# ISSP Background Variable Documentation

by

Markus Quandt, Evi Scholz and Insa Bechert GESIS

on behalf of the

ISSP Demographics Method Group

(Germany, Mexico, Norway, the Philippines, South Africa, Spain, Sweden, Switzerland, Taiwan, and the Archive)

Users of the international ISSP data file should have all relevant information to understand the construction of the ISSP background variables. Thus, the ISSP has decided to provide a documentation of its background variables and to regularly update this documentation (decisions of the ISSP General Meetings in 2005 and 2006). The information collected with this document will be published with the ISSP data files. Furthermore, it will help to discuss and decide on streamlining the ISSP background variables.

The Demographics Method Group asks you to provide information on all your ISSP background variables. The document at hand serves to collect and structure this information from ISSP members in a template.

Please note that, due to changes in the ISSP Background Variables, there are different versions of documentation templates to use, related to the respective ISSP study under consideration. The template at hand serves to document your national **ISSP** survey.

The document consists of three sections: Section 1 of this documentation refers to basic elements: source description, information on filters and routing, and construction information. In section 2, as an example, we present the relevant information for the variable UNION (Trade union membership) from Germany. Section 3 finally offers the documentation template for all ISSP background variables valid from the ISSP module 2013 onwards.

If you have any questions on the documentation, please do not hesitate to contact us:

isspservice@gesis.org

## 1. Basic Elements

For each of the variables listed in section 3 below, please give the following information as applicable.

### ❖ Source description

- Please give the **question no./position/name(s)** used in your field questionnaire and report additional information sources, for example, if interviewer observation was used instead of asking questions to respondents. If your ISSP is run with a larger survey and the background variable is taken from this survey, then refer to that (those) source question(s). Please make a **note** from which survey the question(s)/variable(s) come(s) (see below).
- Please give the text of the **original question(s)** exactly as used in your field questionnaire and **in your national language**.
  - Please include all **response categories** of the original field questionnaire.

- Please give **interviewer instructions** if necessary to understand the generation of response codes.
- Please **translate original questions, response categories and interviewer instructions** into English.
- Please provide **notes** if needed. Notes can address both possible translation issues (**translation note**) and country specific particularities of question background, of variable generation or of the meaning of individual response categories (**note**).
- ❖ **Filter Variables and Conditions:** If any variables cover only part of the sample, please list the conditions (questions/variables and categories/codes) used to define the *excluded cases*. In other words, report the conditions which lead to a ‘not applicable’ code in the variable following the filter.
- ❖ **Construction/Recoding**
  - Please report how the codes of the ISSP target variable were derived from your source data.
  - Please use a table of correspondence with source and target codes (see the example in section 2 and tables in section 3).
  - If construction of ISSP target codes involves more than simple 1-1 relationships between source and target codes, please use roughly Boolean syntax as shown in the example 2 below. Command syntax of common statistics programs is also welcome. Just put the syntax used into the “Optional: Recoding Syntax” box if you consider that it will increase comprehensibility and transparency.
  - Please always (also for country specific variables) report how the ISSP missing values (not applicable-NAP, no answer-NA, don’t know-DK) were filled.
- ❖ **Complementary information (see last page)**
  - Please provide the part(s) of your country questionnaire that relate(s) to the background variables reported in this template. If these variables are already covered by your country’s field questionnaire delivered with your national ISSP data file, then just tick the box on the last page of this document. (PDF or MS Word format preferred.)
  - Please also supply frequency tables with absolute and relative frequencies, missing values *included*, for **all source** variables. *Source variables* are the country-specific variables **before** recodes into ISSP standard variables are done. (MS Word or simple ASCII file preferred.)
  - If your country derives ISCO88 codes from a national occupation coding scheme, please supply a correspondence list of national codes and ISCO88 codes. (MS Word or simple ASCII file preferred.)

## 2. Example

The German example for the variable UNION is constructed from two variables referring to two questions in the German field questionnaire.

### UNION – Trade union membership

	National Language	English Translation
<i>Question no. and text</i>	#1 Darf ich Sie fragen, ob Sie derzeit Mitglied in einer Gewerkschaft sind?	#1 May I ask you whether you are currently a member of a trade union?
<i>Codes/ Categories</i>	1. Ja, bin Mitglied	1. Yes, I am member
	2. Nein, bin kein Mitglied	2. No, I am not member
	9. Keine Angabe*	9. No answer*
	0. Nein, Befragter will Frage nicht beantworten*	0. Respondent refuses to answer*
<i>Question no. and text</i>	#2 Waren Sie früher einmal Mitglied in einer Gewerkschaft?	#2 Were you once a member of a trade union?
<i>Codes/ Categories</i>	1. Ja	1. Yes
	2. Nein	2. No
	8. Weiß nicht	8. Don't know
	9. Keine Angabe*	9. No answer*
<i>Note</i>	Falls Befragter aktuell kein Gewerkschaftsmitglied ist; „nein“ in #1	If respondent not currently union member; no in #1
<i>Interviewer Instructions</i>	—	
<i>Translation Note</i>	—	
<i>Note</i>	Current and former union membership taken from ALLBUS 2010 Answer categories marked by an asterisk are not read aloud.	

### Filter Variable(s) and Conditions:

Former membership (#2) not asked if respondent currently member (#1=1)
--

### Construction/Recoding:

Country Variable Codes/ Construction Rules	→UNION
If (#1=1)	1. Yes, currently
If (#2=1)	2. Yes, previously but not currently
If (#1=2 and #2=2)	3. No, never

If (#1=0)	7. Refused
Else	9. No answer

### 3. Variable List

In the following you will find forms to ease documentation of the points described in section 1 above.

#### Some Hints to Fill in the Forms

- Please fill in the forms on the screen and return the file to <isspservice@gesis.org> – please do *not* return a printout using paper and pencil!
- In general, please feel free to be flexible in using the forms. If necessary adopt them to your reporting needs. In particular:
  - Please insert as many additional fields as needed, e.g. add lines if your country variable has more categories than the template provides.
  - Please skip fields not needed, e.g. skip ‘note’ lines if no note is required.
  - If individual response categories require separate notes, insert as many additional lines as necessary *below* the respective category.
  - If your field questionnaire has more than one language version, please replicate the complete ‘National Language - English Translation/Note’ block as often as needed.
- The question numbers should refer to the numbers of your original field questionnaire.
- For variables with continuous data (AGE, WRKHRS...), please list the lowest and the highest valid codes empirically found in your country’s data and the various non-response codes, e.g. NAP (not applicable), DK (don’t know); if additional non-response codes occur in your data, such as ‘refused’, please add.
- If source variables are relevant for *several* ISSP target variables, please copy the information for the source variables each time to offer a complete documentation of the individual ISSP target variable.

Please name the **ISSP module** which the documentation refers to (e.g., “*Health and Health Care / ISSP2011*”):

**National Identity IV**

Please name your **country**:

**Latvia**

**SEX - Sex of respondent**

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	D1. Vai Jūs esat:	D1. Are you...
<i>Codes/ Categories</i>	1. Vīrietis	1. Male
	2. Sieviete	2. Female
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>		

**Construction/Recoding:**

<b>Country Variable Codes (in translation)</b>	<b>→ SEX</b>
1 = Male	1. Male
2 = Female	2. Female
9 = No answer	9. No answer

**BIRTH – Year of birth**

This question can be asked as an alternative to asking about AGE. If BIRTH is not asked directly, it must be computed by DATEYR ‘year of interview’ minus AGE ‘age of respondent’.

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	D2. Kurā gadā Jūs esat dzimis?	D2. When were you born?
<i>Codes/ Categories</i>	Dzimšanas gads	Year of birth
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>		

**Construction/Recoding:** (list lowest, highest, and ‘missing’ codes only, replace terms in [square brackets] with real numbers)

	<b>Country Variable Codes/Construction Rules</b>	<b>→BIRTH</b>
<i>Construction</i>	Year of birth	
<i>Codes</i>	1938	[MIN BIRTH]
	1996	[HIGH BIRTH]
	- not used -	9999. No answer

**Optional: Recoding Syntax**

--

**AGE - Age of respondent**

This question can be asked as an alternative to asking about BIRTH. If AGE is not asked directly, it must be computed by DATEYR ‘year of interview’ minus BIRTH ‘year of birth’.

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	D2. Kurā gadā Jūs esat dzimis?	D2. When were you born?
<i>Codes/ Categories</i>	Dzimšanas gads	Year of birth
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>		

**Construction/Recoding:** (list lowest, highest, and ‘missing’ codes only, replace terms in [square brackets] with real numbers)

	<b>Country Variable Codes/Construction Rules</b>	<b>→AGE</b>
<i>Construction</i>	years	
<i>Codes</i>	18	[MIN AGE]
	75	[HIGH AGE]
	- not used -	999. No answer

**Optional: Recoding Syntax**

--

### EDUCYRS - Education I: years of schooling

	National Language	English Translation
<i>Question no. and text</i>	D3. Cik pilnus gadus Jūs esat mācījies? Lūdzu, saskaitiet gadus pamatskolā, vidusskolā, augstskolā un klātienē profesionālajā apmācībā, bet neieskaitiet atkārtotos mācību gadus (piem., akadēmisko atvaļinājumu). Ja Jūs šobrīd mācāties, skaitiet tos gadus, kurus esat līdz šim pabeidzis.	D3. How many full-time years have you been in education? Please include years in primary and secondary schooling, university and full-time vocational training, but do not include repeated years (e.g. interruption of study). If you are currently in education, count the number of years you have completed so far.
<i>Codes/ Categories</i>	0. Nekad nav mācījies skolā	0. No formal schooling, no years at school
	Pilni apmācības gadi	Full years of education
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>		

#### Filter Variable(s) and Conditions:

--

Country Variable Codes/Construction Rules	→ EDUCYRS
- not used -	0. No formal schooling, no years at school
1 = One year	1. One year
30 = Thirty years	30. 30 years
- not used -	98. Don't know
- not used -	99. No answer

#### Optional: Recoding Syntax

--

**nat\_DEGR - Country-specific highest completed degree of education**

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	D4. Kāds ir augstākais izglītības līmenis, ko Jūs esat ieguvis/-vusi?	D4. What is the highest level of education that you have attained?
<i>Codes/ Categories</i>	1. Nepabeigta pamatizglītība / nav mācījies	1. Incomplete basic education/ no formal schooling
	2. Pamatizglītība	2. Primary completed, basic education
	3. Nepabeigta vidējā; arodizglītība bez vidējās	3. Incomplete secondary; vocational training without completed secondary education
	4. Vidējā	4. Secondary completed
	5. Vidējā speciālā; arodizglītība ar vidējo	5. Secondary professional education, vocational training with completed secondary education
	6. Nepabeigta augstākā (vismaz 2 pilni gadi)	6. Incomplete higher education, at least 2 complete years
	7. Augstākā / bakalaura, maģistra vai doktora grāds	7. Higher education, bachelor, master, doctor degree
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>		

**Filter Variable(s) and Conditions:**

1 = Incomplete basic education/ no formal schooling	1. Incomplete basic education/ no formal schooling
2 = Primary completed, basic education	2. Primary completed, basic education
3 = Incomplete secondary; vocational training without completed secondary education	3. Incomplete secondary; vocational training without completed secondary education
4 = Secondary completed	4. Secondary completed
5 = Secondary professional education, vocational training with completed secondary education	5. Secondary professional education, vocational training with completed secondary education
6 = Incomplete higher education, at least 2 complete years	6. Incomplete higher education, at least 2 complete years
7 = Higher education, bachelor, master, doctor degree	7. Higher education, bachelor, master, doctor degree
- not used -	99. No answer

**Optional: Recoding Syntax**

--

**DEGREE – R: Education II: categories**

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	D4. Kāds ir augstākais izglītības līmenis, ko Jūs esat ieguvis/-vusi?	D4. What is the highest level of education that you have attained?
<i>Codes/ Categories</i>	1. Nepabeigta pamatizglītība / nav mācījies	1. Incomplete basic education/ no formal schooling
	2. Pamatizglītība	2. Primary completed, basic education
	3. Nepabeigta vidējā; arodizglītība bez vidējās	3. Incomplete secondary; vocational training without completed secondary education
	4. Vidējā	4. Secondary completed
	5. Vidējā speciālā; arodizglītība ar vidējo	5. Secondary professional education, vocational training with completed secondary education
	6. Nepabeigta augstākā (vismaz 2 pilni gadi)	6. Incomplete higher education, at least 2 complete years
	7. Augstākā / bakalaura, maģistra vai doktora grāds	7. Higher education, bachelor, master, doctor degree
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>		

**Filter Variable(s) and Conditions:**

--

**Construction/Recoding:**

<b>Country Variable Codes/Construction Rules</b>	<b>→DEGREE</b>
if LV_DEGR = 1 and EDUCYRS <5 DEGREE=0.	0. No formal education
if LV_DEGR = 1 DEGREE=1.	1. Primary school
if LV_DEGR = 2 DEGREE=2. if LV_DEGR = 3 DEGREE=2	2. Lower secondary (secondary completed does not allow entry to university: obligatory school)
if LV_DEGR = 4 DEGREE=3.	3. Upper secondary (programs that allow entry to university)
if LV_DEGR = 5 DEGREE=4.	4. Post secondary, non-tertiary (other upper secondary programs toward labour market or technical formation)
if LV_DEGR = 6 DEGREE=5.	5. Lower level tertiary, first stage (also technical schools at a tertiary level)
if LV_DEGR = 7 DEGREE=6	6. Upper level tertiary (Master, Dr.)
- not used -	9. No answer

**Optional: Recoding Syntax**

--

**WORK – Currently, formerly, or never in paid work**

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	D5. Vai Jūs ... ?	Are you ...?
<i>Codes/ Categories</i>	1. Šobrīd strādājat algotu darbu	1. Currently in paid work
	2. Šobrīd nestrādājat algotu darbu, bet agrāk strādājāt	2. Currently not in paid work, paid work in the past
	3. Nekad neesat strādājis/-usi algotu darbu	3. Never had paid work
<i>Interviewer Instruction</i>	<i>Ja šobrīd īslaicīgi nestrādā augstāk minēto iemeslu dēļ, tad atzīmēt, ka strādā algotu darbu.</i>	<i>If respondent temporarily is not working for pay because of reasons mentioned above, please note “in paid work”.</i>
<i>Translation Note</i>		
<i>Note</i>	Answer categories in italic are not read aloud.	

**Filter Variable(s) and Conditions:**

--

**Construction/Recoding:**

<b>Country Variable Codes/Construction Rules</b>	<b>→WORK</b>
1= Currently in paid work	1. Currently in paid work
2= Currently not in paid work, paid work in the past	2. Currently not in paid work, paid work in the past
3= Never had a paid work	3. Never had a paid work
- not used -	9. No answer

**Optional: Recoding Syntax**

--

**WRKHRS – Hours worked weekly**

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	D6. Vidēji cik stundas Jūs strādājat parastā nedēļā, ieskaitot virsstundas? Saskaitiet visas darba stundas, ja strādājat vairāk kā pie viena darba devēja, ja esat gan nodarbinātais, gan pašnodarbinātais.	D6. How many hours, on average, do you usually work for pay in a normal week, including overtime? If you work for more than one employer, or if you are both employed and self-employed, please count the total number of working hours that you do.
<i>Codes/ Categories</i>	stundas	hours
	<i>98. Nevar pateikt</i>	<i>98. Don't know</i>
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>	Answer categories in italic are not read aloud.	

**Filter Variable(s) and Conditions:**

--

<b>Country Variable Codes/Construction Rules</b>	<b>→WRKHRS</b>
1 = 1 hour	1. One hour
84 = 84 hours	84. 84 hours
- not used -	96. 96 hours and more
98. Don't know	98. Don't know
- not used -	99. No answer
if WORK >1 then WRKHRS=0	00. NAP (Code 2 or 3 in WORK)

**Optional: Recoding Syntax**

--

**EMPREL – Employment relationship**

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	D7. Vai Jūs esat darba ņēmējs, pašnodarbinātais, darba devējs vai strādājat savas ģimenes uzņēmumā? Ja Jūs strādājat vairāk kā pie viena darba devēja vai esat kā algots darbinieks, tā arī pašnodarbinātais, lūdzu, atbildiet par Jūsu pamatdarbu. Ja Jūs šobrīd nestrādājat, tad atbildiet par pēdējo pamatdarbu.	D7. Are/were you an employee, self-employed, or working for your own family's business? If you work for more than one employer, or if you are both employed and self-employed, please refer to your <u>main</u> job. If you are not currently working, please refer to your last main job.
<i>Codes/ Categories</i>	1. Darba ņēmējs	1. Employee
	2. Pašnodarbinātais bez algotiem darbiniekiem	2. Self-employed without employees
	3. Pašnodarbinātais (darba devējs) ar algotiem darbiniekiem	3. Self-employed (employer) with employees
	4. Strādājat savas ģimenes uzņēmumā	4. Working for your own family's business
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>

### ISCO88 - Occupation ISCO 1988

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO88-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO88 codes *attached as a separate file*. Please report which kind of ISCO code you apply. The most common ones are the code developed by the International Labour Organisation (ILO) and the variant developed for the European Union (EU), ISCO-COM. If you apply another variant such as ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, then please specify.

Please do **not** enter **standard** ISCO88 codes here. But please report if your country **adds** or **changes** codes compared to ISCO88, if any.

Occupations should be coded on the 4-digit level of ISCO88. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, the 4-digit code 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit code in the data file is 110 (Armed Forces).

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

	National Language	English Translation
<i>Question no. and text</i>	D13. a. Kāda ir Jūsu profesija un amats? Nosauciet un aprakstiet pēc iespējas skaidrāk. b. Ko Jūs lielāko daļu laika darāt/darījāt savā pamatdarbā? Aprakstiet pēc iespējas skaidrāk. c. Ko lielākoties dara/darīja uzņēmums/organizācija, kurā Jūs strādājat/strādājāt – t.i., ko ražo vai kādus pakalpojumus sniedz Jūsu darbavieta? Aprakstiet pēc iespējas skaidrāk.	D13. a. What is your occupation and title of your job? Please name it and describe as clearly as possible. b. In your main job, what kind of activities do/did you do most of the time? Describe as clearly as possible. c. What does/did the firm/organisation you work/worked make or do – i.e., what kind of production/function is/was performed at your workplace? Describe as clearly as possible.

### SPISCO88 – Spouse, partner: occupation ISCO 1988

Please give the text of the source question(s) on the spouse's occupation used in your field questionnaire. If ISCO88-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO88 codes *attached as a separate file*. Please report which kind of ISCO code you apply. The most common ones are the code developed by the International Labour Organisation (ILO) and the variant developed for the European Union (EU), ISCO-COM. If you apply another variant such as ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, then please specify.

Please do **not** enter **standard** ISCO88 codes here. But please report if your country **adds** or **changes** codes compared to ISCO88, if any.

Occupations should be coded on the 4-digit level of ISCO88. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, the 4-digit code 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit code in the data file is 110 (Armed Forces).

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

	National Language	English Translation
<i>Question no. and text</i>	D20. a. Kāda ir Jūsu laulātā /partnera profesija un amats? Nosauciet un aprakstiet pēc iespējas skaidrāk. b. Ko viņš/viņa lielāko daļu laika dara/darīja savā pamatdarbā? Aprakstiet pēc iespējas skaidrāk. c. Ko lielākoties dara/darīja uzņēmums/organizācija, kurā viņš/viņa strādā/strādāja – t.i., ko tā ražo vai kādus pakalpojumus sniedz? Aprakstiet pēc iespējas skaidrāk.	D20. a. What is your spouse's/partner's occupation – i.e., what is the name or title of his/her main job? Name and describe as clearly as possible. b. In his/her main job, what kind of activities does he/she do most of the time? Describe as clearly as possible. c. What does the firm/organisation he/she work/worked for mainly make or do – i.e., what kind of production/function is/was performed at his/her workplace? Describe as clearly as possible.

#### **4. Country Questionnaire**

Please provide the part(s) of your country questionnaire that relate(s) to the background variables reported in this template. If these variables are already covered by your country's field questionnaire delivered with your national ISSP data file, then just tick on the last page of this document. (PDF or MS Word format preferred.)

Already included in field questionnaire provided with the country data file.

Attached file: XXXXX.XXX

#### **5. Frequency Distributions of Source Variables**

Please supply frequency distributions with absolute and relative frequencies, missing values *included*, for **all** source variables. *Source variables* are the country-specific variables **before** recodes into ISSP standard variables are done. (MS Word or simple ASCII file preferred.)

Attached file: YYYYYY.YYY.

#### **6. Correspondence list ISCO88<->national occupation codes**

If your country derives ISCO88 codes from a national occupation coding scheme, please supply a correspondence list of national codes and ISCO88 codes. (MS Word or simple ASCII file preferred.)

ISCO88 is used to code responses directly.

Conversion of national coding scheme to ISCO88. Attached file: ZZZZZZ.ZZZ.
