

ISSP 2020 Japan

Japan

Please name the **ISSP module** which the documentation refers to (e.g., “*Health and Health Care / ISSP2011*”):

**Environment 2020**

Please name your **country**:

**Japan**

**SEX - Sex of respondent**

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	F1: Anata no seibetsu o okotae kudasai.	F1: Sex / Please circle the appropriate figure.
<i>Codes/ Categories</i>	1. Otoko	1. Male
	2. On'na	2. Female
	—	
<i>Interviewer Instruction</i>	—	
<i>Translation Note</i>	—	
<i>Note</i>	Respondent's sex can be known also from the sampling frame.	

**Construction/Recoding:**

<b>Country Variable Codes (in translation)</b>	<b>→ SEX</b>
If F1=1 then SEX=1	1. Male
If F1=2 then SEX=2	2. Female
Not used	-9. No answer

**BIRTH – Year of birth**

This question can be asked as an alternative to asking about AGE. If BIRTH is not asked directly, it must be computed by DATEYR ‘year of interview’ minus AGE ‘age of respondent’.

	<b>National Language</b>	<b>English Translation</b>
<i>Question no. and text</i>	F2: Anata no seinen o okotae kudasai. Bangō ni maru o tsukete, umare doshi o kinyū shite kudasai.	F2: Year of Birth / Circle the appropriate figure and indicate your year of birth.
<i>Codes/ Categories</i>	1. Meiji	1. Meiji
	2. Taishō	2. Taisho
	3. Shōwa	3. Showa
	4. Heisei	4. Heisei
<i>Interviewer Instruction</i>		
<i>Translation Note</i>		
<i>Note</i>	F2G: Era (1 Meiji, 2 Taisho, 3 Showa ,4 Heisei) F2N: Year Meiji 1-45 = 1868-1912, Taisho 1-15 = 1912-1926, Showa 1-64 = 1926-1989 Heisei 1-31 =1989-2019	
	Respondent’s birth year can be known from the sampling frame.	

**Construction/Recoding:** (list lowest, highest, and ‘missing’ codes only, replace terms in [square brackets] with real numbers)

	<b>Country Variable Codes/Construction Rules</b>	<b>→BIRTH</b>
<i>Construction</i>		
<i>Codes</i>	1923	[MIN BIRTH]
	2002	[HIGH BIRTH]
		-9. No answer

### ISCO08 - Occupation ISCO 2008

Please give the text of the source question(s) on the respondent's occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [-8] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

### SPISCO08 – Spouse, partner: occupation ISCO 2008

Please give the text of the source question(s) on the respondent's spouse occupation used in your field questionnaire. If ISCO08-codes are not coded directly from the responses, but derived from a country-specific occupation coding scheme, please provide a table of correspondence between country-specific and ISCO08 codes *attached as a separate file*. Also when you derive ISCO08 from another ISCO scheme, such as ISCO88, ISCO-COM (a variant developed for the European Union (EU)), or ISCO88-CIS developed by the Statistical Committee of the Commonwealth of Independent States, please document the source code and provide a correspondence list.

Please do **not** enter **standard** ISCO08 codes here, but report any deviations. **However, please note that country-specific codes, which are not part of the ISCO coding scheme cannot be accepted!**

Occupations should be coded on the 4-digit level of ISCO08. Occupational area 0 (Armed Forces occupations) needs some special attention. Since the ISCO variable is numeric, 4-digit codes starting with zero, such as 0110 will usually appear as 110 in the data file. It is therefore suggested that the only valid 3-digit codes in the data file are those armed forces occupations 110, 210 and 310.

In some special cases information concerning the occupation may be insufficient for 4-digit coding. Instead of coding these cases as [9998] "inadequately described" use 3-digit coding. In those very special cases where 3-digit coding is applied, fill in a zero for the missing digit. Example: code 131 is coded as 1310.

	National Language	English Translation
<i>Question no. and text</i>	F20: Dewa, anata no haigūsha (mata wa pātonā) ga omo ni shite irassharu shigoto no naiyō o gutaiteki ni gokinyū kudasai.
