ISSP Background Variable Documentation

by

Markus Quandt, Evi Scholz and Insa Bechert GESIS

on behalf of the

ISSP Demographics Method Group
(Germany, Mexico, Norway, the Philippines, South Africa, Spain, Sweden, Switzerland, Taiwan, and the Archive)

Users of the international ISSP data file should have all relevant information to understand the construction of the ISSP background variables. Thus, the ISSP has decided to provide a documentation of its background variables and to regularly update this documentation (decisions of the ISSP General Meetings in 2005 and 2006). The information collected with this document will be published with the ISSP data files. Furthermore, it will help to discuss and decide on streamlining the ISSP background variables.

The Demographics Method Group asks you to provide information on all your ISSP background variables. The document at hand serves to collect and structure this information from ISSP members in a template.

Please note that, due to changes in the ISSP Background Variables, there are different versions of documentation templates to use, related to the respective ISSP study under consideration. The template at hand serves to document your national **ISSP** survey.

The document consists of three sections: Section 1 of this documentation refers to basic elements: source description, information on filters and routing, and construction information. In section 2, as an example, we present the relevant information for the variable UNION (Trade union membership) from Germany. Section 3 finally offers the documentation template for all ISSP background variables valid from the ISSP module 2013 onwards.

If you have any questions on the documentation, please do not hesitate to contact us:

isspservice@gesis.org

1. Basic Elements

For each of the variables listed in section 3 below, please give the following information as applicable.

❖ **Source description**

- Please give the **question no./position/name(s)** used in your field questionnaire and report additional information sources, for example, if interviewer observation was used instead of asking questions to respondents. If your ISSP is run with a larger survey and the background variable is taken from this survey, then refer to that (those) source question(s). Please make a **note** from which survey the question(s)/variable(s) come(s) (see below).

- Please give the text of the **original question(s)** exactly as used in your field questionnaire and **in your national language**.

  ▪ Please include all **response categories** of the original field questionnaire.

- ▪ Please give **interviewer instructions** if necessary to understand the generation of response codes.

- Please **translate original questions, response categories and interviewer instructions** into English.

- Please provide **notes** if needed. Notes can address both possible translation issues (**translation note**) and country specific particularities of question background, of variable generation or of the meaning of individual response categories (**note**).

❖ **Filter Variables and Conditions:** If any variables cover only part of the sample, please list the conditions (questions/variables and categories/codes) used to define the *excluded cases*. In other words, report the conditions which lead to a 'not applicable' code in the variable following the filter.

❖ **Construction/Recoding**

- Please report how the codes of the ISSP target variable were derived from your source data.

- Please use a table of correspondence with source and target codes (see the example in section 2 and tables in section 3).

- If construction of ISSP target codes involves more than simple 1-1 relationships between source and target codes, please use roughly Boolean syntax as shown in the example 2 below. Command syntax of common statistics programs is also welcome. Just put the syntax used into the "Optional: Recoding Syntax" box if you consider that it will increase comprehensibility and transparency.

- Please always (also for country specific variables) report how the ISSP missing values (not applicable-NAP, no answer-NA, don't know-DK) were filled.

❖ **Complementary information (see last page)**

- Please provide the part(s) of your country questionnaire that relate(s) to the background variables reported in this template. If these variables are already covered by your country's field questionnaire delivered with your national ISSP data file, then just tick the box on the last page of this document. (PDF or MS Word format preferred.)

- Please also supply frequency tables with absolute and relative frequencies, missing values *included*, for **all** *source* variables. *Source variables* are the country-specific variables **before** recodes into ISSP standard variables are done. (MS Word or simple ASCII file preferred.)

- If your country derives ISCO88 codes from a national occupation coding scheme, please supply a correspondence list of national codes and ISCO88 codes. (MS Word or simple ASCII file preferred.)

2. Example

The German example for the variable UNION is constructed from two variables referring to two questions in the German field questionnaire.

UNION – Trade union membership

	National Language	**English Translation**
Question no. and text	#1 Darf ich Sie fragen, ob Sie derzeit Mitglied in einer Gewerkschaft sind?	#1 May I ask you whether you are currently a member of a trade union?
Codes/ Categories	1. Ja, bin Mitglied	1. Yes, I am member
	2. Nein, bin kein Mitglied	2. No, I am not member
	9. Keine Angabe*	9. No answer*
	0. Nein, Befragter will Frage nicht beantworten*	0. Respondent refuses to answer*
Question no. and text	#2 Waren Sie früher einmal Mitglied in einer Gewerkschaft?	#2 Were you once a member of a trade union?
Codes/ Categories	1. Ja	1. Yes
	2. Nein	2. No
	8. Weiß nicht	8. Don't know
	9. Keine Angabe*	9. No answer*
Note	Falls Befragter aktuell kein Gewerkschaftsmitglied ist; „nein" in #1	If respondent not currently union member; no in #1
Interviewer Instructions	—	
Translation Note	—	
Note	Current and former union membership taken from ALLBUS 2010 Answer categories marked by an asterisk are not read aloud.	

Filter Variable(s) and Conditions:

Former membership (#2) not asked if respondent currently member (#1=1)

Construction/Recoding:

Country Variable Codes/ Construction Rules	**➜UNION**
If (#1=1)	1. Yes, currently
If (#2=1)	2. Yes, previously but not currently
If (#1=2 and #2=2)	3. No, never

If (#1=0)	7. Refused
Else	9. No answer

3. Variable List

In the following you will find forms to ease documentation of the points described in section 1 above.

Some Hints to Fill in the Forms

- Please fill in the forms on the screen and return the file to <isspservice@gesis.org> – please do *not* return a printout using paper and pencil!

- In general, please feel free to be flexible in using the forms. If necessary adopt them to your reporting needs. In particular:

  - Please insert as many additional fields as needed, e.g. add lines if your country variable has more categories than the template provides.

  - Please skip fields not needed, e.g. skip 'note' lines if no note is required.

  - If individual response categories require separate notes, insert as many additional lines as necessary *below* the respective category.

  - If your field questionnaire has more than one language version, please replicate the complete 'National Language - English Translation/Note' block as often as needed.

- The question numbers should refer to the numbers of your original field questionnaire.

- For variables with continuous data (AGE, WRKHRS…), please list the lowest and the highest valid codes empirically found in your country's data and the various non-response codes, e.g. NAP (not applicable), DK (don't know); if additional non-response codes occur in your data, such as 'refused', please add.

- If source variables are relevant for *several* ISSP target variables, please copy the information for the source variables each time to offer a complete documentation of the individual ISSP target variable.

Please name the **ISSP module** which the documentation refers to (e.g., "*Health and Health Care / ISSP2011*"):

National Identity – ISSP 2013

Please name your **country**:

Portugal

SEX - Sex of respondent

	National Language	**English Translation**
Question no. and text		
Codes/ Categories	1. Masculino	1. Male
	2. Feminino	2. Female
Interviewer Instruction		
Translation Note		
Note	This question was not asked to the respondents. It was selected by interviewers by observation.	

Construction/Recoding:

Country Variable Codes (in translation)	**➔ SEX**
1. Male	1. Male
2. Female	2. Female
- not used -	9. No answer

BIRTH – Year of birth

This question can be asked as an alternative to asking about AGE. If BIRTH is not asked directly, it must be computed by DATEYR 'year of interview' minus AGE 'age of respondent'.

	National Language	**English Translation**
Question no. and text	Em que ano nasceu?	In what year were you born?
Codes/ Categories	|__|__||__|__| 9999. NS/NR	|__|__||__|__| 9999. No answer
Interviewer Instruction		
Translation Note		
Note		

Construction/Recoding: (list lowest, highest, and 'missing' codes only, replace terms in [square brackets] with real numbers)

	Country Variable Codes/Construction Rules	**➔BIRTH**
Construction		
Codes	[1921]	[MIN BIRTH]
	[1997]	[HIGH BIRTH]
	9999. No answer	9999. No answer

Optional: **Recoding Syntax**

AGE - Age of respondent

This question can be asked as an alternative to asking about BIRTH. If AGE is not asked directly, it must be computed by DATEYR 'year of interview' minus BIRTH 'year of birth'.

	National Language	**English Translation**
Question no. and text		
Codes/ Categories		
Interviewer Instruction		
Translation Note		
Note	AGE was not asked directly, it was computed by DATEYR 'year of interview' minus BIRTH 'year of birth'	

Construction/Recoding: (list lowest, highest, and 'missing' codes only, replace terms in [square brackets] with real numbers)

	Country Variable Codes/Construction Rules	**➔AGE**
Construction	AGE = DATEYR -BIRTH	
Codes	[18]	[MIN AGE]
	[93]	[HIGH AGE]
	999. No answer	999. No answer

Optional: **Recoding Syntax**

EDUCYRS - Education I: years of schooling

	National Language	**English Translation**
Question no. and text	**EDUCYRS.** Vou agora fazer-lhe algumas perguntas sobre o seu grau de escolaridade. Diga, por favor, quantos anos frequentou a escola, incluindo ensino superior. Não contar com repetências nem com cursos ou acções de formação não inseridos no sistema de ensino.	**EDUCYRS.** I would like to ask you now about your education level. Please tell me for how many years did you go to school, including university studies? Please don't include the years you had to repeat or training courses which are not included in the national education system.
Codes/ Categories	|__|__| Anos de frequência	|__|__| years of attendance
	00. Nunca frequentou	00. No formal schooling
	98. Não sabe	98. Don't know
	99. Recusa	99. Refused
Interviewer Instruction		
Translation Note		
Note		

Filter Variable(s) and Conditions:

Country Variable Codes/Construction Rules	➔ **EDUCYRS**
00. No formal schooling	0. No formal schooling, no years at school
[One Year of attendance]	[One year]
[24 years of attendance]	[24 years]
98. Don't know	98. Don't know
99. Refused	99. No answer

Optional: **Recoding Syntax**

nat_DEGR - Country-specific highest completed degree of education

	National Language	**English Translation**
Question no. and text	**DEGREE_PT.** Qual o grau de escolaridade mais elevado que completou?	**DEGREE_PT.** What is the highest degree of education that you completed?
Codes/ Categories	01. Nenhum	01. None
	02. Ensino Básico 1 (até à 4ª classe, instrução primária (3º ou 4º ano))	02. Basic level 1 (in brackets are the different designations of the level during the past decades so that everyone can easily identify their educational level)
	03. Ensino Básico 2 (preparatório/5º e 6º anos / 5ª ou 6ª classe, 1º ciclo dos liceus ou do ensino técnico comercial ou industrial)	03. Basic level 2 (idem)
	04. Cursos de educação e formação de tipo 1. Atribuição de Diploma de qualificação profissional de nível 1	04. Educational and vocational courses type1. Certificate of professional qualification of level 1.
	05. Ensino Básico 3 (certificado de conclusão de um dos seguintes graus de escolaridade: 9º ano; 5º ano dos liceus; escola comercial / industrial; 2º ciclo dos liceus ou do ensino técnico comercial ou industrial)	05. Basic level 3 (idem)
	06. Cursos de educação e formação de tipo 2. Atribuição de Diploma de qualificação profissional de nível 2	06. Educational and vocational courses type2. Certificate of professional qualification of level 2
	07. Cursos de educação e formação de tipo 3 e 4. Atribuição de Diploma de qualificação profissional de nível 2	07. Educational and vocational courses type 3 and 4. Certificate of professional qualification of level 2
	08. Ensino Secundário - cursos científico-humanísticos (certificado de conclusão de um dos seguintes graus de escolaridade: 12º ano; 7º ano dos liceus; propedêutico; serviço cívico)	08. Secondary level – scientific-humanistic courses (idem)
	09. Ensino secundário - cursos tecnológicos, cursos artísticos especializados (artes visuais e audiovisuais, dança, música), cursos profissionais. Cursos de educação e formação de tipo 5, 6 e 7. Atribuição de Diploma de Qualificação Profissional de Nível 3	09. Secondary level – technology, specialised arts (visual, audio-visual, dance and music). Professional courses. Educational and vocational courses type 5, 6 and 7. Certificate of professional qualification of level 3
	10. Cursos de especialização tecnológica. Atribuição de Diploma de Especialização Tecnológica	10. Courses of technological specialisation. Certificate of Technological Specialisation.
	11. Ensino superior politécnico: bacharelato de 3 anos (magistério primário, serviço social, regente agrícola); Antigos cursos médios	11. Polytechnic superior level: 3 years bachelor (idem)

	12. Ensino superior politécnico: licenciaturas de 3-4 anos curriculares; licenciatura complemento de formação	12. Polytechnic superior level: 3-4 years graduation
	13. Ensino superior universitário: licenciaturas de 3-4 anos curriculares; licenciatura bietápica de 4 anos	13. University superior level: 3-4 years graduation; bi-stage degree of 4 years
	14. Pós-graduação: especialização pós-licenciatura sem atribuição de grau académico, MBA	14. Post-graduation: specialisation post-degree without attribution of academic degree, MBA
	15. Ensino superior universitário: licenciatura com mais de 4 anos curriculares; licenciatura bietápica de 5 anos	15. University superior level: more than 4 years degree; bi-stage degree of 5 years
	16. Mestrado (inclui Mestrado Integrado)	16. Master degree (including integrated master)
	17. Doutoramento	17. PhD
	55. Nenhum dos anteriores	55. None of the previous
	99. NS/NR	99. DK/DA
Interviewer Instruction		
Translation Note		
Note	If respondent was unable to choose one of the options (code 55), subsequent technical classification was made, based on detailed descriptions.	

Filter Variable(s) and Conditions:

If EDUCYRS=00 (No formal schooling) DEGREE_PT was automatically recoded into 01 (None)

Construction/Recoding:

Country Variable Codes/Construction Rules	➔ nat_DEGR
01. None	01. Not completed primary education
02. Basic level 1 (in brackets are the different designations of the level during the past decades so that everyone can easily identify their educational level)	02. Achieved certificate from an ISCED 1 programme, or completed an ISCED 1 programme that does not provide any certificate
03. Basic level 2 (idem)	03. Achieved certificate from an ISCED 1 programme, or completed an ISCED 1 programme that does not provide any certificate
04. Educational and vocational courses type1. Certificate of professional qualification of level 1.	04. Achieved certificate from a short vocational ISCED 2 programme

ISCO88 - Occupation ISCO 1988

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO88-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO88 codes *attached as a separate file.* Please report which kind of ISCO code you apply. The most common ones are the code developed by the International Labour Organisation (ILO) and the variant developed for the European Union (EU), ISCO-COM. If you apply another variant such as ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, then please specify.

Please do **not** enter **standard** ISCO88 codes here. But please report if your country **adds** or **changes** codes compared to ISCO88, if any.

Occupations should be coded on the 4-digit level of ISCO88. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, the 4-digit code 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit code in the data file is 110 (Armed Forces).

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

SPISCO88 – Spouse, partner: occupation ISCO 1988

Please give the text of the source question(s) on the spouse's occupation used in your field questionnaire. If ISCO88-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO88 codes *attached as a separate file*. Please report which kind of ISCO code you apply. The most common ones are the code developed by the International Labour Organisation (ILO) and the variant developed for the European Union (EU), ISCO-COM. If you apply another variant such as ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, then please specify.

Please do **not** enter **standard** ISCO88 codes here. But please report if your country **adds** or **changes** codes compared to ISCO88, if any.

Occupations should be coded on the 4-digit level of ISCO88. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, the 4-digit code 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit code in the data file is 110 (Armed Forces).

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

4. Country Questionnaire

Please provide the part(s) of your country questionnaire that relate(s) to the background variables reported in this template. If these variables are already covered by your country's field questionnaire delivered with your national ISSP data file, then just tick on the last page of this document. (PDF or MS Word format preferred.)

[x] Already included in field questionnaire provided with the country data file.

[ ] Attached file: XXXXX.XXX

5. Frequency Distributions of Source Variables

Please supply frequency distributions with absolute and relative frequencies, missing values *included*, for **all** *source* variables. *Source variables* are the country-specific variables **before** recodes into ISSP standard variables are done. (MS Word or simple ASCII file preferred.)

Attached file: 2013_bvfreqs_pt_msw.

6. Correspondence list ISCO88<->national occupation codes

If your country derives ISCO88 codes from a national occupation coding scheme, please supply a correspondence list of national codes and ISCO88 codes. (MS Word or simple ASCII file preferred.)

[x] ISCO88 is used to code responses directly.

[ ] Conversion of national coding scheme to ISCO88. Attached file: ZZZZZZ.ZZZ.
