ISSP 2019 Belgium

Please name the **ISSP module** which the documentation refers to (e.g., “*Health and Health Care / ISSP2011*”):

**Work Orientations IV / ISSP2015**

Please name your **country**:

**Belgium – Questionnaires in Dutch and French**

**SEX - Sex of respondent**

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	A1. Bent u man of vrouw?	A1. Are you a man or a woman?
<i>Codes/ Categories</i>	1. man	1. male
	2. vrouw	2. female
	missing	No answer

<i>Question no. and text</i>	A1. Etes-vous un homme ou une femme?	A1. Are you a man or a woman?
<i>Codes/ Categories</i>	1. homme	1. male
	2. femme	2. female
	missing	No answer

**Construction/Recoding:**

<b>Country Variable Codes (in translation)</b>	<b>→ SEX</b>
1	1. Male
2	2. Female
missing	9. No answer

**Optional: Recoding Syntax**

```
RECODE
A1
(missing = 9) (else = copy) INTO SEX.
EXECUTE.

VARIABLE LABEL SEX "Sex of Respondent".
VALUE LABELS SEX 1 'Male' 2 'Female' 9 ' No answer'.
EXECUTE.
```

**BIRTH – Year of birth**

This question can be asked as an alternative to asking about AGE. If BIRTH is not asked directly, it must be computed by DATEYR ‘year of interview’ minus AGE ‘age of respondent’.

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	A2. In welke maand en in welk jaar bent u geboren?	A2. What's the month and year of your birth?
	A2_1 = maand	A2_1 = month
	A2_2 = jaar	A2_2 = year

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	A2. Quel mois et en quelle année êtes-vous né(e)	A2. What's the month and year of your birth?
	A2_1 = mois	A2_1 = month
	A2_2 = année	A2_2 = year

**Construction/Recoding:** (list lowest, highest, and ‘missing’ codes only, replace terms in [square brackets] with real numbers)

	<b>Country Variable Codes/Construction Rules</b>	<b>→BIRTH</b>
<i>Construction</i>		
<i>Codes</i>	1920	[MIN BIRTH]
	1997	[HIGH BIRTH]
	missing	9999. No answer

**Optional: Recoding Syntax**

```
RECODE
A2_2
(missing = 9999) (else = copy) INTO BIRTH.
EXECUTE.
```

```
VARIABLE LABEL BIRTH "Year of birth".
VALUE LABELS BIRTH
1920 "1920"
1997 "1997"
9999 "No answer".
```

**AGE - Age of respondent**

This question can be asked as an alternative to asking about BIRTH. If AGE is not asked directly, it must be computed by DATEYR 'year of interview' minus BIRTH 'year of birth'.

	National Language	English Translation
<i>Question no. and text</i>	A2. In welke maand en in welk jaar bent u geboren?	A2. What's the month and year of your birth?
	A2_1 = maand	A2_1 = month
	A2_2 = jaar	A2_2 = year

	National Language	English Translation
<i>Question no. and text</i>	A2. Quel mois et en quelle année êtes-vous né(e)	A2. What's the month and year of your birth?
	A2_1 = mois	A2_1 = month
	A2_2 = année	A2_2 = year

**Construction/Recoding:** (list lowest, highest, and 'missing' codes only, replace terms in [square brackets] with real numbers)

	Country Variable Codes/Construction Rules	→BIRTH
<i>Construction</i>		
<i>Codes</i>	1920	[MIN BIRTH]
	1997	[HIGH BIRTH]
	missing	9999. No answer

**Optional: Recoding Syntax**

```
do if birth ne 9999.
COMPUTE AGE = 2015 - BIRTH.
else.
compute age=999.
end if.
EXECUTE.

VARIABLE LABEL AGE "Age of respondent".
VALUE LABELS AGE 999 'No answer'.
EXECUTE.
```

### EDUCYRS - Education I: years of schooling

	National Language	English Translation
<i>Question no. and text</i>	A8a. Hoeveel jaren hebt u lager onderwijs gevolgd?	A8a. How many years of primary education did you complete?
<i>Instruction</i>	- noteer het getal 0 als u nooit naar school bent geweest	- when you never went to school, type 0
<i>Note</i>	Primary school : age 6 – 12	
<i>Question no. and text</i>	A8b. Hoeveel jaren hebt u middelbaar onderwijs gevolgd?	A8b. How many years of secondary education did you complete?
<i>Instruction</i>	- indien geen middelbaar onderwijs gevolgd, tik 0 in - bisjaren niet meetellen	- when no secondary education type 0 - do not count the doubled years
<i>Note</i>	Secondary school: age 13 – 18	
<i>Question no. and text</i>	A8c. Hoeveel jaren hebt u hoger onderwijs van het korte of lange type of in het universitair onderwijs gevolgd?	A8c. How many years higher education of short or long type or university did you complete?
<i>Interviewer Instruction</i>	- indien geen hoger onderwijs gevolgd, tik 0 in - bisjaren niet meetellen	- when no higher education type 0 - do not count the doubled years
<i>Note</i>	Higher education or university: age 18 or older	

	National Language	English Translation
<i>Question no. and text</i>	A8a. Combien d'années avez-vous suivi dans l'enseignement primaire (ne pas compter les années de maternelle ou de redoublement)?	A8a. How many years of primary education did you complete?
<i>Instruction</i>	- Veuillez inscrire le chiffre 0 si vous n'avez jamais été à l'école.	- when you never went to school, type 0
<i>Note</i>	Primary school : age 6 – 12	
<i>Question no. and text</i>	A8b. Combien d'années avez-vous suivi dans l'enseignement secondaire (ne pas compter les années de redoublement)?	A8b. How many years of secondary education did you complete?
<i>Instruction</i>	- Veuillez inscrire le chiffre 0 si vous n'avez jamais été en secondaire.	- when no secondary education type 0 - do not count the doubled years
<i>Note</i>	Secondary school: age 13 – 18	
<i>Question no. and text</i>	A8c. Combien d'années avez-vous suivi dans l'enseignement supérieur de type court, long ou universitaire (ne pas compter les années de redoublement)?	A8c. How many years higher education of short or long type or university did you complete?
<i>Interviewer Instruction</i>	- Veuillez inscrire le chiffre 0 si vous n'avez jamais suivi d'enseignement supérieur.	- when no higher education type 0 - do not count the doubled years
<i>Note</i>	Higher education or university: age 18 or older

### ISCO08 - Occupation ISCO 2008

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

	National Language	English Translation

### SPISCO08 – Spouse, partner: occupation ISCO 2008

Please give the text of the source question(s) on the respondent's spouse occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] “inadequately described” use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

	National Language	English Translation
<i>Question no. and text</i>	D13a. Wat is de naam van het huidige hoofdberoep van uw echtgen(o)t(e) of partner (of het laatste beroep indien hij/zij niet meer werkt)?	D13a. What is the name of the current (former) main profession of your spouse or partner?

	missing	No answer

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	D16b. Quel est en moyenne, le montant du revenu net mensuel de votre ménage, en tenant compte de toutes les rentrées d'argent de votre foyer: salaires et revenus professionnels, allocations familiales, pension de survie, pension alimentaire, revenus de remplacement (accident, mutuelle), produits éventuels de propriétés ou placements financiers, etc.	D16b. What on average is the net monthly income of your household? By net monthly income of the household we mean the total sum of the earnings, after tax deduction, everything included such as salaries, child benefits, retirement pay, replacement benefits (accident, disease, unemployment) or other incomes from capital or real estates, etc.
<i>Codes/ Categories</i>	Le revenu net du ménage est en moyenne de (montant) euros par mois	The net monthly income of my household is on average (amount) euro
	missing	No answer

**Filter Variable(s) and Conditions:**

D16b: ask all
---------------

**Construction/Recoding:** (If the income information is collected by asking for income classes or brackets, please code class midpoints in local currency and report classes offered to respondents. If asking for individual amounts, list lowest, highest, and 'missing' codes only)

REMARK: Ask only if hompop > 1 or 99 (if hompop = 1, nat\_inc = nat\_rinc).

This rule was not followed, in fact f.ex. respondents living alone can have their earnings, but can also get a child allowance, alimentation money etc. The amounts for rinc and inc are just what we got from the respondents.

**WEIGHT** – Weighting factor

Please report on whether you calculate any weighting variables. If you adjust for non-response bias, please enter the variable(s) on which the sample's distribution(s) is (are) adjusted to the population distribution(s). Please, also report if you apply any kind of rescaling.

<i>Design weight to adjust for unequal selection probabilities</i>	No	<input checked="" type="checkbox"/>
	Yes	<input type="checkbox"/>
<i>Weight to adjust for non-response bias</i>	No	<input type="checkbox"/>
	Yes	<p><input checked="" type="checkbox"/> → <input type="checkbox"/> please specify variables used for calculation of weight</p> <p>In order to deliver one integrated harmonized data file for Belgium post stratification weights were calculated based upon age (three age groups: 18-39; 40-59; 60+), sex, and geographical classification (NUTS1 Flemish Region, Walloon Region, Brussels Capital Region). These characteristics are known for all sampled units and the population distributions are published by the Belgian Institute for National Statistics (ADS). The age-sex distribution in each region is reproduced by the weights as well as the distribution over the regions.</p> <p>The result of this weighting procedure in combination with the sampling design is that the weights for respondents of the Brussels Capital Region are much smaller than the weights for the respondents of the Flemish and Walloon regions.</p> <p>The use of adequate software is always necessary when analysing data with weights, but with these data it is vitally important when comparing the regions or analysing only one region separately.</p>

<i>Are the final weights rescaled to net sample size (thus weighted sample size=unweighted sample size)?</i>	No	[ ] → <input type="checkbox"/> please specify target population represented by sum of all case weights
	Yes	[X] The weights were scaled to make the weighted sample size equal to the unweighted sample size.
