ISSP 2020 Denmark

Please name the **ISSP module** which the documentation refers to (e.g., “*Health and Health Care / ISSP2011*”):

**Enviroment / ISSP 2020**

Please name your **country**:

**Denmark**

**SEX - Sex of respondent**

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	#BVQ_01 Er du...	Are you...
<i>Codes/ Categories</i>	1. Mand	1. Male
	2. Kvinde	2. Female
	8. Nægter at svare	8. No answer
	9. Ved ikke	9. Don't know
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>		

**Construction/Recoding:**

<b>#BVQ_01</b>	<b>→ SEX</b>
1. Male	1. Male
2. Female	2. Female
8. No answer 9. Don't know	-9. No answer

**Optional: Recoding Syntax**

recode BVQ\_01 (8 thru 9=-9) (MISSING=-9) (else=copy) into SEX.  
EXECUTE.

**BIRTH – Year of birth**

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	#BVQ_02 Hvad er din fødselsdato?	When were you born?
<i>Codes/ Categories</i>	[XX]	[XX]
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>		

**Construction/Recoding:** (list lowest, highest, and ‘missing’ codes only, replace terms in [square brackets] with real numbers)

	<b>#BVQ_02</b>	<b>→BIRTH</b>
<i>Construction</i>		
<i>Codes</i>		[MIN BIRTH]
		[HIGH BIRTH]
		-9. No answer

**Optional: Recoding Syntax**

recode BVQ\_02 (MISSING=-9) (else=copy) into BIRTH.  
EXECUTE.

**AGE** - Age of respondent

This question can be asked as an alternative to asking about BIRTH. If AGE is not asked directly, it must be computed by DATEYR ‘year of interview’ minus BIRTH ‘year of birth’.

	National Language	English Translation
<i>Question no. and text</i>	...	Age of respondent
<i>Codes/ Categories</i>	[XX]	[XX]
		-9. No answer
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>	Age defined as year of interview subtracted year of birth. For an example 2019-1997=22.	

**Construction/Recoding:** (list lowest, highest, and ‘missing’ codes only, replace terms in [square brackets] with real numbers)

		→AGE
<i>Construction</i>		
<i>Codes</i>		[MIN AGE]
		[HIGH AGE]
		-9. No answer

**Optional: Recoding Syntax**

```
compute AGE=2019-BIRTH.
if BIRTH=-9 AGE=-9.
EXECUTE.
```

**EDUCYRS - Education I: years of schooling**

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	# BVQ_03 Hvor mange års fuldtids-uddannelse har du i alt?	How many years (full-time equivalent) have you been in formal education?
<i>Codes/ Categories</i>	1. Angiv antal år	1. Note years of education
	988. Ingen formel uddannelse	998. No education
	9998. Nægter at svare	9998. Refused
	9999. Ved ikke	9999. Don't know
<i>Interviewer Instruction</i>	Her tænkes både på folkeskole, gymnasiale uddannelser inkl. HF, HHX, HTX, HH og HG samt erhvervs- og videregående uddannelse. Men ikke erhvervspraktik, AMU-kurser og lignende. Hvis du er under uddannelse, så tæl det antal år, som du indtil videre har fuldført.	This includes both elementary school, upper secondary educations including common gymnasium, HF, HHX, HTX, HH and HG as well as vocational education and higher education. This does not include traineeship, vocational training and the like. If you are in training, count the number of years that you have completed so far).
<i>Translation Note</i>

### ISCO08 - Occupation ISCO 2008

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

**Optional: Recoding Syntax**

compute INTLANG=10. EXECUTE.
---------------------------------

**WEIGHT – Weighting factor**

Please report on whether you calculate any weighting variables. If you adjust for non-response bias, please enter the variable(s) on which the sample's distribution(s) is (are) adjusted to the population distribution(s). Please, also report if you apply any kind of rescaling.

<i>Design weight to adjust for unequal selection probabilities</i>	No	<input checked="" type="checkbox"/>
	Yes	<input type="checkbox"/>
<i>Weight to adjust for non-response bias</i>	No	<input type="checkbox"/>
	Yes	<input checked="" type="checkbox"/> → please specify variables used for calculation of weight  The following variables were included in the calculation, based on information from the national register, CPR: <ul style="list-style-type: none"> <li>• Gender: male/female</li> <li>• Age in 4 groups: 18-34, 35-49, 50-64 &amp; 65-79.</li> <li>• Ethnic origin in 2 groups: Danish origin and descendants</li> <li>• Family type in 4 groups: Singles without children, single parents, couples without children, and couples with children</li> <li>• Highest fulfilled education in 3 groups: Primary school, highschool/EUD/short-cycle higher education, and long-cycle higher education and PhD.</li> <li>• Socioeconomic status in 3 groups: Employed, pensioners and early retirement recipients, and others outside the labour force.</li> </ul>
<i>Are the final weights rescaled to net sample size (thus weighted sample size=unweighted sample size)?</i>	No	<input type="checkbox"/> → please specify target population represented by sum of all case weights
	Yes	<input checked="" type="checkbox"/>
<i>Note</i>		

**Construction/Recoding:**

	→ WEIGHT

**Optional: Recoding Syntax**

recode pervgt (else=copy) into WEIGHT.  
execute.
