ISCO08 - Occupation ISCO 2008

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

	National Language	English Translation
<i>Question no. and text</i>	D03. Welk beroep had u toen? D10. Welk beroep hebt u momenteel? Als u nu niet werkt, welk beroep had u in uw laatste baan?	D03. What was your first occupation? D10. What is/was your current/last occupation?
<i>Codes/ Categories deviating from ISCO08</i>		Occupations initially coded in ISCO-88, then converted into ISCO-08.

cd 'U:/)research/regien/survey2015'.

GET
  FILE='Surmob2015_NN.sav'.

display varlist.
* freq all.

compute COUNTRY=740.
compute C_SAMPLE=740.

recode A01 (1 2=copy) (else =9) into SEX.
VARIABLE LABELS SEX "Sex of Respondent".
VALUE LABELS SEX
  1 "Male"
  2 "Female"
  9 "No answer"
.

compute BIRTH=a02jr.
freq Birth.
compute AGE = dateyr - A02jr.
do if sysmiss (AGE).
compute AGE= 2015-A02jr.
end if.
recode AGE (sysmiss =999).
VARIABLE LABELS AGE "Age of respondent".
COMMENT TO AGE: This question can be asked as an alternative to asking about
BIRTH
If AGE is not asked directly, it must be computed be DATEYR 'year of the
interview'
minus BIRTH 'year of birth'
If your country is free to choose between asking BIRTH or AGE directly, the ISSP
prefers BIRTH being asked.
VALUE LABELS AGE
  999 "No answer"
.

* freq C02.
* freq C03.
recode C03 (1 2 3=0) (else=99) into EDUCYRS.
recode C02 (0 thru 99 = copy) into EDUCYRS.

VARIABLE LABELS EDUCYRS "Education I: years of schooling".
COMMENT TO EDUCYRS: This variable should be asked directly to the respondent and
should not include repeated years. Respondents, who are currently at school or
university should give the number of completed years so far. Therefore, the
former
codes 95 "Still at school" and 96 "Still at college, university, in vocational
training" are no longer used. Vocational training should be included in EDUCYRS
only if full-time formal schooling is involved. Use whole numbers, no decimal
