SEX - Sex of respondent

	National Language	English Translation
<i>Question no. and text</i>	46. Etes-vous	46. Are you
<i>Codes/ Categories</i>	Un homme	A man
	Une femme	A woman
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>	Only two response categories, always answered (weighting)	

Construction/Recoding:

Country Variable Codes (in translation)	→ SEX
1 Homme	1. Male
2 Femme	2. Female

BIRTH – Year of birth

This question can be asked as an alternative to asking about AGE. If BIRTH is not asked directly, it must be computed by DATEYR ‘year of interview’ minus AGE ‘age of respondent’.

	National Language	English Translation
<i>Question no. and text</i>	47. Quelle est votre année de naissance ?	47. What is your year of birth ?
<i>Codes/ Categories</i>		
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>	always answered (weighting)	

Construction/Recoding: (list lowest, highest, and ‘missing’ codes only, replace terms in [square brackets] with real numbers)

	Country Variable Codes/Construction Rules	→BIRTH
<i>Construction</i>		
<i>Codes</i>		[1920]
		[1997]
		9999. No answer

Optional: Recoding Syntax

--

AGE - Age of respondent

This question can be asked as an alternative to asking about BIRTH. If AGE is not asked directly, it must be computed by DATEYR ‘year of interview’ minus BIRTH ‘year of birth’.

	National Language	English Translation
<i>Question no. and text</i>		
<i>Codes/ Categories</i>		
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>	AGE is computed from BIRTH variable, which is always answered.	

Construction/Recoding: (list lowest, highest, and ‘missing’ codes only, replace terms in [square brackets] with real numbers)

	Country Variable Codes/Construction Rules	→AGE
<i>Construction</i>		
<i>Codes</i>		[18]
		[95]
		999. No answer

Optional: Recoding Syntax

AGE=2015-BIRTH

FR_DEGR - Country-specific degrees of education

	National Language	English Translation
<i>Question no. and text</i>	48. Quel niveau d'études le plus élevé avez-vous atteint ?	48. What is your education level?
<i>Codes/ Categories</i>	Aucun	None
	Ecole primaire	Primary level
	Collège (de la 6ème à la 3ème)	General secondary level 1
	Enseignement professionnel après le collège <u>sans</u> CAP, BEP ni baccalauréat	Vocational secondary level 1 without vocational diploma
	Enseignement professionnel après le collège <u>avec</u> CAP ou BEP sans bac	Vocational secondary level 1 with vocational diploma
	Enseignement professionnel après le collège <u>avec</u> le baccalauréat	Vocational Secondary level 2
	Enseignement général des lycées (de la seconde à la terminale) <u>sans</u> le baccalauréat	Incomplete general secondary level 2
	Enseignement général des lycées (de la seconde à la terminale) <u>avec</u> le baccalauréat (BTS, DUT, ...)	General secondary level 2
	Enseignement technique ou technologique <u>après</u> le baccalauréat (BTS, DUT, ...)	Technological education after high school final exam
	Premier cycle universitaire (équivalent à bac + 2)	College
	Deuxième ou troisième cycle universitaire (ou équivalent à bac + 3 et au-delà)	University

Filter Variable(s) and Conditions:

FR_OCC_R - R: Occupation PCS

	National Language	English Translation
<i>Question no. and text</i>	55. Si vous travaillez, quelle votre profession actuelle ? Si vous ne travaillez plus, quelle était votre dernière profession ?	55. If you are working, what is your current occupation? If you don't have a job, what is your last occupation?
<i>Codes/ Categories deviating from ISCO08 / ISCO08-COM</i>	Nomenclature des professions et catégories socioprofessionnelles (PCS 2003)	French classification of the occupations and the socioprofessional categories (PCS 2003)
<i>Note</i>	French classification of the occupations and the socioprofessional categories be used (<u>see complementary information</u>)	

Filter Variable(s) and Conditions:

IF WORK = 1 OR 2

ISCO08 - Occupation ISCO 2008

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

	National Language	English Translation
<i>Question no. and text</i>	55. Si vous travaillez, quelle votre profession actuelle ? Si vous ne travaillez pas quelle était votre dernière profession ?	55. If you are working, what is your current occupation? If you don't have a job, what is your last occupation?
<i>Codes/ Categories deviating from ISCO08</i>	Nomenclature des professions et catégories socioprofessionnelles (PCS 2003)	French classification of the occupations and the social categories (PCS 2003)

SPISCO08 – Spouse, partner: occupation ISCO 2008

Please give the text of the source question(s) on the respondent's spouse occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.
