### ISCO08 - Occupation ISCO 2008

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

<i>Note</i>	As the ISSP 2013 and 2014 modules were done together and coding was done first for the ISSP 2013, ISCO 88 was used. For the ISSP 2014 deposit automatic conversion between ISCO 1988 to ISCO 2008 was used (if one to one mapping existed, conversion script from Harry Ganzeboom's website was used). Other cases	

	were individually reconsidered and coded. Details provided in the script section.

### SPISCO08 – Spouse, partner: occupation ISCO 2008

Please give the text of the source question(s) on the respondent's spouse occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

<i>Question no. and text</i>	B20. Uved'te názov hlavného zamestnania Vášho manžela(ky) / partnera(ky). Popíšte ho čo najpodrobnejšie: aká je / bola náplň jeho/jej práce, čo má na starosti, atď. (Nestačí "robotník", prosíme o bližšie určenie, napr. robotník pri páse vo výrobe motorov.) Použite dve aj viacero slov, nepoužívajte skratky. Ak je / bol-a podnikateľ-ka alebo živnostník-čka, uved'te, v akej oblasti podniká / podnikal-a.	Please, write the name of the main occupation of your spouse/partner. Include detailed description of his/her working activity: what is / was his/her principal activity, responsibility etc (Stating "worker" is not sufficient, please, specify; e.g. engine assembly line production worker). Use two or more words and exclude abbreviations. If he/she is / was entrepreneur or sole trader please state in which area.
<i>Codes/ Categories deviating from ISCO88 / ISCO88-COM</i>		
<i>Interviewer Instruction</i>	ZAPIŠTE ČO NAJPODROBNEJŠIE!	PLEASE WRITE DOWN AS DETAILED AS POSSIBLE!
<i>Translation Note</i>		
<i>Note</i>	As the ISSP 2013 and 2014 modules were done together and coding was done first for the ISSP 2013, ISCO 88 was used. For the ISSP 2014 deposit automatic conversion between ISCO 1988 to ISCO 2008 was used (if one to one mapping	

	existed, conversion script from Harry Ganzeboom's website was used). Other cases were individually reconsidered and coded. Details provided in the script section.

	ISCO88-COM (EU variant)	<input type="checkbox"/>
	Other ISCO88 variant	<input type="checkbox"/> → please specify
