer-NA, don’t know-DK) were filled.
- ❖ **Complementary information (see last page)**
 - Please provide the part(s) of your country questionnaire that relate(s) to the background variables reported in this template. If these variables are already covered by your country’s field questionnaire delivered with your national ISSP data file, then just tick the box on the last page of this document. (PDF or MS Word format preferred.)
 - Please also supply frequency tables with absolute and relative frequencies, missing values *included*, for **all source** variables. *Source variables* are the country-specific variables **before** recodes into ISSP standard variables are done. (MS Word or simple ASCII file preferred.)
 - If your country derives ISCO88 codes from a national occupation coding scheme, please supply a correspondence list of national codes and ISCO88 codes. (MS Word or simple ASCII file preferred.)

2. Example

The German example for the variable UNION is constructed from two variables referring to two questions in the German field questionnaire.

UNION – Trade union membership

	National Language	English Translation
<i>Question no. and text</i>	#1 Darf ich Sie fragen, ob Sie derzeit Mitglied in einer Gewerkschaft sind?	#1 May I ask you whether you are currently a member of a trade union?
<i>Codes/ Categories</i>	1. Ja, bin Mitglied	1. Yes, I am member
	2. Nein, bin kein Mitglied	2. No, I am not member
	9. Keine Angabe*	9. No answer*
	0. Nein, Befragter will Frage nicht beantworten*	0. Respondent refuses to answer*
<i>Question no. and text</i>	#2 Waren Sie früher einmal Mitglied in einer Gewerkschaft?	#2 Were you once a member of a trade union?
<i>Codes/ Categories</i>	1. Ja	1. Yes
	2. Nein	2. No
	8. Weiß nicht	8. Don't know
	9. Keine Angabe*	9. No answer*
<i>Note</i>	Falls Befragter aktuell kein Gewerkschaftsmitglied ist; „nein“ in #1	If respondent not currently union member; no in #1
<i>Interviewer Instructions</i>	—	
<i>Translation Note</i>	—	
<i>Note</i>	Current and former union membership taken from ALLBUS 2010 Answer categories marked by an asterisk are not read aloud.	

Filter Variable(s) and Conditions:

Former membership (#2) not asked if respondent currently member (#1=1)
--

Construction/Recoding:

Country Variable Codes/ Construction Rules	→UNION
If (#1=1)	1. Yes, currently
If (#2=1)	2. Yes, previously but not currently
If (#1=2 and #2=2)	3. No, never

If (#1=0)	7. Refused
Else	9. No answer

3. Variable List

In the following you will find forms to ease documentation of the points described in section 1 above.

Some Hints to Fill in the Forms

- Please fill in the forms on the screen and return the file to <isspservice@gesis.org> – please do *not* return a printout using paper and pencil!
- In general, please feel free to be flexible in using the forms. If necessary adopt them to your reporting needs. In particular:
 - Please insert as many additional fields as needed, e.g. add lines if your country variable has more categories than the template provides.
 - Please skip fields not needed, e.g. skip ‘note’ lines if no note is required.
 - If individual response categories require separate notes, insert as many additional lines as necessary *below* the respective category.
 - If your field questionnaire has more than one language version, please replicate the complete ‘National Language - English Translation/Note’ block as often as needed.
- The question numbers should refer to the numbers of your original field questionnaire.
- For variables with continuous data (AGE, WRKHRS...), please list the lowest and the highest valid codes empirically found in your country’s data and the various non-response codes, e.g. NAP (not applicable), DK (don’t know); if additional non-response codes occur in your data, such as ‘refused’, please add.
- If source variables are relevant for *several* ISSP target variables, please copy the information for the source variables each time to offer a complete documentation of the individual ISSP target variable.

Please name the **ISSP module** which the documentation refers to (e.g., “*Health and Health Care / ISSP2011*”):

Family and Gender Roles / ISSP 2012

Please name your **country**:

ICELAND

SEX - Sex of respondent

	National Language	English Translation
<i>Question no. and text</i>	Sp.56 Kyn svaranda	Sp.56 Sex of respondent
<i>Codes/ Categories</i>	1. Karl	1. Male
	2. Kona	2. Female
<i>Interviewer Instruction</i>	Ekki spyrja, merkja sjálfir við	Don't ask, label it yourself.
<i>Translation Note</i>		
<i>Note</i>	In the web survey the text was: Hvert er kyn þitt (e. what is your sex)	

Construction/Recoding:

Country Variable Codes (in translation)	→ SEX
1.	1. Male
2.	2. Female
Not used	9. No answer

BIRTH – Year of birth

This question can be asked as an alternative to asking about AGE. If BIRTH is not asked directly, it must be computed by DATEYR ‘year of interview’ minus AGE ‘age of respondent’.

	National Language	English Translation
<i>Question no. and text</i>	Sp.57 Hvaða ár ert þú fædd(ur)?	Sp.57 What year are you born?
<i>Codes/ Categories</i>		
<i>Interviewer Instruction</i>	Ritaðu fullt ártal, þ.e. fjóra tölustafi. Ef viðmælandi vill ekki svara skrifið þá 9999	Write a full date, that is four numbers. If the respondent doesn't want to answer write 9999.
<i>Translation Note</i>		
<i>Note</i>	In the web survey there was no interviewer instruction but this additional text: Please write a full date, that is four numbers. If you don't want to answer write 9999.	

Construction/Recoding: (list lowest, highest, and ‘missing’ codes only, replace terms in [square brackets] with real numbers)

	Country Variable Codes/Construction Rules	→BIRTH
<i>Construction</i>		
<i>Codes</i>	1920	[1920]
	1998	[1998]
	9999.	9999. No answer

Optional: Recoding Syntax

--

AGE - Age of respondent

This question can be asked as an alternative to asking about BIRTH. If AGE is not asked directly, it must be computed by DATEYR ‘year of interview’ minus BIRTH ‘year of birth’.

	National Language	English Translation
<i>Question no. and text</i>	Sp.57 Hvaða ár ert þú fædd(ur)?	Sp.57 What year are you born?
<i>Codes/ Categories</i>		
<i>Interviewer Instruction</i>	Ritaðu fullt ártal, þ.e. fjóra tölustafi. Ef viðmælandi vill ekki svara skrifið þá 9999	Write a full date, that is four numbers. If the respondent doesn't want to answer write 9999.
<i>Translation Note</i>		
<i>Note</i>	This question was not asked but computed by DATEYR minus BIRTH.	

Construction/Recoding: (list lowest, highest, and ‘missing’ codes only, replace terms in [square brackets] with real numbers)

	Country Variable Codes/Construction Rules	→AGE
<i>Construction</i>		
<i>Codes</i>	1998	[15]
	1920	[93]
	9999	999. No answer

Optional: Recoding Syntax

Compute AGE=DATEYR-BIRTH

EDUCYRS - Education I: years of schooling

	National Language	English Translation
<i>Question no. and text</i>	Sp.58 #1 Hversu mörgum árum hefur þú lokið í skóla? Þá er átt við öll ár í grunnskóla, framhaldsskóla, háskóla og í fullu starfsnámi. Teldu saman ígildi ára, þar með talið skyldunám. Þannig væru tvö ár í hálfu námi ígildi eins árs í fullu námi.	Sp.58 #1 How many years of school have you finished? Consider all years in elementary school, secondary school, higher education and apprenticeship. Count the years, including compulsory education. Two years of a half study program equals on year of a full study program.
<i>Codes/ Categories</i>	1. Fjöldi ára	1. Number of years
	0. Ég hef aldrei gengið í skóla	0. I have never been to school
	98. Veit ekki 99. Vil ekki svara	98. Don't know 99. Refuse to answer
<i>Interviewer Instruction</i>	Námundaðu svarið upp eða niður til næstu heilu tölu fyrir ár.	Round the answer up or down to a whole number for years.
	Spyrjið áfram eftir að árafjöldi hefur verið gefinn upp.	Continue asking when respondent has given the number of years
<i>Translation Note</i>		
<i>Note</i>		
<i>Question no. and text</i>	Sp.58 #2 Ert þú ennþá í námi?	Sp.58 #2 Are you still in school?
<i>Codes/ Categories</i>	95. Ég er enn í grunnskóla	95. I'm still in elementary school
	96. Ég er enn í menntaskóla, háskóla eða starfsnámi	96. I'm still in secondary school, higher education or apprenticeship.
<i>Interviewer Instruction</i>	Ef enn í námi þá þarf spyrill að ýta: Ertu í grunnskóla, framhaldsskóla, háskóla eða starfsnámi	If still in school then the interviewer has to follow up: Are you in elementary school, secondary school, higher education or in apprenticeship
<i>Translation Note</i>		
<i>Note</i>		

Filter Variable(s) and Conditions:

--

Country Variable Codes/Construction Rules	→ EDUCYRS
0. Ég hef aldrei gengið í skóla	0. No formal schooling, no years at school
If Sp.58 #1_1=1	1. One year
If Sp.58 #1_1=2	2. Years
	...
98.	98. Don't know
99.	99. No answer

SUBSCASE – Case substitution flag

	National Language	English Translation
<i>Question no. and text</i>	No question	No question
<i>Codes/ Categories</i>	No substitution in this survey	No substitution in this survey
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>		

Filter Variable(s) and Conditions:

--

Construction/Recoding:

Country Variable Codes/Construction Rules	→ SUBSCASE
	0. NAP, no substitution in this survey
	1. Case from original sample
	2. Case substituted

Optional: Recoding Syntax

--

WEIGHT – Weighting factor

Please report on whether you calculate any weighting variables. If you adjust for non-response bias, please enter the variable(s) on which the sample's distribution(s) is (are) adjusted to the population distribution(s). Please, also report if you apply any kind of rescaling.

<i>Design weight to adjust for unequal selection probabilities</i>	No	[x]
	Yes	[]
<i>Weight to adjust for non-response bias</i>	No	[]
	Yes	[x] → please specify variables used for calculation of weight Gender, Age, IS_REG
<i>Are the final weights rescaled to net sample size (thus weighted sample size=unweighted sample size)?</i>	No	[] → please specify target population represented by sum of all case weights _____
	Yes	[x]
<i>Note</i>

Not used	33. SC, mailed to, completed by R and hold for pick up
Not used	34. SC, mailed to, mailed back by R
40. CASI, self-completion, computer-assisted	40. CASI, self-completion, computer-assisted

4. Country Questionnaire

Please provide the part(s) of your country questionnaire that relate(s) to the background variables reported in this template. If these variables are already covered by your country's field questionnaire delivered with your national ISSP data file, then just tick on the last page of this document. (PDF or MS Word format preferred.)

Already included in field questionnaire provided with the country data file.

Attached file: XXXXX.XXX

5. Frequency Distributions of Source Variables

Please supply frequency distributions with absolute and relative frequencies, missing values *included*, for **all** source variables. *Source variables* are the country-specific variables **before** recodes into ISSP standard variables are done. (MS Word or simple ASCII file preferred.)

Attached file: YYYYYY.YYY.

6. Correspondence list ISCO88<->national occupation codes

If your country derives ISCO88 codes from a national occupation coding scheme, please supply a correspondence list of national codes and ISCO88 codes. (MS Word or simple ASCII file preferred.)

ISCO88 is used to code responses directly.

Conversion of national coding scheme to ISCO88. Attached file: ZZZZZZ.ZZZ.
