Iceland
ISSP 2017 – Social Networks III
Questionnaire
(English)
The aim of the survey is to examine public attitudes, with a focus on social networks. The responses of participants will help scholars, students and others interested in research related to the role of government. The main results will be published on the Social Science Research Institute’s website next winter.

You are not obliged to answer the survey as a whole or individual questions. Nevertheless it is important that all questions are answered so that the results are as reliable as possible. All responses are confidential and the results will only be published in a manner that ensures that answers cannot be traced back to individual respondents.

Thank you in advance and with hope for a good reception,

Guðbjörg Andrea Jónsdóttir
Director, Social Science Research Institute
A1. Here is a list of jobs that people you know may have. These people could be family or relatives, close friends or someone else you know. By “knowing” a person, we mean that you know him/her by name and well enough to contact him/her.

If you know several people who have a job from the list below, please only tick the box for the person who you feel closest to. Each of these jobs could be held by a woman or a man.

Do you know a woman or a man who is…?
